GROW AND ENJOY YOUR OWN FRUIT. No fruit tastes better than that freshly harvested from your own garden or orchard. However, home freezers and public food lockers are making possible storing and enjoying fresh fruit throughout the year, extending the market and creating greater use for fruits.

PLANT NUT TREES for ornamental effect, comfortable shade, and delicious nuts. Pecan planting recommended for warmer parts of Virginia and states farther south. Hardy English Walnuts and blight-resistant Chinese Chestnuts adapted to most parts of the United States.

INCREASE THE BEAUTY AND VALUE OF YOUR REAL ESTATE with planned landscaping instead of haphazard planting. Landscaping is not limited to planting new homes, churches, schools and factories, but may be used in modernizing plantings on older property.

OFFERING THE NEWER AND BETTER VARIETIES. We are large, established growers and in position to supply reliable and popular older varieties; also new, improved ones tested and found worth-while. Assistance is available to you in selecting plant material best suited to your requirements.

CONTAINER-GROWN PLANT MATERIAL. Available in many varieties for year 'round planting, even when fruiting or in flower. Cost is slightly more than dormant plants. Quotations on request. Offered for drive-in trade or truck delivery only.

HORTICULTURAL ADVICE AND LANDSCAPE SERVICE AVAILABLE. Do not hesitate to write us for additional information in regard to fruits, nuts, or landscape plantings. If you are uncertain as to material which can be used to best advantage, send us a sketch of the grounds for recommendations. Should your planting problem require professional landscape service, please apply as early as possible as our landscape department is usually booked several weeks in advance. No charge is made for information furnished by letter or to callers at our office, but a nominal charge is made for making surveys and detailed plans. Helpful information on planting and care of plant material is furnished with order acknowledgment.

DEPENDABLE PLANTS AND INFORMATION. Our plant material is healthy, vigorous, state-inspected, grown under ideal soil and climatic conditions. We endeavor to be fair in our descriptions, mentioning unfavorable as well as favorable qualities a variety may possess. You may select from us with assurance.

GARDEN SUPPLIES. Plant Foods, Spray Materials, and other Garden Supplies—see pages 24-B, C, D, E, F and G.

VISITORS WELCOME. Main Nursery 3 miles south of Waynesboro on Lyndhurst-Sherando Lake Road—open Monday through Friday 7:30 a.m. to 5:00 p.m., Saturday until noon or by appointment. **Boxwood Gardens**, Route 250, near Afton. **Azalea Gardens**, Route 151, between Amherst and Afton, Virginia.

BOXWOOD GARDENS. Route 250, one and one-half miles east of Skyline drive entrance. Featuring Evergreens, Roses, Flowering Trees, Spring Flowering Bulbs, Potted Plants—including African Violets—ready to be taken home in your car. Also offering Garden Tools, Spray Materials, Plant Foods, Peat Moss and Seeds. During late April and early May thousands of Flowering Tulips, Daffodils and Flaming Azaleas are a special attraction.

AZALEA GARDENS. Route 151, between Amherst and Afton, Virginia. Specializing in Azaleas, Rhododendrons, Boxwoods, Hollies and other broad-leaved plant material. Azaleas are at their best in early May.

FRUIT

AND NUT TREE DEPARTMENT

**WAYNESBORO
NURSERIES**

Virginia's Largest Growers

On the following pages we offer finest strains of fruits and nuts our long experience affords. For thirty-seven years we have been constantly improving existing varieties and testing new introductions, making available to our customers the best money can buy.

Waynesboro Nurseries offer a new variety or strain only after its merits have been proven and it is considered worthy of introduction. Commercial growers are now planting chiefly Double Red Apple strains and recent introductions in early, better quality Peaches.

The importance of growing as much home fruit as possible is being recognized, not altogether for sake of economy, but much pleasure and satisfaction can be found in gardening and fruit raising. Fruit never tastes quite as good as when gathered from your own garden and orchards. Don't waste precious time and land by planting stock you can't be sure of. Waynesboro Nurseries can supply your needs with material thoroughly tested by performance.

PLANT WAYNESBORO NURSERIES' VIGOROUS FRUIT TREES
For Home Fruit Enjoyment and Profitable Commercial Crops

APPLES—The King of Fruits

OUR TREES INSPECTED REGULARLY

By Virginia State Entomologist, certifying they are apparently free from dangerously injurious insects and plant diseases. Also Apple, Pear and Cherry are frequently inspected by the Massachusetts Trueness-to-Name Inspection Service.

SUMMER AND FALL APPLES

Ripening Late June Through September
See Ripening Order Table this page.

These Apples have been neglected in commercial plantings and are now proving, in many cases, more profitable than winter varieties. In the home orchard a selection from this list will furnish fresh fruit from early summer until late fall—including new introductions and old home orchard favorites.

Anoka. Red, early bearer, often fruiting second year after transplanted. Large, excellent cooker. One of the best early Apples. Semi-dwarf; just the tree for a small lot.

Early Harvest. Well known, large, early golden yellow. An old home orchard Apple continuing in demand.

Grimes Golden. Spicy, medium size, golden yellow. Firm, crisp, tender flesh. Excellent for sauce, as well as eating from hand. Recommended for every home orchard. Also profitable commercially.

Lodi. Improved Yellow Transparent; larger, ripening a few days later. Growing in commercial demand.

Red June. Popular in the family orchard. Red. Medium size.

Smokehouse. Old home orchard favorite. Medium to large, firm, greenish background, red striped. Ripens over a period of several weeks.

Summer Rambo. In Virginia and adjoining states there is possibly no other Apple found in so many orchards. So well known that no home orchard is considered complete without it. Also popular with many commercial growers as it is always in demand at good prices. August. Large red striped, greenish yellow background. Makes delicious sauce.

Williams Early Red. A profitable red commercial summer Apple. Large for an Apple of its season. Ripens around middle of July. Prolific, early bearer. Fruit beautiful. Good shipper.

Yellow Transparent. Well known, transparent to golden yellow. Late June. Favorite for sauce. Early bearer. Gradually being displaced commercially by its offspring, Lodi, which is larger.

ENJOY FRESH FRUIT THROUGHOUT THE YEAR

By careful selection, Apples can be harvested from your trees over a period of six months and the better winter ones kept in storage until the new crop is harvested—making fresh fruit possible throughout the year.

Our list has been carefully made up after many years of growing and testing. The newer, better varieties are listed only after having been thoroughly tested and found to excel older ones of the same class.

Planters differ as to choice of Apples, size of trees, time to plant, etc. New Double Red Strains are displacing the older ones commercially, but for benefit of home orchard planters many old family favorites are still offered. Experienced planters are taking pollination into consideration in planting new orchards or even in replanting. So an assortment is recommended for this purpose. For further information on pollination, see page 4.

Ripening Order Summer and Fall Apples

Variety	Color	Variety	Color
Yellow Transparent	Yellow	Williams Early Red	Red
Lodi	Yellow	Summer Rambo	Red striped
Early Harvest	Golden Yellow	Smokehouse	Red striped
Red June	Red	Grimes Golden	Golden Yellow
Anoka	Red		

EARLY BEARING STANDARD SUMMER AND FALL HOME APPLE TREE OFFER

Selected for both season of ripening and early bearing qualities. The following group will normally begin bearing in one-half the time required for most Apples. Listed in ripening order.

1 Yellow Transparent	\$8.55	Also available in 2-year, 4-6 ft. size at \$6.75, postpaid to points east of the Mississippi; or 2-year, 3-4 ft. size at \$5.25, postpaid to points east of the Mississippi.
1 Anoka, Red		
1 Double Red Rome		
Total 3 Trees	3-Year, 6-7 ft. Size	Express Collect

STANDARD APPLE TREE PRICES

	1 to 5 Each	5 to 10 Each	10 to 30 Each	30 to 50 Each
2-yr., 4-6 ft. branched	\$2.00	\$1.80	\$1.60	\$1.40
2-yr., 3-4 ft. branched	1.50	1.35	1.25	1.10
1-yr., 4-6 ft. whips	1.75	1.60	1.40	1.25
1-yr., 3-4 ft. whips	1.30	1.20	1.10	.90
3 and 4-yr., 6-7 ft. Jumbo Size	2.90	2.75	2.60	2.40

These Jumbo trees are available in most varieties offered in this catalog.

NOTE: The height of our trees is listed conservatively as frequently many of the stronger growing varieties have more height than given above.

NOTE: As Vance Delicious is now in full production and an ample supply of trees is available, this outstanding strain is being offered at no advance in cost over standard varieties.

On quantities of 50 or more, submit your list for Commercial Growers' Prices.

WAYNESBORO, VIRGINIA

Summer
Rambo

Vance Delicious

DELICIOUS, DOUBLE RED IMPROVED EARLY RICHARED STRAIN

Solid bright red. Improved early strain of the original Richared Delicious, differing by earlier coloring, affording better prices.

NEW SPUR TYPE

Fruit of normal Double Red Delicious shape, color and quality, trees differing somewhat by being spur type and maturing at about seventy-five percent of the size of normal Apple trees. This New Spur Type Tree is not yet in full production in our nursery, so supply is limited. 25c extra per tree. Ask for commercial growers' prices.

STAYMAN, DOUBLE RED STRAINS

Large, juicy, crisp, commercial winter Apple; also home orchard favorite. The old original Stayman, now discarded, was lacking in color, which has been corrected in Double Red Strains as follows:

Cardinal Stayman. Bright Cardinal Red Strain discovered in a Double Red Stayman orchard in Shenandoah Valley of Virginia. Observed because of its conspicuous early solid red color. For fifteen years this selected strain has been under observation and test. Now offered first time for general planting; however, supply of trees is limited. 25c extra per tree. Ask for commercial grower's prices.

Double Red No. 201 Western Strain. Outstanding among Double Red Stayman Strains. Taking the lead in commercial sections. Solid, bright red. Early coloring, may be harvested in advance of the old Stayman; same size eating and cooking qualities. (Illustrated on page 5).

Lodi
See
Page 3

Improved Double Red

DELICIOUS, DOUBLE RED STRAINS

Best known, most extensively planted Apple. Large, pointed, semi-sweet. No Apple has produced as many Red Strains as Delicious. Much time and thought have been given to testing and selecting the most desirable ones. Each has some merit but all strains are not needed as the better qualities are to be had in Vance, Improved Early Richared and Spur Type Double Red Delicious.

VANCE DELICIOUS

SOLID BRIGHT RED—EARLY COLORING—HIGHER PRICES
Generally Considered Best of the Double Red Delicious Sports

The following is reprinted from August 1958 issue of EASTERN FRUIT GROWER:

"Vance Delicious Apples Ready for Market Ahead of Other Delicious Strains. Attractive Solid Red Apple Brings Premium Prices

"Eye-appeal" is an important feature in selling Apples as well as anything else today. To most consumers "picking apples" means selecting them at neighborhood supermarkets. The shopper will choose that Apple which is most attractive among varieties in the store.

That is why Double Red Strains of Delicious rate so highly. This Brilliant Red "Aristocrat" among Apples is good to look at, also has excellent quality. Delicious is the best known and most extensively planted Apple, and no variety has produced as many Red Strains. Much time and thought has been given to testing and selecting the most desirable ones and each has its own merits.

The Vance Delicious

Outstanding among Red Strains is Vance Delicious. Here is the most promising of all the Red Delicious Sports, chiefly because of its earlier coloring and maturity. It has all the normal Delicious qualities consumers prefer in Apples, plus its earlier coloring and earlier maturing. This makes possible marketing a week to ten days ahead of other Red Sport Delicious. It is generally considered Best of the Double Red Delicious Sports.

History

In 1929, the late R. G. Vance discovered in his Albemarle County (Virginia) orchard, a sport limb on a ten-year Delicious Tree producing Solid Bright Red Apples, coloring at least two weeks ahead of other fruit on the tree. After observing the highly colored Apples on this branch for two years in succession, Mr. Vance started top-working other trees from this limb.

Graftwood was made available to Waynesboro Nurseries of Waynesboro, Va., who introduced this New Double Red Delicious Strain, naming it Vance Delicious in honor of its discoverer.

Earlier Coloring — Better Prices

The late Albert R. Vance, who succeeded his father in orchard operations, wrote Waynesboro Nurseries on October 12, 1949, commenting as follows on early coloring and marketing of Vance Delicious:

"... In addition to the so-called Vance Delicious, we have growing two of the best known Red Sport Delicious varieties along with the regular common Red Delicious.

"On September 1st we started packing and shipping our Vance Delicious, which at that time were a solid bright red. We had ready sales for our entire crop of 5,000 bushels at satisfactory prices, and were compelled to turn down orders while waiting for a week to ten days for proper coloring of the other two Red Sport Delicious. During this ten-day delay waiting for color, there was a substantial decline in market prices.

"Had our entire crop been this so-called Vance Delicious, it would have been sold in early September at satisfactory prices, instead of much lower prices at later dates.

"This season has convinced me that Vance Red Delicious is the most desirable of the Red Delicious Sports. Our future plantings will be limited to this variety of Red Delicious."

Begins to Color in July

Here in the Shenandoah Valley of Virginia, this Vance Delicious Apple starts taking on red color in the middle of July and has achieved a solid crimson-red color and full maturity by the end of August.

This earlier coloring and ripening means that Vance Delicious Apples are ready for market at a time when people are hungry for a fresh, Delicious Apple. Reaching stores fully a week to ten days before the next earliest Delicious Double Red Strains, the Vance Delicious will bring premium prices and quick sales.

Popular in Other Areas

At the New York State Fruit Testing Association's farm at Geneva, New York, it was noted that Vance Delicious were ready for picking one week earlier than other popular Red Sports and in some seasons, even earlier.

Senator Harry F. Byrd, prominent Virginia apple grower, stated in a letter to Waynesboro Nurseries that Vance Delicious has given him "very satisfactory service."

Continuing to quote from his letter, Senator Byrd wrote: "Not long ago I was visited by a fruit grower from Michigan, and he said the Vance was the most popular Red Delicious in that area."

STANDARD APPLE TREE PRICES

	1 to 5 Each	5 to 10 Each	10 to 30 Each	30 to 50 Each
2-yr., 4-6 ft. branched ...	\$2.00	\$1.80	\$1.60	\$1.40
2-yr., 3-4 ft. branched ...	1.50	1.35	1.25	1.10
1-yr., 4-6 ft. whips	1.75	1.60	1.40	1.25
1-yr., 3-4 ft. whips	1.30	1.20	1.10	.90
3 and 4-yr., 6-7 ft. Jumbo Size	2.90	2.75	2.60	2.40

These Jumbo Trees are available in most varieties offered in this catalog.

NOTE: The height of our trees is listed conservatively as frequently many of the stronger growing varieties have more height than given above.

NOTE: New Spur Type Double Red Delicious and Cardinal Stayman, 25c extra per tree. As Vance Delicious is now in full production and an ample supply of trees is available, this outstanding strain is being offered at no advance in cost over standard varieties.

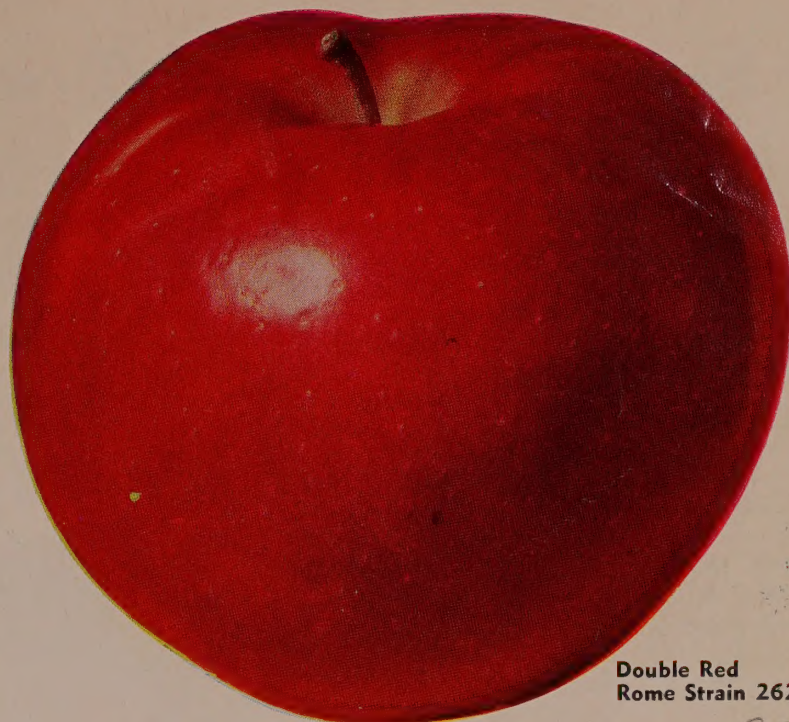

On quantities of 50 or more, submit your list for Commercial Growers' Prices.

WAYNESBORO NURSERIES

Apple Strains . . .

Double Red
Stayman
No. 201
See Page 4

Double Red
Rome Strain 262

ROME, DOUBLE RED

Double Red No. 262 Strain. Improved Northwestern Strain. Sport of the popular, well-known Rome Beauty, differing from old Rome by being solid bright red and coloring earlier. Growing in popularity with both growers and the trade. Ranks near the top in new commercial plantings. Generally recognized as best of all Red Romes. **SEE PLANTING TABLE PAGE 15**

RED YORKING • The York Supreme

One of the first Apples to be honored with U.S. Plant Patent—No. 125. Inheriting all the good qualities of the famous old York Imperial and 100% more color, which appears earlier in the season.

YORKING'S CHIEF ADVANTAGES

- COLOR.** Every Apple being a bright cherry-red with no trace of stripes.
- COLORS EARLY.** May be harvested two weeks ahead of York Imperial.
- MORE No. 1 APPLES.** There being no culls due to lack of color, pack will be much larger and profit greater.
- QUICKER, MORE PROFITABLE SALES.** A basket or box of No. 1 Apples, every Apple being a solid red, will sell more readily and at better prices than fruit with just enough color to pass inspection.
- COMBINATION APPLE.** Top-rating as a processing Apple. Due to its bright red color, excellent quality, and uniform size, it is also in popular demand on the fresh fruit market.

PLANT RED YORKING FOR MORE COLOR, EARLY COLOR, MORE No. 1 APPLES, AND PROFITABLE SALES.

York Imperial

Yorking

U.S. PLANT PATENT No. 125, MAY 29, 1935

YORKING has proved to be a great discovery, introduced at a time when there was need of better color and quality to meet increasing competition from citrus fruits and Apples from other sections.

Senator Harry F. Byrd, in addressing 5,000 fruit growers at his annual picnic, reported finding Yorking superior to all Red York strains tested. He also reported **Vance Delicious** as extremely promising and **Double Red Rome 262** a good early strain.

Mr. J. Hannon Morris, one of the most successful growers of Augusta county, Virginia, depended much on York Imperial, but switched to Red Yorking when trees first became available twenty-five years ago and continues to plant. Red Yorking was found not only tops as a processing Apple but makes a fancy fresh fruit pack, affording two outlets.

The above print was made from a drawing of average samples of the fruit of Yorking and York. While every Yorking on the tree was a solid red, many of the Yorks were green and others only showed traces of red stripes.

WAYNESBORO, VIRGINIA

Best Selections of WINTER APPLES

Yellow
Delicious

Winesap, Old Virginia Strain. Comes as near being adapted to all soils and climates as any Apple we know. Medium size, red skin slightly streaked with yellow. Flesh firm, crisp, sub-acid. Good keeper, making it popular for home and commercial orchards.

Yellow Delicious. Also known as Golden Delicious. Conical shape, golden yellow. Early, prolific bearer. In demand for home orchards; also ranks near the top commercially. Good for processing. Long keeper. Recommended as a cross pollinator.

York Imperial. At one time the most extensively planted commercial Apple in famous Shenandoah Valley and Blue Ridge area of Virginia, West Virginia and Pennsylvania. Greenish yellow background, red striped cheek. Prolific bearer, excellent keeper. Being displaced by its offspring, Yorking, a Solid Red York. See illustration page 5.

Term applies to varieties harvested in late fall and suitable for storing for winter use. The long keeping quality of these Apples is responsible for their making up a large percent of home and commercial orchard plantings.

Delicious, Double Red. See page 4.

Jonathan, Double Red. Improved, well-known, solid bright red. Popular in both commercial and home orchard plantings. Excellent cooker. Early winter.

Lowry. Resembles Delicious in quality; mild sub-acid. Medium to large, mahogany-red. Remarkable keeper; keeping even better than Delicious in cold storage. Frequently escapes late spring frosts because of its long blooming period and hardiness.

N. W. Greening. Large, greenish yellow. Good cooker. Due to its early, prolific bearing habits and being in demand as a processor, N. W. Greening is proving profitable and being more extensively planted.

Rome, Double Red. See page 5.

Stayman, Double Red Strains. See page 4.

Virginia Beauty. Native of the state. An Apple of which Virginia is proud. Late fall and early winter. Resembles Red Delicious in quality and shape but darker color. Excellent quality.

6-TREE HOME APPLE ORCHARD

Ripening from early to late, affording fresh fruit throughout the year. We recommend the following as being especially suited for a home orchard collection:

Early Lodi	Double Red Stayman No. 201
Summer Rambo	Winesap, Old Virginia Strain
Vance Double Red Delicious	Yellow Delicious

One each of above varieties—total six trees

2-Year, 4-6 ft. Size **\$11.65**

Postpaid to points east of the Mississippi.

Also available in 2-year, 3-4 ft. size at \$8.85, postpaid to points east of the Mississippi.

SAVE TIME IN GROWING FRUIT

BY PLANTING SUPER AND BEARING SIZE TREES

Will furnish fruit much earlier than smaller, younger trees. Recommended for replanting where pollination is a problem; also for planting home orchards. At this time we have available the following varieties in large trees, but supply is limited, so please mention second choice.

*Delicious, Double Red	Williams Early Red
*Jonathan, Double Red	Winesap
N. W. Greening	Yellow Delicious
Red Summer Rambo	*Yellow Transparent
Stayman, Double Red	Yorking

*Indicates varieties especially recommended for pollination

PRICES—5 and 6-Yr. Trees

	1 to 3 Each	3 or more Each
5-yr., 7- 8 ft. Super Size	\$6.00	\$5.75
6-yr., 8-10 ft. Bearing Size	7.50	7.00

Virginia
Winesap

POLLINATION. Apples such as Winesap, Double Red Stayman and N. W. Greening do not fruit consistently unless pollinated by other varieties. Among the good pollinators are Double Red Delicious, Grimes Golden, Double Red Jonathan, Lowry, Yellow Delicious and Yorking.

One-Tree Apple Orchard

Furnishing Fruit From Early To Late

5-IN-1 TREE

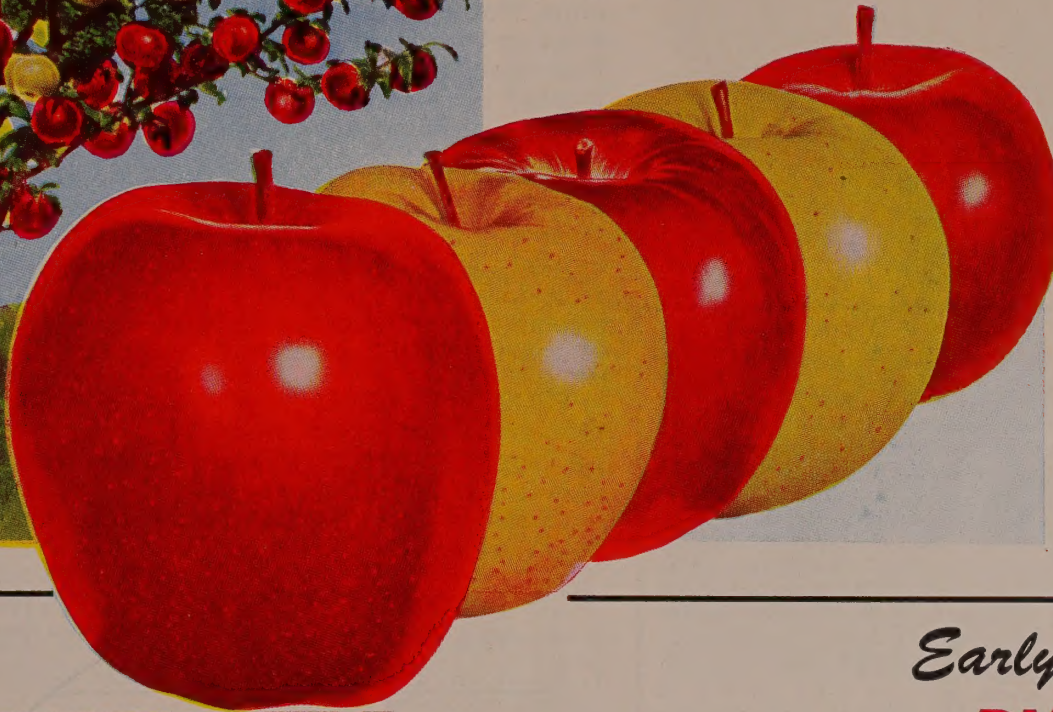

Standard size Apple trees differing by being grafted to Apples ripening earliest to latest. Ideal where space can accommodate only one tree, two or three trees. The varieties grafted on 5-In-1 Trees will vary, but generally consist of Yellow Transparent, Summer Rambo, Stayman, Yellow Delicious, and Red Delicious. 3-yr., 4-5 ft. size, \$3.50 each in lots of 1 to 3; 3 or more, \$3.25 each. 3-yr., 5-6 ft. size, \$4.50 each in lots of 1 to 3; 3 or more, \$4.25 each.

4-IN-1 TREE

Produces in same manner as 5-In-1, but having one less variety. 3-yr., 4-5 ft. size, \$3.00 each in lots of 1 to 3; 3 or more, \$2.75 each.

3-IN-1 TREE

Consists of three choice Apples ripening at different seasons. 3-yr., 4-5 ft. size, \$2.50 each in lots of 1 to 3; 3 or more, \$2.25 each.

Early Bearing

DWARF APPLE TREES

Decorative and Fruitful

**Early Bearing
Adapted to Limited Space
Fruit Easily Harvested
Full Size Fruit**

Made possible by double grafting, using a section of dwarf stock, which dwarfs the tree. Produces an early-bearing dwarf tree, frequently bearing second year after transplanted. Trees require less space, fruit is easily harvested. Especially desirable for small home grounds, where trees not more than 10 to 15 ft. high are desirable.

Dwarf Apple Trees available in following varieties:

Delicious, Double Red	Summer Rambo
Stayman, Double Red	Yellow Delicious
	Yellow Transparent

2 and 3-yr., 3-4 ft. trees, \$3.25 each in lots of 1 to 5; 5 to 10, \$3.15 each.

2 and 3-yr., 4-5 ft. trees, \$4.00 each in lots of 1 to 5; 5 to 10, \$3.75 each.

SAVE MOUSE-DAMAGED TREES

By bridge grafting, using 2-year Apple seedlings or 1-year grafted whips selected for bridge grafting. 3-4 ft. size, 30c each in lots of 50 to 300; 300 up, 25c each.

Waynesboro

Commercial and

MODERN PEACH GROWING

The Peach, an old favorite in the fruit family, is now making new friends. Recent chemical discoveries have simplified spraying, market expansion has been made possible by modern methods of freezing, home freezing units, frozen food locker plants, new methods of canning, keeping fruit fresh in storage, and delivering pre-chilled tree-ripened fruit to the market. Planting of properly located orchards consisting of improved varieties has promise of being a profitable investment.

PEACHES FOR THE MODERN MARKET. Population in the South has advanced with industrial development. Improved highway and hauling facilities are enabling markets, large and small, to provide consumers with fresh fruit daily from the orchard. For such a market it is advisable to plant Peaches of better quality, ripening over a longer period. See page 10.

FROZEN PEACHES IN GREAT DEMAND. Frozen fruit processing plants have created a new, profitable market for Peaches. Home freezers and frozen food lockers have likewise extended the local market for fresh fruit. Freezing qualities of varieties are being considered and referred to in Planting Table on page 10.

ADVANTAGES IN PLANTING WAYNESBORO NURSERIES' TREES

1. We are large growers with thirty-seven years experience in growing trees and serving planters.
2. Located in commercial fruit belt, making possible studying varieties and cutting budwood from bearing orchards.
3. Deep, loamy fertile soil, adapted to growing vigorous trees with excellent root system.
4. New varieties made available after being thoroughly tested in area served.
5. Our fleet of trucks makes possible safe and prompt deliveries of commercial orders in nearby sections. Mail orders may be shipped parcel post, express, or motor freight.

NEW WASHINGTON PEACH

New, early, hardy, frost-resistant yellow freestone recently introduced by Virginia Agricultural Experiment Station and named for first president of the United States. For many years the Virginia Agricultural Experiment Station has been cross breeding and testing Peaches, searching for a variety worthy of the name Washington. At last this new Peach has been introduced and is being highly recommended for home and commercial use as it possesses high quality, excellent flavor, large size, attractive color and firm, yellow flesh. Withstands more frost and winter injury than the average Peach, producing full crops when others fail. Ripens three weeks ahead of Elberta. Prolific.

We quote as follows from a report by Dr. George B. Oberle, Horticulturist at Virginia Agricultural Experiment Station:

"This is the first of several varieties developed at the station to be released. As they are released, others will be named after other Virginia-born Presidents.

"Washington's parents were Sunhigh, a familiar variety, and VPI 15, an experimental variety. It combines the frost resistance of VPI 15 with the large size, firm flesh, attractive color and extremely high quality of Sunhigh.

"The new Washington was one of the few Peaches that came through with a full crop in 1955 when most of the commercial varieties in Virginia lost most or all of their crop because of a late March freeze."

Hale-Haven

Belle
of Georgia

WAYNESBORO NURSERIES

PEACHES

Home Orchard Varieties

We Offer the Following *Choice Peaches*

Note.—See page 10 for ripening order.

*Indicates good freezing qualities.

**Indicates excellent freezing qualities.

***Belle of Georgia.** An old Peach unsurpassed as a white freestone for home and commercial use. Large, white background, red cheek. Sweet, excellent peachy flavor. August.

****Blake.** New Jersey Experiment Station introduction. Yellow freestone. Elberta type; week earlier, higher color, better shipping qualities and excellent freezer. August.

***Coronet.** New, early yellow freestone introduction by U. S. Department of Agriculture. Yellow background with bright, attractive red blush. Firm but melting, smooth textured. Vigorous, productive. July.

****Dixigem.** Originated by U. S. Experiment Station, Fort Valley, Georgia. Yellow freestone ripening just ahead of Golden Jubilee. Medium size, bright red blush on attractive yellow background. Fine textured, excellent flavor. Vigorous, prolific. July.

Dixired. U. S. D. A. introduction. Medium size, yellow clingstone. Acquires attractive red blush long before ready to pick. Especially desirable because of its earliness and high quality. July.

Early-Red-Fre. Large white freestone ripening around July 15th. Good color, prolific.

***Golden Jubilee.** Early, yellow freestone. Good quality. Excellent for home consumption. Lacking in firmness demanded in a commercial Peach. July.

****Hale-Haven.** Large, yellow freestone. Introduced by Michigan State Experiment Station. Two weeks earlier than Elberta, making an excellent combination with Redhaven and Elberta. Ranks high in number of trees being planted.

***Jerseyland.** Recent introduction by New Jersey Experiment Station. Large, firm, attractive yellow freestone. Week earlier than Golden Jubilee; better shipper.

****J. H. Hale.** Firm, yellow freestone. Golden yellow skin, red cheek. Demands top prices on market because of its large size and shipping qualities. Ranks high commercially. August.

***Keystone.** Recently introduced by U. S. D. A. Experiment Station, Fort Valley, Georgia. Large, highly colored, round. Yellow freestone. Firm, good flavor. Vigorous, productive. Especially adapted to southern Peach areas. Follows Golden Jubilee.

****Ranger.** New yellow freestone introduced by U. S. D. A. Medium to large, highly colored. Flesh medium firm, good flavor. Vigorous, prolific. Especially well suited to home consumption and local markets. Late July.

***Redhaven.** Bright red coloring on yellow background. Smooth, almost fuzzless. Firm yellow freestone. Ripens uniformly; should be thinned for best results. Strong grower and prolific. Has produced full crops in orchards where other fruit buds were winter-killed. Five days earlier than Golden Jubilee. Ranks near top in commercial plantings.

****Redskin.** Introduced by Maryland University Experiment Station. Cross between Hale and Elberta. Yellow freestone. Solid, bright red. Firm, good shipper, excellent quality. Trees vigorous, productive. Hardy in bud, frequently producing full crops when other varieties suffer frost damage. Profitable commercially. Few days ahead of Elberta.

***Rich Haven.** Introduced by Michigan State Experiment Station. Fruit large, round, uniform in size and shape. Yellow freestone. Golden background, red blush. Firm, sweet flesh, tough skin. Excellent shipper. Fifteen days earlier than Elberta.

Elberta

***Elberta.** Continues to be a leading commercial Peach. Not the best quality, but its size, color and firmness combine to give it a prominent place in both commercial and home orchard planting. Yellow freestone, red cheek. Mid-August. The yellow freestone Peach season has been extended by recent introductions, furnishing Peaches of excellent quality from early July until late August. See Ripening Table page 10.

Redhaven

TREE-RIPENED PEACHES

Sweetest and best flavored. Enjoy the best by planting and growing tree-ripened Peaches for home use. The following are recommended for a home orchard:

2 Redhaven 2 Belle of Georgia 2 Elberta
6-Tree Home Orchard, 5-6 ft. Jumbo Size, \$10.95, Express Collect.
Also available in 3-4 ft. size at \$7.75.
Postpaid to points east of the Mississippi.

PEACHES that Produce!

****Rio-Oso-Gem.** Enormous, solid red. Yellow freestone ripening ten days later than Elberta. Noted for excellent quality, high color and firmness in shipping. Originated on Pacific Coast but becoming famous in the East. Claimed by some as world's best late Peach. Late August.

Shipper's Late Red. Large, round, yellow freestone with attractive red coloring. Few days later than Elberta; better quality, sells for as much or more. Rates high as commercial Peach; equally as popular for the home orchard. Hardy, strong grower, prolific.

***Slappey.** Sweet, highly flavored yellow freestone. Purely a home orchard Peach. Considered best of all as a canner as it retains its sweetness and excellent flavor. Late July.

****South Haven.** Introduced by Michigan Experiment Station. One of the first results of the efforts of various state and federal experiment stations to introduce Peaches of better quality. Hardy in bud, vigorous. Large yellow freestone, excellent quality. Follows Hale-Haven.

***Summercrest.** Introduced by New Jersey Experiment Station. Mid-season yellow freestone with good color, sweet flavor. Exceptionally vigorous. Ripens with Belle of Georgia.

***Sunhaven.** Our earliest Peach. Another Michigan State Experiment Station introduction. Large, round, yellow flesh. Good color. Resembles Redhaven but ten days earlier. Fruit keeps and handles well for such an early maturing variety. Hardy in bud and bloom. Freestone when fully ripe.

****Sunhigh.** A New Jersey Experiment Station Peach, ripening fifteen days before Elberta. Large, bright red, coloring all over before it ripens. Yellow flesh; freestone. Firm shipper. Top-ranking commercial Peach. Close rival to Elberta in number of trees planted.

Protect Your Peach Trees From Borers by Using DDT or Ortho Borer Spray. See page 24-C

Shropshire Damson

Abundance Plum

Methley Plum

Early, Prolific Bearers—Easily Grown.
Should be in Every Home Orchard

Waynesboro

Selected PLUMS

There are two distinct types of Plums—Oriental and European. The Oriental are generally quite juicy and tender, best suited to serving raw, fresh from the trees. The European are the firmer types, used for canning, preserving, drying, etc., also delicious as a fresh fruit. The Prune family belongs to the European type Plums. For best results, it is recommended that two or more varieties be planted, providing for cross pollination.

Abundance. One of the best known Orientals. Bright cherry-red. Oblong, tapering to a point. Flesh orange-yellow, melting, rich and highly aromatic. Abundant, annual bearer. August.

Burbank. Long-stemmed favorite. Oriental type. Medium size, nearly globular. Purplish red with deep yellow flesh. Very sweet, with a peculiar, agreeable flavor. Early bearer. August.

Green Gage. European type. Old favorite for home use because of its excellent quality and adaptability to canning and preserving. Egg-shaped. Purplish green skin. August.

Mammoth Golden. Large, beautiful, delicious golden hybrid Plum. Freestone. Early August.

Methley. Recent introduction which is rapidly gaining in popularity due to its fine quality and attractive appearance. Fruit medium to large, reddish purple with red flesh. Juicy, sweet, with distinctive flavor. Regular bearer. Adapted to wide range of soils. July.

Shropshire Damson. Improved Blue Damson, larger than old type, but possessing all of its good qualities. At one time the Damson was considered only a home orchard fruit but is now being grown commercially for jams and preserves. Late bloomer, early bearer, sure cropper. Late August.

Stanley Prune. Improved Prune introduced by New York Experiment Station and considered by many as the best for home use. Also being planted commercially for local processing plants or for fresh fruit markets. Large, firm, dark blue, juicy, fine-grained, tender, sweet. Late August.

Stanley Prune

HOME PLUM ORCHARD COLLECTION

Collection consisting of:

1 Methley. Early.

1 Abundance. Midseason.

1 Shropshire Damson. Late.

Total—Three 3-4 ft. Trees, offered as a group for \$6.55.

Postpaid to points east of the Mississippi.

- 1 Early Red June Apple
 - 1 Double Red Delicious Apple
 - 1 Elberta Yellow Freestone Peach
 - 1 Improved Blue Shropshire Damson
 - 1 New Blight-resistant Orient Pear
 - 1 Large Montmorency Red Pie Cherry
- Total 6 Fruit Trees 2-year 3-4 ft. Size—also one each Blue Concord and White Niagara Grapes, 2-year vines—

All for **\$12.65**

Postpaid to points east of the Mississippi.

Nectarine

NECTARINES

A delicious fruit listed by some as a fuzzless Peach. Tree habits and quality of fruit similar to those of the Peach with exception of fruit being smooth like the Plum. New improved introductions have stimulated commercial culture, which is proving profitable.

We offer the two following New Nectarines recently introduced and named by Virginia Agricultural Experiment Station. Vigorous, productive. Respond to normal Peach culture and sprays.

Lexington. Yellow-fleshed freestone with red and yellow skin. Ripens two weeks before Elberta Peach.

Redbud. White-fleshed freestone. Highly colored skin. Ripens a week ahead of Lexington.

Nectarine Prices

	1-5	5-10	10-30
	Each	Each	Each
4-6 ft.	\$2.35	\$2.25	\$2.00
3-4 ft.	2.00	1.85	1.60

NOTE: Also available at above prices the older Nectarines, **Redchief**—white-fleshed freestone; **Cavaller**—yellow-fleshed freestone.

NEW NECTARINE OFFER

Consisting of 1 each Lexington and Redbud, total two 4 to 6 ft. trees for \$4.95, postpaid to points east of the Mississippi.

Large Montmorency Pie Cherry

PRICES ON PIE CHERRIES

Note.—On quantities of more than 50, write for commercial growers' prices.

HANSEN HYBRID BUSH CHERRY

Purplish red, sweet fruit, one-half inch or more in diameter. Excellent for serving fresh and for jelly.

Dwarf, approximately 3 feet in height and spread. Ornamental as well as fruitful, being covered with white flowers in spring, foliage turning red in autumn. Ripens early July.

3-year bearing size bushes:
\$1.50 each; \$15.00 per doz.

North Star DWARF CHERRY

Truly a Dwarf Cherry. Tree matures at around 6 feet. Large, dark mahogany-red, slightly acid pie Cherry. Ripens in June. Early, prolific bearer. Ideal where space is limited.

3-4 ft. \$3.50 each
4-5 ft. \$4.75 each

[12]

ALL PURPOSE

Two Distinct Classes Pie and Sweet Cherries

The Large Montmorency is the most popular Pie Cherry. Outstanding among the Sweets is the Greenwood, a dark red; and the Napoleon, a light wax. All others on our list are also worthy of a place on any table.

New processes of freezing afford this fruit great possibilities, as fresh Cherries may be served throughout the year. The frozen pie industry is now using large quantities of Pie Cherries, increasing Cherry consumption. As a commercial fruit it is coming into its own, but if you are not in position to grow Cherries commercially, why not plant on the home grounds, where you can enjoy blossoms and shade, as well as fruit for family use?

Pollination. Sweet Cherries bear heavier and more regularly when cross pollination is provided for. Planting two or more varieties is recommended. Pie Cherries are generally self-fruitful.

PIE CHERRIES

Early Richmond. Earliest pie Cherry. Bright red, round, medium size, young prolific bearer.

Large Montmorency. The leading pie Cherry and most extensively planted of all Cherries. Large, midseason, dark red. Small seed, firm flesh. Ninety per cent of all frozen Cherries used for pies are Montmorency. Also just as popular in the home orchard. Makes beautiful lawn tree.

Our Large Montmorency Cherries are propagated from virus-free trees, which many commercial growers consider important.

CHERRIES...

SWEET CHERRIES

STANDARD SWEET CHERRIES

Black Tartarian. Large, purplish black. Tender, juicy, very rich. Vigorous grower, prolific bearer. Early.

Governor Wood. Famous early wax. Heart-shaped. Light yellow flushed with red. Firm and sweet. Vigorous, productive.

Napoleon. Most popular Wax Cherry. Two weeks later than Governor Wood; larger, better shipper. Beautiful golden background, bright red cheek.

PRICES ON STANDARD SWEET CHERRIES

	1 to 5	5 to 10	10 to 30	30 to 50
	Each	Each	Each	Each
6-7 ft. Jumbo	\$3.30	\$3.15	\$3.00	\$2.85
4-6 ft.	2.75	2.60	2.45	2.30
3-4 ft.	2.30	2.15	2.00	1.85

Note.—On quantities of more than 50, write for commercial growers' prices.

4-TREE HOME CHERRY ORCHARD

Consisting of one each Early Richmond and Large Montmorency pie Cherries; also one each Napoleon Yellow Wax and Greenwood, Dark Red—two of the best Sweets.

All 4 trees in 3-4 ft. size—only \$9.45.

Postpaid to points east of the Mississippi.

PRIZE SUPER SWEET CHERRIES

Greenwood. Enormous mahogany-red, sweet fruit; small seed. Firm, excellent shipper, as well as an ideal Cherry for roadside stands and home use. Vigorous grower, prolific bearer. Apparently adapted to a wide range of soils and can be grown with a minimum amount of attention. However, it responds well to modern cultural practices.

Windsor. Giant, late, juicy, firm. Prolific. Blackish maroon. Recommended for cross pollination. Planted commercially and for home use.

PRICES ON SUPER SWEET CHERRIES

	1 to 5	5 to 10	10 to 30	30 to 50
	Each	Each	Each	Each
6-7 ft. Jumbo ..	\$3.60	\$3.45	\$3.30	\$3.10

Sweet, Juicy PEARS

MOST POPULAR STANDARD PEARS

The Pears we offer have been thoroughly tested and found adapted to areas served. Selected to furnish fresh fruit from July to January.

Unfortunately, blight has prevented more extensive Pear culture. This is now being overcome with blight-resistant Orient.

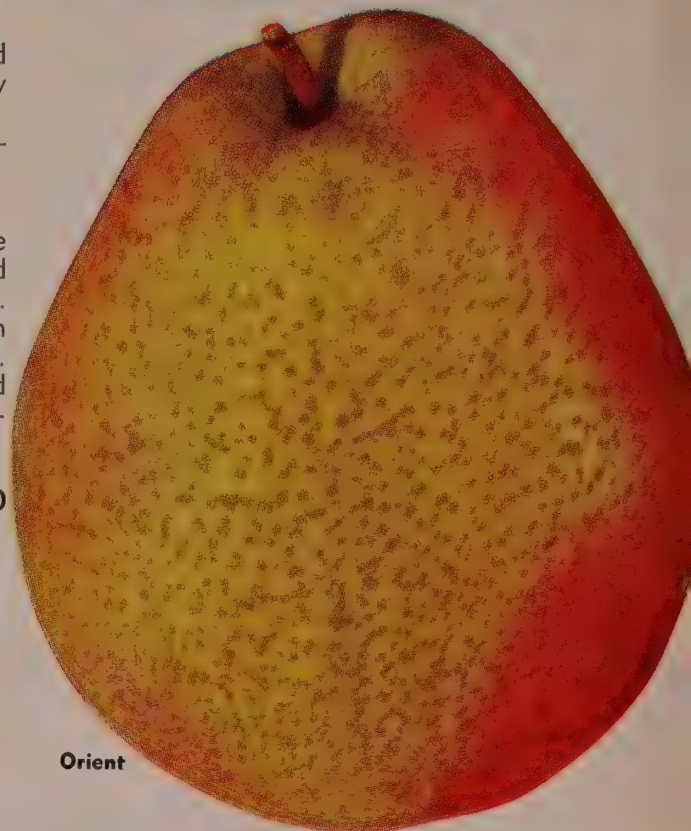

ORIENT BLIGHT-RESISTANT PEAR

Introduced by Tennessee Experiment Station. Crossing Chinese and European strains produces a blight-resistant Pear of good quality, adapted to areas where blight makes others impossible. Large, vigorous trees bearing enormous crops. Round, yellowish background with red blush. Juicy, melting, mild, sub-acid flavor. Creamy white flesh. Excellent for canning. Late August. If troubled with Pear blight, be sure with Orient. Excellent pollinator for Bartlett and Seckel, which require cross pollination.

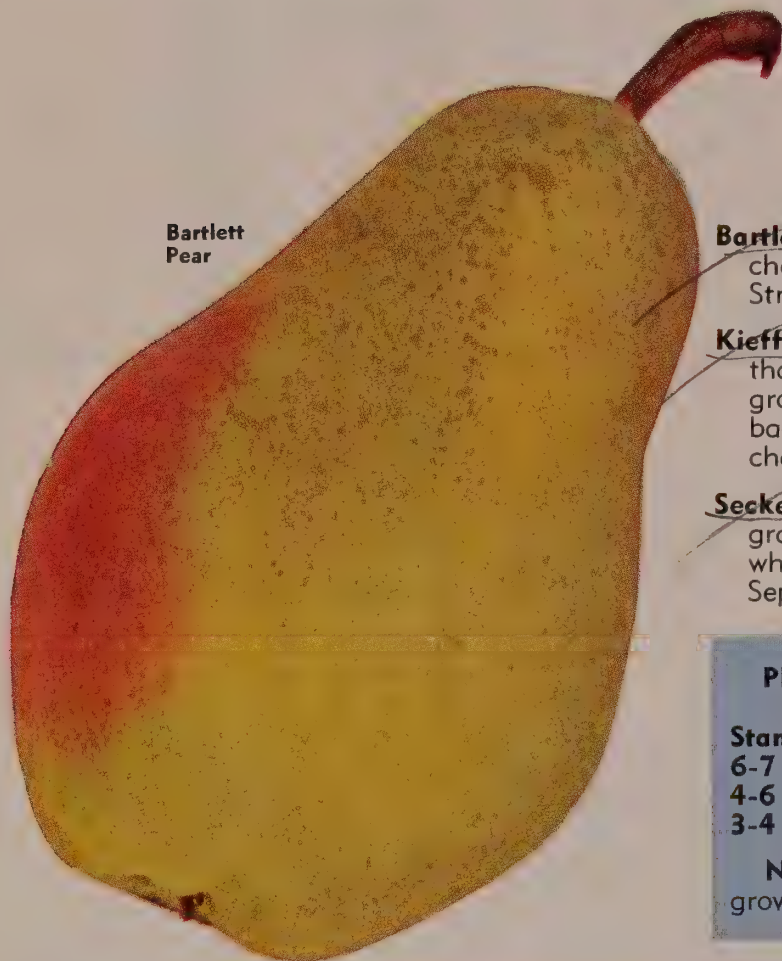

PRICES ON ORIENT PEAR

Standard Trees	1 to 5 Each	5 to 10 Each	10 to 30 Each
6-7 ft. Jumbo size	\$3.50	\$3.35	\$3.20
4-6 ft.	2.75	2.65	2.50
3-4 ft.	2.50	2.35	2.20

Note.—Ask for commercial prices on larger quantities.

Orient

Bartlett
Pear

OLD HOME ORCHARD FAVORITES

Bartlett. Well-known, large, long, rich golden yellow with red cheek. Thin-skinned, buttery and melting; rich musky flavor. Strong grower, bears young and abundantly. August.

Kieffer. Popular canner. Possibly planted in more home orchards than any other Pear. Less subject to blight than many, strong grower, early and prolific bearer. Large bell-shaped; golden background with red blush. Recommended for the home orchard, local markets, and roadside stands. Late September.

Seckel. The famous little brown, rusty-colored, sweet Pear. Fine-grained; excellent quality. Ideal for pickling and canning whole, as well as enjoyed when served fresh from tree. Late September.

PRICES ON BARTLETT, KIEFFER AND SECKEL PEARS

Standard Trees	1 to 5 Each	5 to 10 Each	10 to 30 Each
6-7 ft. Jumbo size	\$3.25	\$2.90	\$2.70
4-6 ft.	2.35	2.25	2.00
3-4 ft.	2.00	1.85	1.60

Note.—On quantities of more than 30, write for commercial growers' prices.

IDEAL HOME ORCHARD STANDARD PEAR COLLECTION

Consisting of:

1 Orient 1 Bartlett 1 Seckel

Total—3 trees, 3-4 ft. size, \$6.95.

Postpaid to points east of the Mississippi.

EARLY BEARING DWARF PEARS

Frequently used in landscape plantings for ornamental effect, as well as for growing fruit. Early bearing. Adapted to limited space.

Bartlett and Seckel. 2-yr., 3-4 ft., \$3.25 each. One each Bartlett and Seckel—total two 3-4 ft. trees—\$6.85, postpaid to points east of the Mississippi.

Special FRUITS- FIGS

To Be Enjoyed Fresh From the Tree or Preserved

A southern fruit, grown only in the southern and eastern part of Virginia and in states farther south; not recommended for general planting north of Virginia but may be grown farther north if given winter protection. Delicious Figs will reward you for your efforts. One of the earliest trees to bear, often producing fruit the first year after being transplanted. The Fig is too well known throughout the South to require a detailed description. There are a dozen or more varieties, the **Brown Turkey** and **Celestial** being the most hardy and popular.

Brown Turkey. Dark brown skin covered with thick blue bloom. Flesh red, very delicious flavor. Popular, well-known.

Celestial. An old favorite. Prolific. Light in color. Sweet and excellent. Found in home gardens throughout the South, as well as planted commercially in some sections. Most hardy of all Figs.

HOME FIG OFFER

Consisting of:

1 Brown Turkey
1 Celestial

Total two trees,
3-4 ft. size— **\$4.95**

Postpaid to points east of the
Mississippi.

TRAVIS MULBERRY. Hybrid Black Mulberry, being the largest, sweetest and most delicious. Many people enjoy fresh Mulberries from the tree; others plant them for poultry and birds. 4-6 ft., \$2.35 each in lots of 1 to 5; 5 to 10, \$2.25 each; 10 or more, \$2.00 each.

RUSSIAN MULBERRY. Hardy, prolific. Sweet fruit. Rapid grower, annual bearer. 4-6 ft., \$2.00 each in lots of 1 to 5; 5 to 10, \$1.85 each; 10 or more, \$1.60 each. 3-4 ft., \$1.75 each in lots of 1 to 5; 5 to 10 \$1.55 each; 10 or more, \$1.40 each.

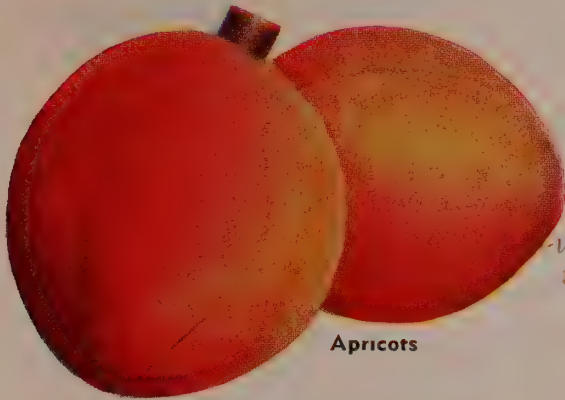

ORANGE QUINCE. Favorite fruit, noted for making Quince honey and tasty preserves. Large, Orange-shaped; fine, golden, firm flesh of excellent quality. Best known Quince.

	1-5 Each	5-10 Each
4-6 ft.	\$2.75	\$2.65
3-4 ft.	2.50	2.35

Paw Paw. A fruit native to Virginia. Somewhat resembles the Banana in appearance and flavor. Trees hardy, easily grown, early bearers; mature at approximately 15 ft. 2-3 ft. \$1.95 each, or 3 for \$5.50.

NATIVE AMERICAN PERSIMMON. A native fruit. Adapted to a wide range of soil and climate. Starts fruiting early, ripening golden brown in autumn, frequently hanging on trees until mid-winter. 4-6 ft. size, \$2.35 each in lots of 1 to 5; 5 or more, \$2.25 each. 6-7 ft., \$3.25 each in lots of 1 to 5; 5 or more, \$3.00 each.

ORIENTAL PERSIMMON. The culture of this delicious fruit has been somewhat curtailed because many are not familiar with it or regard it as a tropical fruit. While it is generally grown commercially in warmer climates, it can be successfully grown in eastern and southern Virginia, along the coastline farther north and generally throughout the South. Delicious, sweet fruit, frequently 3 inches in diameter. Large, orange-red, usually seedless, ripening in autumn. 4-6 ft., \$2.75 each in lots of 1 to 5; 5 to 10, \$2.65 each; 10 to 30, \$2.50 each.

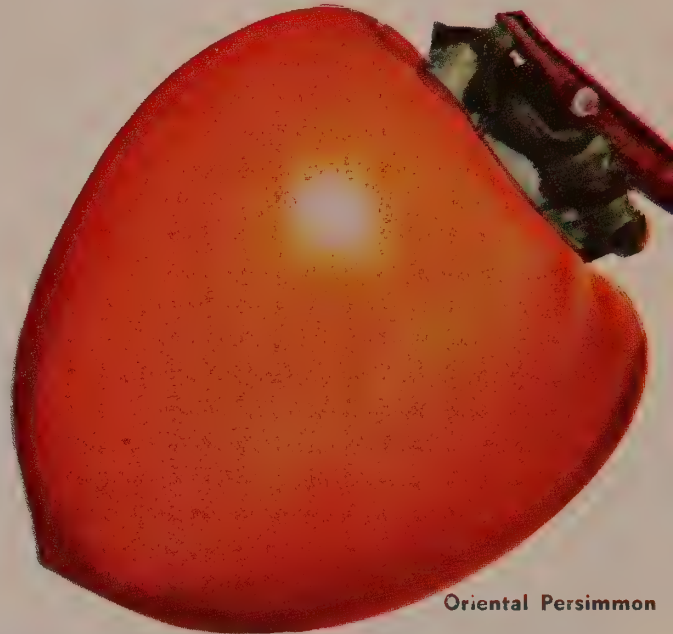

Apricots

SUPERB HARDY APRICOT

Delicious. Just as hardy and as easily grown as Peaches. Our Russian strain often succeeds where Peaches fail! Medium size, golden yellow. Freestone. Excellent quality. Early bearer.

	1-5 Each	5-10 Each	10-30 Each
4-6 ft.	\$2.35	\$2.25	\$2.00
3-4 ft.	2.00	1.85	1.60

POLLINATION: Most fruit and nut trees bear more consistently when cross pollination is provided for. Planting in lots of two or more is advisable.

Time required for trees and plants to begin fruiting after being transplanted may vary considerably, depending somewhat on the age and size of plant at time of transplanting, as well as the nature of the soil, care given, the season, and many other conditions. Even some varieties of a class will begin fruiting earlier than others. So the above table gives only approximate bearing ages under normal conditions.

Outstanding GRAPES

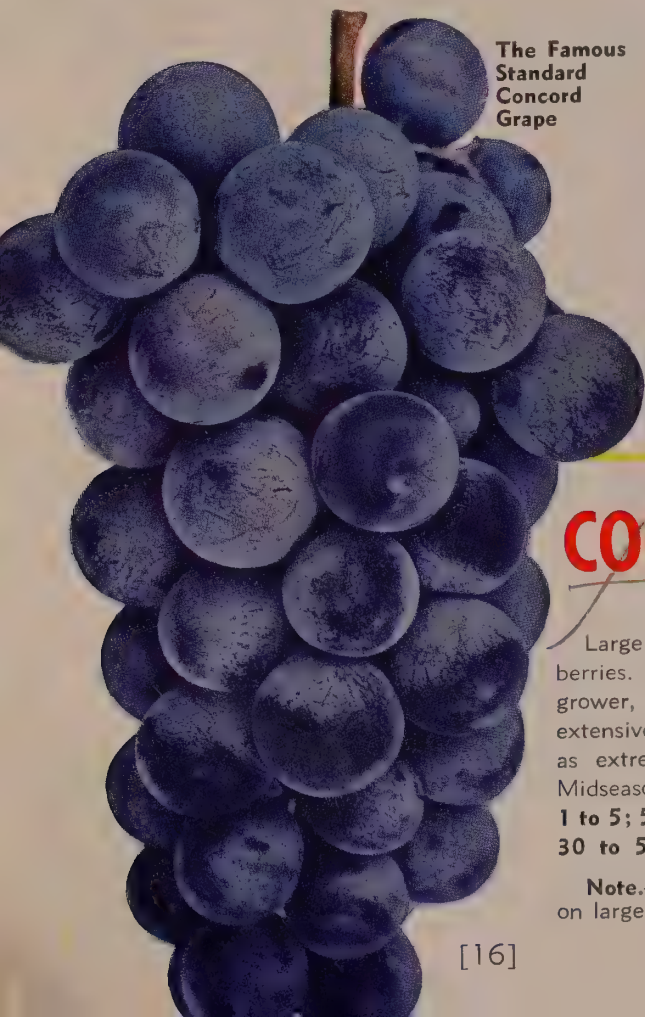

**Concord
Blue
Seedless**

The city lot does not always afford ample room for all the fruits, but not even a lot is required to grow sufficient Grapes for family use. An arbor may be made over the walkway to the garage, the vines may be trained on outbuildings, the fence, or even on a trellis, affording a screen. Our large assortment of varieties will furnish Grapes of different types, ripening throughout the season.

Grapes start bearing early—usually the second year after being transplanted—are generally annual bearers and easily grown.

Grapes may be divided into two groups—the bunch varieties, which are grown in all parts of the United States, and the Muscadine cluster class, the culture of which is limited to the South, seldom planted north of Virginia.

**The Famous
Standard
Concord
Grape**

SEEDLESS GRAPES

**Produced by
Hybridizing.**

BRONX RED SEEDLESS

A New Hybrid Seedless Grape. Enormous, attractive bunches as much as 12 inches in length. Berries large, crisp and firm. May be eaten with skin, as California Grapes. Vine vigorous and productive. Especially recommended for Virginia and states farther south. 1-5, \$1.25 each; 5-10, \$1.10 each; 10-30, \$1.00 each.

INTERLAKEN GOLDEN SEEDLESS

New introduction and most promising of all Seedless Grapes. Rich, golden yellow. Crisp, solid, sweet. Refreshing, tangy flavor. Hardy, vigorous. Early, ripening a month ahead of Concord. 2-yr., 1-5, \$1.50 each; 5-10, \$1.35 each.

CONCORD BLUE SEEDLESS

Berries smaller than standard Concord; same flavor, ripening season. Early bearer. Introduced by New York Experiment Station. While a member of the Seedless family, occasional seeds are produced in Seedless Concord. 2-yr., 1-5, \$1.25 each; 5-10, \$1.10 each; 10-30, \$1.00 each.

CONCORD GRAPE

A National Favorite

Large bunches, blue-black sweet delicious berries. Flesh is juicy and tender. Vine strong grower, very healthy and productive. Most extensively planted commercial Grape, as well as extremely popular in the home garden. Midseason. 2-yr. Vines - 60c each in lots of 1 to 5; 5 to 10, 55c each; 10 to 30, 50c each; 30 to 50, 45c each; 50 to 100, 40c each.

Note.—Ask for commercial growers' prices on larger quantities.

WAYNESBORO NURSERIES

STANDARD BUNCH GRAPES

Carefully selected from thoroughly tested commercial and home vineyard varieties, chosen not only as to quality, but to afford assorted colors ripening at different times.

Brighton. Early dark red. Medium size, thin skin. Flesh tender, sweet and of best quality.

Concord. See opposite page.

Fredonia. Blue Grape of Concord type, two weeks earlier. Thick skin, resistant to brown rot and attack by bees. Sweet, firm, good shipper and favorite in the home vineyard.

Lutie. Very sweet, attractive red Grape. Compact bunches. Thin skin, tender flesh. Midseason.

Portland. Holds first place as an early White Grape. Vine healthy, hardy and productive. Large bunches and berries.

White Niagara. An old favorite. Best known white Grape. Serves as a standard among the whites as Concord does among the blues. Berries and bunches large. Midseason.

To Be Served Fresh From the Vine,
in Juices, Wine and Jelly

SOUTHERN MUSCADINES

The famous Grape of the South. May be had in an assortment ripening at different times. As some are not self-pollinating, the male non-fruiting plants are frequently planted with fruiting vines to assure crops. However, new, fruiting, self-pollinating and cross-pollinating varieties are now available—eliminating the need of non-fruiting plants. We recommend planting self-pollinating Tar-Heel, Willard, or the newer Dearing with Bronze Scuppernong, Hunt, Thomas or Topsail, to assure full crops.

The Muscadines are hardy in southern and eastern part of Virginia and states farther south. Somewhat more difficult to transplant than bunch Grapes.

Bronze Scuppernong. Very large. Bronze flesh, pulpy, sweet, musky flavor. One of the oldest and best of the Muscadines. September.

Hunt. Early, large, black. Thin skin, excellent flavor. Vigorous, prolific, regular bearer.

Thomas. Reddish purple. Sweet, tender, pleasing flavor. Vigorous and productive. An old standby.

Topsail. Improved Bronze Scuppernong; lighter in color and of better quality. Prolific and sweet. Medium early.

NEW SELF-FERTILE CROSS-POLLINATING MUSCADINES

Dearing. New, self-fertile Muscadine developed by North Carolina State Experiment Station and U. S. Department of Agriculture. Produces full crops of high quality, amber-colored Grapes. Midseason. Superior not only in flavor and quality of fruit but in bearing habits and being one of the best pollinators for non-fertile varieties.

Tar-Heel. Good quality, jet-black fruit. Vigorous, heavy producer. Desirable for its fruit, as well as pollination qualities. Ripens with Bronze Scuppernong.

Willard. Also a self-fertile, cross pollinator. Vigorous, prolific. Good quality bronze fruit ripening in large clusters.

Waynesboro BERRIES

Delicious Fresh or Frozen FILL YOUR HOME FREEZER OR FOOD LOCKER WITH BERRIES

Modern home quick-freezing units and public frozen food locker plants make possible fresh, frozen fruits and vegetables throughout the year. It behooves each home owner to provide fruits for his home freezer or locker. Berries require little space and just enough attention to make their culture interesting. Plant not only for home use, but for an increasing commercial demand.

BLUEBERRIES

Giant Cultivated Blueberries

Blueberries have been greatly improved. Giant cultivated varieties are the result of cross breeding the native, wild Blueberries. New hybrids are plump, tender and practically seedless. Large clusters. Plant this delicious fruit and enjoy fresh, frozen Blueberries or frozen pies.

In addition to bearing a profitable crop, the Blueberry is an attractive ornamental shrub which may be planted on the lawn, in shrub borders, used in hedges or even as specimens. Its white flowers, blue berries and autumn colored foliage combine to add charm through most of the summer and fall. Frequently bear second year after transplanted.

SOIL REQUIREMENTS. Blueberries require an acid, humus soil. If your soil is deficient in humus and acidity, we recommend making a heavy application of peat moss, rotted sawdust, decayed leaves, or something of that nature, plus 1 to 2 lbs. per plant application of RHO-ZA-GRO, depending upon size of plants. RHO-ZA-GRO—See page 24-D.

POLLINATION. It is advisable to plant two or more varieties for cross pollination.

SIX LEADING BLUEBERRIES

Listed in ripening order from earliest to latest, beginning early June and continuing through July.

Weymouth. Spreading grower maturing at approximately 4 ft. in height. Attractive berries; medium size. Earliest of all.

Stanley. Erect, vigorous grower. Berries medium to large, good quality. Early.

Atlantic. One of the newer midseason varieties. Vigorous, spreading bush. Very productive. Berries large.

Jersey. Vigorous, upright grower. Large berries. Reliable producer, excellent shipper. Midseason.

Pemberton. Vigorous, upright. Large berries. Late.

Burlington. New, late-ripening Blueberry. Vigorous, spreading bush. Medium size berries of attractive color and high in dessert quality.

THORNLESS BOYSENBERRIES

HUGE, DELICIOUS HYBRID FRUIT

Enormous size, excellent quality, thornless and prolific. Produced by cross breeding Raspberry, Blackberry and Loganberry. Delicious served fresh, frozen, canned or in jam.

Excellent for freezing, retaining its natural flavor and sweetness. Sells for top prices on the market but a little soft for long shipment. Unique, rich flavor. Almost seedless. Thornless, easy to pick. Color a pleasing purple.

THORNLESS BOYSENBERRY PRICES

6 for	\$2.15	50 for	\$ 8.55
12 for	3.15	100 for	14.85
25 for	4.95	250 for	32.00

Note.—On quantities of more than 250, ask for commercial growers' prices.

WAYNESBORO NURSERIES

Always Delicious Fresh or Frozen

RASPBERRIES

There are two distinct classes of Raspberries—the **Blackcap** and the **Red**; the Blackcap being grown over a large part of the United States, while culture of the Red is more or less restricted to the coldest part. Here in Virginia both are grown.

HOME GARDEN RASPBERRY OFFER

25 **Cumberland.** Favorite Blackcap.

25 **Latham.** Popular Red.

Total 50 Raspberry plants for \$8.35. Postpaid to points east of the Mississippi.

EVERBEARING RED RASPBERRIES

Indian Summer. Most extensively planted Everbearer. Introduced by New York Experiment Station and now being planted from Maine to Florida. Produces enormous crop in early spring, repeating in the fall. Large, conical, firm, glossy red, excellent quality. Especially suited for home use but also planted commercially. Bears first season.

INDIAN SUMMER PRICES: 6 for \$2.25; 12 for \$3.25; 25 for \$5.25; 50 for \$9.50; 100 for \$16.00; 250 for \$35.00. Ask for commercial growers' prices on quantities of more than 250.

New September. Recent introduction by New York Experiment Station. Berries bright red, uniform in shape, keep well on bush and after picking. Begins ripening two weeks ahead of Indian Summer, continuing until frost. This New Red Everbearing Raspberry makes an ideal companion to the Indian Summer Everbearer, extending the fresh fruit season. Bears first season.

NEW SEPTEMBER PRICES: 6 for \$2.50; 12 for \$3.75; 25 for \$6.50; 50 for \$11.50; 100 for \$21.00.

STANDARD RED RASPBERRIES

Latham. Brilliant red, mosaic-resistant. Good shipper and popular for the home garden. Suitable for serving fresh, frozen, or in jams. Rates as high among the Reds as Cumberland does among Blackcaps.

Sunrise. A New Red introduction by U. S. Department of Agriculture. Very early, with a long picking season, making it ideal for the home garden. Hardy. Flavor and quality the best. Especially adapted to the South, where not all Red Raspberries are successful.

Latham and Sunrise Raspberry Prices: 6 for \$2.15; 12 for \$3.15; 25 for \$4.95; 50 for \$8.55; 100 for \$14.85; 250 for \$32.00; 500 for \$51.75; 1000 for \$90.00.

CUMBERLAND BLACKCAP RASPBERRY

The Cumberland continues to be the universal Black Raspberry. Its popularity with growers is unchallenged. As Cumberland is the best, we have discontinued other Blackcaps. Large purplish black; firm, good quality. Prolific. Most extensively grown Raspberry, succeeding over a wide area. Profitable commercially, also desirable for home use.

Cumberland Prices: 6 for \$1.90; 12 for \$2.80; 25 for \$4.40; 50 for \$7.60; 100 for \$13.25; 250 for \$28.50; 500 for \$46.00; 1000 for \$80.00.

New September Raspberry

Indian Summer Raspberry

Latham Raspberry

LUCRETIA DEWBERRY

Often referred to as low-growing Blackberry. Lucretia is the most popular and satisfactory Dewberry. Large—fruit often measuring 1½ inches in length, sweet, highly flavored.

PRICES: 6 for \$1.90; 12 for \$2.80; 25 for \$4.40; 50 for \$7.60; 100 for \$13.25; 250 for \$28.50; 500 for \$46.00; 1000 for \$80.00.

Cumberland Blackcap Raspberry

Red Rich

SUPERFECTION

The New Superfection is all the name implies. Berries large, roundish in shape, dark red all the way through, have zippy, sweet flavor. Firm texture. Grand freezer. Bears some fruit continuously from a short time after planted until the snow flies and heavy crops both spring and fall. Vigorous grower. As Superfection has all the required marketing qualities, it is a favorite Everbearer.

Prices: 25 plants for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$18.75; 1000 for \$30.00.

Superfection

A Delicious Fruit Easily Grown

Everbearing STRAWBERRIES

The Everbearing Strawberry does for Strawberries what the Hybrid Tea Rose does for Roses—extends the season from May until November. We offer two outstanding Everbearers—Red Rich and Superfection, both of which will bear the first season.

New **RED RICH** Everbearing

U. S. Plant Patent No. 993

An Everbearer which has gained much popularity during the past few years.

Honey-sweet. Rich red color, all the way through. Excellent quality, firm texture. Largest, reddest and sweetest Everbearer you ever saw.

Perfect for Freezing. Being solid and firm.

Red Rich will bear fruit in spring, late summer and fall. Plants strong, vigorous and upright-growing, bearing fruit less subject to soil contact than low, spreading types. Being a heavy producer, fewer plants are required.

Prepaid Parcel Post Prices: 12 plants for \$2.95; 25 for \$5.00; 50 for \$8.50; 100 for \$15.00; 250 for \$32.50; 500 for \$62.50; 1000 for \$120.00.

PARCEL POST SHIPMENTS OF STRAWBERRIES

Strawberry plants, with exception of special collections and Red Rich, are sold f.o.b. shipping point, but can often be shipped to best advantage by Parcel Post. It is impossible to estimate in advance exactly what postage will be, but if you would like Parcel Post shipments, advise. You may remit whatever postage the package shows.

Ideal Home Garden Collections

- 100 **Blakemore.** Early, bright red favorite.
- 100 **Tennessee Beauty.** New midseason.
- 50 **Ambrosia.** Giant late frequently missing spring frosts.

500-Plant Home Collection

Ideal for families desiring berries for preserving and freezing.

- 150 **Blakemore.** Early, bright red.
- 100 **Albritton.** New early.
- 150 **Robinson.** Good midseason.
- 100 **Ambrosia.** New late.

500 Plants **\$11.95** Postpaid to points east of the Mississippi.

Note.—Strawberries are put up 25 plants to the bunch and are not offered in smaller quantities than 25, or in broken bunches.

Waynesboro STRAWBERRIES

A Delicious Fruit—Easily Grown

No fruit is found in more gardens than the Strawberry, which can be grown successfully in almost all soils and climates, requiring little attention other than keeping the beds free of weeds. It, however, responds to fertilization and culture. A lot of delicious fruit can be obtained from a small section of your garden.

Strawberries may be had in assorted varieties, furnishing berries throughout the season, but we recommend planting only a sufficient number to cover the season and furnish proper pollination. From our list such a selection can be made, including the two most popular Everbearers.

Be sure to plant enough for freezing and enjoy Strawberries throughout the year.

NEW STRAWBERRY COLLECTION

- 50 Albritton. New early.
- 50 Dixieland. Another new early.
- 50 Pocahontas. Fine midseason.

Robinson

Pocahontas

SPRING AND SUMMER PLANTING RECOMMENDED

While a large percent of the planting is done in spring months, which is generally recommended, successful planting may be done during June, July and August with dormant plants, usually available through our modern cold storage facilities. Summer plantings will produce a full crop the following spring. Fall planting is sometimes practiced in localities not subject to winter freezing and thawing, but generally is not recommended in the area we serve.

Planting Distance—See table page 15.

Standard Spring-Fruiting Strawberries

EARLY

Albritton. Outstanding new early berry originated and tested at North Carolina Experiment Station in cooperation with U. S. Department of Agriculture. Berries large, have attractive rich red color; firm, good shipper. Plants are vigorous and very productive. Popular as a home and commercial berry in Virginia, Maryland and the Carolinas, and we know of no reason for its not becoming a national favorite.

Blakemore. Well known, popular berry, extensively planted in the South. Produces year after year big crops of early, bright red, firm, sweet berries. Good shipper, also desirable for home use. Can be grown in all parts of the United States where Strawberries are cultivated; is a leader in commercial plantings in the South. Satisfactory freezer.

Dixieland. A new early berry for the South. Introduced by North Carolina Agricultural Experiment Station. Berries very uniform in shape and ripen with Blakemore; larger and firmer. Good shipper, excellent for freezing. One of the best home berries and profitable commercially.

LATE

Ambrosia. Considered the largest and best of all late Strawberries. Recent introduction but extensively planted. Late bloomer, sure cropper. In every respect a wonderful berry. Frequently produces full crops when early varieties are killed by late spring frosts. Ideal for extending the fresh fruit Strawberry season.

STRAWBERRY PRICES

Ambrosia, Blakemore, Robinson, Tennessee Beauty			
Per 25\$1.25	Per 250\$ 7.00
Per 50 2.00	Per 500 11.00
Per 100 3.50	Per 1000 17.50

MID-SEASON

Pocahontas. New mid-season berry recently released by U. S. Department of Agriculture. Normally a spring-fruited Strawberry does not fruit the first season planted. This new berry planted in our nursery in mid-April started fruiting in May and continued without let-up until mid-July. Berries large, firm and sweet throughout long ripening season. Total yield more than doubled that of any other variety in our nursery. In a class by itself because of its extended ripening season. Vigorous grower and plant producer, even while ripening fruit.

Robinson. Good mid-season. Late bloomer, especially recommended for sections where early varieties are subject to injury by late spring frosts. Tremendous size, sweet, firm, glossy red, uniform. Ideal for filling in the gap between early and late.

Tennessee Beauty. (U. S. Plant Patent No. 629). Originated at Tennessee Agricultural Experiment Station. Good size, smooth, uniform berries, glossy red. Rates high for general home use, including freezing; also firm shipper, and holds its color well. Plants vigorous, healthy; heavy yielders. For the first time we are now offering this patented variety at standard variety prices.

- 2 Blight-resistant Chinese Chestnuts
- 2 English Walnuts

Total 4 Nut Trees
2-3 ft. Size

\$11.85

Postpaid to points east of the Mississippi.

Plant

NUT TREES

At one time wild, native nuts in an assortment of varieties could be harvested in almost all timbered sections of the East, but this is no longer possible. American Sweet Chestnut was wiped out by blight. Shagbark Hickory has been cut for timber, and even Black Walnut—one of the most valuable timber trees—has been practically eliminated as a native tree. So if we are to enjoy nuts, it is necessary to plant and cultivate them, as other crops.

Our trees are nursery grown, transplanted, and root pruned, minimizing risk in transplanting.

As nut trees have a deep root system, and are heavy feeders, they respond to fertile, well drained soil. For best results, plant two or more trees of a class, providing for cross pollination.

CHINESE CHESTNUT

Blight-resistant

While production of Chestnuts is far below that of forty years ago, when Native Sweet Chestnuts were produced in enormous quantities, the Chinese Blight-resistant Chestnut has gone a long way towards bringing delicious nuts to the American home and market. There is still a market for more Chestnuts than are now being produced and the future in growing this blight-resistant strain is promising. Trees rapid growers, come into bearing early and produce big crops of delicious nuts which sell on the market at prices corresponding to those on English Walnuts and Pecans. Trees desirable for shade and ornamental effect as well as producing nuts.

	1-5 Each	5-10 Each	10-30 Each
18-24 in.	\$1.75	\$1.65	\$1.50
2- 3 ft.	2.75	2.60	2.45
3- 4 ft. Bearing Size	3.50	3.25	3.00
4- 5 ft. Bearing Size	4.00	3.75	3.50

Note.—Write for commercial growers' prices on more than 30.

HARDY ENGLISH WALNUT

Also known as Carpathian Walnut. Hardy Virginia Strain adapted to northern climates. Succeeds even in parts of Canada. Trees fruitful, profitable and because of their large-growing, spreading habit of growth, are desirable for shade and ornamental effect. Nuts large, thin shelled with quality and sales value equal to that of English Walnuts found in local stores. Require no more care than Apples, begin bearing as early.

	1-5 Each	5-10 Each	10-30 Each
12-18 in., 1 yr.	\$1.45	\$1.35	\$1.20
18-24 in., 2 yr.	2.00	1.85	1.70

4-6 ft.	4.75	4.50
6-8 ft.	7.50	

NUT CULTURE PROMISING AS A COMMERCIAL CROP

We quote from the *Home Horticulturist*, published in Chicago, Illinois, emphasizing Nut Culture for profit and as a hobby:

"It would seem that nut culture offers much promise as a commercial crop. In addition it is interesting and an enjoyable hobby, furnishing food for the home."

— for Shade and Delicious Nuts

PECANS

Profitable as a commercial crop in the warmer parts of Virginia and in states farther south. Desirable for shade and home-grown nuts in areas bordering commercial belt. Once established, the Pecan is a strong-growing, shapely, long-lived tree—ornamental as well as fruitful. From numerous improved varieties we attempt to offer only selected ones satisfactory in the territory we serve. 3-4 ft. and 4-5 ft. sizes can be shipped by Railway Express or Motor Freight; 2-3 ft. size offered postpaid. Write for commercial growers' prices on more than 30.

Mayhan

Stuart

Papershell

Mayhan Pecan. Giant Early Bearer. Enormous nuts, nearly double the size of average Pecans. Thin shell, full meated, excellent quality. Trees start bearing earlier than other Pecans.

	1-5 Each	5-10 Each	10-30 Each
3-4 ft., f.o.b. our Nursery	\$3.95	\$3.75	\$3.50
4-5 ft., f.o.b. our Nursery	4.95	4.75	4.50
POSTPAID MAIL ORDER 2-3 FT. SIZE	2.95	2.80	

Stuart. Possibly the best known and most extensively planted Pecan because of its adaptability to a wide range of culture. Can be grown in the Deep South and being early, it matures farther north than later varieties. Good size nuts with thin shell. The Stuart planted with well-known Papershell or new Mayhan will provide for cross pollination.

	1-5 Each	5-10 Each	10-30 Each
3-4 ft., f.o.b. our Nursery	\$3.50	\$3.25	\$3.00
4-5 ft., f.o.b. our Nursery	4.25	4.00	3.75
POSTPAID MAIL ORDER 2-3 FT. SIZE	2.75	2.60	

Papershell. Nuts not quite as large as Mayhan and Stuart, but good quality, thin shell. Well shaped, fast growing tree. Excellent pollinator for other varieties. Large production of Papershell makes possible following low prices:

	1-5 Each	5-10 Each	10-30 Each
3-4 ft., f.o.b. our Nursery	\$2.75	\$2.60	\$2.45
4-5 ft., f.o.b. our Nursery	3.50	3.25	3.00
POSTPAID MAIL ORDER 2-3 FT. SIZE	2.45	2.30	

Home Pecan Planting

To Provide: **Delicious Nuts—Pollination—Stately Shade Trees**
At a cost no more than non-productive Shade Trees.

Consisting of one each Giant Mayhan, Stuart and Papershell—

**Total Three Pecan Trees,
4 to 5 ft. Size**

\$11.85

F.O.B. our Nursery, packed for Express shipment.

CHINQUAPIN

(Castanea Pumila)

A junior member of the Chestnut family. Small shrub-like tree maturing at the size of a Peach tree. Begins bearing early, often first year after transplanted. Delicious nuts 1/2 inch in diameter are borne singly in Chestnut-like burrs, ripening in September. **At present only size available is 18-24 in., at \$2.35 each in lots of 1 to 5; 5 to 10, \$2.25 each.**

FILBERT (Hazelnut)

Hardy valuable nut which grows into a small, shrub-like tree, seldom attaining a height of more than 15 feet. We offer both the native American and the much improved Barcelona European Filbert. Both are adapted to a wide range of soil and climate and are being cultivated in most parts of the United States. Useful for shrub borders or screens, as well as producing nuts.

Native American. Family favorite Filbert. Attractive bush, yielding abundant crops of tasty, round nuts; young bearer.

	1-5 Each	5-10 Each	10-30 Each
2-3 ft.	\$1.50	\$1.30	\$1.10
3-4 ft. Bearing Size	2.00	1.85	1.70
4-6 ft. Bearing Size	3.00	2.85	2.70

Barcelona. Improved, large English Filbert. Most extensively planted commercial variety. Plant with Native American for cross pollination. 2-3 ft. size, \$1.75 each in lots of 1 to 5; 5 to 10, \$1.55 each.

BLACK WALNUT

Every planter is familiar with the native Black Walnut, but not all are aware of its possibilities. As a timber proposition, its culture is extremely profitable, especially when planted on pasture land, as Black Walnut does not interfere with grass and when established, the trees afford shade for livestock. Produces nuts which are now in great demand and grows into valuable timber. When planted for nut bearing, the recommended spacing is 40x40 feet; for timber 8x8 feet. **Prices on root-pruned, transplanted trees as follows:**

	1-5 Each	5-10 Each	10-30 Each
2- 3 ft.	\$1.20	\$1.10	\$1.00
3- 4 ft.	1.75	1.60	1.50
4- 6 ft.	2.25	2.10	2.00
6- 8 ft.	3.00	2.80	2.60
8-10 ft.	3.75	3.50	3.25

We also offer 1-year seedlings in 12-15 in. size at \$2.50 per 10; \$18.00 per 100; \$150.00 per 1000.

Asparagus and Rhubarb

For Your Early Spring Garden

Mary Washington

ASPARAGUS

PEDIGREED—RUST-RESISTANT

**One Planting Will Serve Your Table
for Many Years Without Replanting**

Easily grown, producing an enormous amount of wholesome food at small cost and effort. Readily in demand and a profitable commercial crop, its chief requirement being a deep, fertile soil.

We grow and offer the **Pedigreed Mary Washington**, which is generally recognized as best and most satisfactory Asparagus. Giant, crisp, tender stalks. 100 plants will furnish you with fresh Asparagus for six weeks in early spring, but do not overlook providing frozen Asparagus for enjoyment months later.

Home freezers, frozen food lockers, and grocery store frozen food markets have greatly increased the consumption of Asparagus, resulting in more interest in both home and commercial plantings. No home garden should be without it.

Cultural Instructions. For home garden culture, plant 6 inches deep, 12 inches apart in rows 3½ feet wide. Do not cover the crowns more than 2 inches at first, gradually filling in as they grow. If soil is not very fertile, we recommend a heavy application of manure or commercial fertilizer, repeating each year. In commercial plantings, the rows are sometimes 4 feet wide, so as to provide ample space for tractor cultivation.

RHUBARB

—Or Pie Plant

Delicious for pies or sauce when served fresh, canned, or frozen. Prefers deep, fertile soil, but requires very little attention. Not even necessary to move or replant each year. Plant 3 to 4 ft. apart in rows or beds.

CANADA RED

Reddest of all the Red Rhubarbs. Tender, juicy stalks, rich red all the way through. Skin so tender that peeling is unnecessary. May be served fresh throughout spring and summer. Seedless; propagated by division only. **Strong divisions, 90c each; 3 for \$2.60; 6 for \$4.95; 12 for \$9.50.**

VICTORIA

Enormous, long, tender pink stalks. Early. **2-yr. roots, 90c per 3; \$1.50 per 6; \$2.75 per doz.; \$4.85 per 25; \$8.50 per 50; \$15.00 per 100.**

Jumbo size, transplanted roots, \$1.50 per 3; \$2.75 per 6; \$5.00 per doz.; \$8.50 per 25; \$15.00 per 50; \$25.00 per 100.

Order Ample
GARDEN SUPPLIES**

NOTE: When ordering Plant Material Collections offered in this catalog, merely list on above order blank the Collection Number and price, including it in the total amount of order.

ORDER EARLY. Early in the season a complete stock, as listed in this catalog, is usually available. In the late season, naturally some varieties and sizes will be exhausted. In this case we will substitute a similar variety unless instructed to the contrary.

Ordering and Planting Information

PLANTING SEASON. The normal planting season is when plant material is dormant, extending from early November to May. However, there are exceptions, especially in balled and burlapped and container-grown plants, which may be transplanted throughout the year. The planting season of dormant stock is extended by modern nursery cold storages. November and December are big planting months; so are March, April and May. Specified shipping dates will be followed as closely as practical, but as we must be somewhat governed by weather conditions and maturity of stock, it is not always possible to make shipment on exact dates requested.

CERTIFICATE OF INSPECTION. Issued by Virginia State Entomologist, certifying that our nursery has been inspected and plant material found to be apparently free of disease and pests, furnished with each shipment.

TRANSPORTATION. We are located on trunk lines of C&O and N&W railroads, are served by motor freight lines and maintain our own truck delivery service within a 300-mile radius, delivering at a nominal delivery cost plant material too heavy or bulky for shipment by public carrier. See page 29 for further shipping information on BB Evergreens. Fruit Trees, berry plants and other items dug without ball are generally shipped express; balled and burlapped (BB) evergreens and large shade trees by freight or delivered by our truck. Small shipments can be frequently shipped by parcel post at a saving, permitting customer to refund to us amount of postage on package when not offered postpaid.

PRICES. Prices quoted are f.o.b. our shipping point unless otherwise specified.

TERMS. Remittance with order unless C.O.D. service is required, in which case 25% deposit will be accepted. You can save C.O.D. expense by remitting in full with order.

REMITTANCES may be made by postal money order, express money order or your personal check.

LIBERAL REPLACEMENT TERMS.

While losses from transplanting our vigorous, carefully handled plant material are at a minimum, some losses may be expected, regardless of how careful both nurseryman and planter

may be. We agree to share with our customers on a fifty-fifty basis any losses from transplanting our plant material by refunding at half catalog list price, plant material reported dead within twelve months after date of delivery, provided the original purchase was paid for as per sale terms and plant material has been given reasonable attention.

VARIETIES AND QUANTITIES. If the variety, quantity or size desired is not found listed, write or call for further information.

MAKING UP ORDERS. It is important to state varieties, sizes, and quantities desired; also shipping point if different from post office, when and how you prefer shipment.

WARRANTY. We are very careful in keeping varieties true to name and seldom have a report of plant material proving otherwise. In such instances adjustments are limited to either refunding without charge or refunding full purchase price.

START YOUR PLANTS RIGHT with Pep-To-Grow. When planting berries, use 10 lbs. on each 100 plants; on fruit trees, nut trees, shrubs, small evergreens, shade trees, 1 lb. each. **Horticultural Peat Moss** loosens soil, retains moisture, protects against drying out and transplanting losses. One gallon per shrub, small evergreen or tree normally assures satisfactory results. See pages 24D and 24E.

SPRAYING INFORMATION

See Page 24-C for Spray Materials

Pest or Disease:	Recommended Control:
APHIDS —On Fruit Trees, Shade Trees, Annuals, Perennials	DDT 50, Ortho Rose Dust, Ortho Botano Deluxe Garden Dust, Malathion 50, Isotox Garden Spray

SPRAY MATERIALS

For the convenience of our customers we have carefully selected some of the most practical sprays and dusts, including the newer and more effective materials, which we carry in stock for immediate shipment.

NOTE: Materials on this page are offered postpaid in postal zones 1, 2, 3, and 4, with exception of SUNOCO OIL, which is offered f.o.b. our shipping points. On postpaid items outside the fourth zone, add 5 cents per pound.

ORTHO DDT 50%

Contains 50% DDT. Wettable. Use as a spray to control garden and household pests such as thrips, sod webworms, plant bugs, Japanese beetles, ants, Elm beetles, codling moths, leaf hoppers, Peach and pin borers. Effective against mosquitoes and house flies in yards and picnic areas. Standard mixture—1 to 1½ tablespoons in 1 gallon water. For Peach tree borers—1 lb. to 12 gallons water. 1-lb. canister, \$1.40, postpaid.

ORTHO MALATHION 50 SPRAY

An insecticide containing Malathion for use on evergreens, Roses, ornamentals, shrubs, trees, etc., for control of red spiders, aphids, mealy bugs, scale, flies, also effective control of many insects on fruit trees and vegetable plants. Effective control of house flies and mosquitoes outside dwellings, in patios, garbage containers and for flea control in sleeping quarters of pets. 4-oz. bottle, \$1.35; 1-pint bottle, \$3.20, postpaid.

ORTHO ROSE AND GARDEN FUNGICIDE

New fungicide containing 75% Phaltan for control of both mildew and black spot on Roses. Excellent for control of leaf spot on Chrysanthemums and Iris. Can be used with most commonly used insecticides, particularly Isotox Garden Spray. Combination provides complete plant protection on most insects and listed diseases. 6-oz. canister, \$2.10, postpaid.

VOLCK OIL SPRAY

A highly refined oil spray for use against mealy bugs, scale insects, red spiders and white flies on plants; particularly effective in killing scale insects. 1-pint bottle, \$1.00; 1-quart bottle, \$1.85, postpaid.

ORTHO BORER SPRAY

A 20% Lindane spray recommended for control of most borers such as pine bark beetles, flat-headed borers, Peach tree borers, wood-boring beetles and many other beetles. 1-pint bottle, \$3.20, postpaid.

ISOTOX GARDEN SPRAY

Multi-purpose garden insecticide containing combination of Malathion, Lindane and DDD. Kills aphids, red spiders, thrips, Box Elder bugs, Japanese beetles, Rose chafers, caterpillars, lacebugs, lawn moths, mole crickets, white grubs, chinch bugs, cutworms, ants, flies, mosquitoes, wireworms and many other pests. Use on flowers, shrubs, fruit trees. Kills three ways—by contact, stomach poisoning and vapor action. 8-oz. bottle, \$2.20; 1-pint bottle, \$3.30, postpaid.

ORTHO ROSE DUST

Contains the most effective fungicide and insecticides to make the finest multi-purpose Rose and flower garden dust or wettable powder on the market, for the control of most insects such as aphids, Japanese beetles, thrips, certain caterpillars, lacebugs, Rose weevils, red spider mites, and plant diseases, such as black spot, powdery mildew, leaf spot and rust. Packaged in handy 10-oz. plastic duster for easy application, \$1.69; 1-lb. refill, \$1.69, postpaid.

ORTHO HOME ORCHARD SPRAY

A fine multi-purpose orchard spray containing Captan, DDT, DDD, Lindane and Miticide. Use to control sucking and chewing insects and diseases on fruit trees and berries, including brown rot; also controls worms and other crawling insects and hard-to-see mites. 1-lb. canister, \$1.65; 2 lb. 8-oz. canister, \$3.30, postpaid.

ORTHO BOTANO DELUXE GARDEN DUST

Excellent insecticide-fungicide combination containing Captan, Lindane, Methoxychlor, Ziram, for controlling aphids, thrips, caterpillars, ants, Japanese beetles, black widow spiders, wireworms, also black spot of Roses, Carnation rust and leaf spot, powdery mildew of Tuberous Begonias. Excellent for bulb protection at planting and for seed-bed treatment. 8-oz. duster, \$1.30; 1-lb. refill, \$1.65, postpaid.

CHAPERONE DOG REPELLENT

Save your shrubs and trees from dog destruction by spraying with Chaperone, a dog repellent. Not offensive to human beings, but dogs don't like it and stay away. Works like magic. Harmless, does not show. Economical to use—each application lasts up to three weeks, rain or shine. Also effective with cats and other animals. 8-oz. bottle, \$1.65, postpaid.

ORTHO IMPROVED WEED-B-GON

Hormone Weed Killer, containing 2, 4-D and 2, 4, 5-T. For use against poison ivy, poison oak, wild blackberry vines, wild morning glory, dandelion, plantain, wild onion. Economical—a little goes a long way. 8-oz. can, \$1.45; pint can, \$2.00, postpaid to points east of the Mississippi.

CRAB GRASS KILLER—Ask for prices.

SPRAYERS

BROWN'S No. 40 HANDY GARDEN SPRAYER Handy—Practical—Economical

Just the sprayer for the home garden—for insect control, fungus diseases. May also be used for handling water paint, whitewash, or weed killer solutions. Sprayer should be cleaned thoroughly after using plant or weed killer solutions. Standard equipment includes Adjustable Nozzle, 5 ft. Oil-resistant Hose, 18 in. Curved Brass Extension, 14 oz. Intake Anchor Weight with Brass Strainer, which can be placed in any pail or bucket containing the spraying solution. Develops 300 lbs. pressure. Piston has non-corroding, non-clogging bronze ball valves. **\$10.75, postpaid to points east of the Mississippi.**

BROWN'S SPRAYER No. 34DS Funnel Filled

3½ Gallon galvanized tank, electrically welded. Brass Pump. Patented oil-resistant valve; 24 in. oil-resistant hose. 18 in. brass extension. Adjustable nozzle. Suitable for both ornamental plants and vegetable garden spraying. **\$10.75, postpaid to points east of the Mississippi.**

PLANT FOODS and SOIL CONDITIONERS

This tested and proven soil conditioner has taken the guesswork out of culture of acid-loving plants. First used in the culture of Rhododendrons and Azaleas, but found to be equally as effective in growing the following:

Blue Hydrangeas
Camellias
Blueberries
Franklinia

Hollies
Andromedas
Kalmias
Pines

Hemlocks
Dogwoods
Magnolias
Oaks
Sweet Gum

Rho-Za-Grow has simplified the culture of such plants—making their growth possible in soils originally unsuited.

Rho-Za-Grow is a scientifically balanced soil conditioner. Use it on all plants requiring acid soil, not only acidifying the soil but loosening soil and retaining moisture.

Rho-Za-Grow contains exactly the proper balance of acids, in the form of moisture-retaining humus, available over a long period of time, making frequent applications unnecessary. When using Rho-Za-Grow, no other treatment of soil is necessary other than proper watering and Peat Moss mulch.

10-lb. bag	\$1.35	50-lb. bag	\$4.50
25-lb. bag	2.50	100-lb. bag	8.00

ADCO

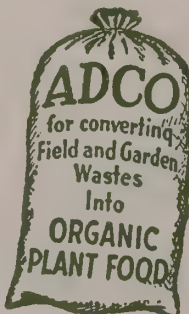

For Converting Field and Garden Wastes Into Organic Plant Food

IT'S EASY—anybody can do it.
IT'S CHEAP—Every pound of ADCO makes forty pounds of splendid fertilizer.

IT'S GOOD—Produces a true plant food, totally different from ordinary compost, largely composed of available humus, which enriches the soil as no purely chemical fertilizer can.

Mix ADCO with leaves, weeds, vines, clippings, cuttings, straw, cornstalks, etc., and turn them into rich plant food.

20-lb. bag—enough to make 800 lbs. plant food	\$ 3.75
100 lbs. (5 20-lb. bags) enough to make two tons plant food	15.00

RA-PID-GRO

The Sensational Liquid PLANT FOOD

A clean, odorless powder instantly soluble in water.

Nursery stock that is dipped in a solution of Ra-Pid-Gro starts quicker, grows faster.

Enjoy your lawn, garden and flowers at their best—feed Ra-Pid-Gro. Easy to apply and economical to use as in larger quantities the cost is only about ½c per pound for a rich, liquid plant food, while a general fertilizer costs much more. Every pound of Ra-Pid-Gro makes 22 gallons of liquid plant food. There is no filler in Ra-Pid-Gro.

Use Ra-Pid-Gro on everything you grow. To estimate your season's requirements, figure at the rate of 1 lb. Ra-Pid-Gro for each 100 lbs. other fertilizer you have been using. Normally 10 lbs. Ra-Pid-gro will take care of the lawn, shrubs and trees on a lot 50 ft. by 150 ft. Directions for use given on every package. 1 lb., \$1.50; 2 lbs., \$2.65; 5 lbs., \$4.90; 10 lbs., \$9.35, postpaid.

TRANSPLANTONE

Reg. U. S. Pat. Off.

A water soluble powder containing Vitamin B-1 and other parts of Vitamin B, plus certain hormones vital to plant and root growth.

Applied when transplanting vegetable plants, bedding plants, Roses, shrubs, evergreens and trees, it greatly reduces transplanting losses and starts plants off with more vigor and vitality.

One 3-oz. box—which makes 30 gallons solution for soaking roots or 2000 to 3000 gallons for watering, \$1.05, postpaid; 1-lb. can, \$4.20, postpaid.

PREMIER PEAT MOSS

Loosens heavy clay soils, gives body to light soils; preventing rapid drainage and soil erosion; saves fertilizers by storing natural plant foods; stimulates root growth; provides humus. Easy to handle, clean, odorless, free from weeds.

Commercial Bales German Peat Moss. 17x21x36 in. 7½ cu. ft. Bales burlapped, wired. \$5.50 each, f.o.b. Waynesboro.

Kar Bale Canadian Peat—4 cu. ft. Plastic-covered bale. Fits right in car. \$3.95 each, f.o.b. Waynesboro.

ENJOY A BEAUTIFUL LAWN

By properly grading, carefully preparing soil containing organic material—such as Peat Moss—and feeding with **Pep-To-Grow** or some other special lawn fertilizer. Most important of all, use a tested Grass Seed Mixture suited for Virginia and nearby states. Our mixtures have been carefully blended, tested, and found to be ideal for the area served, producing a velvety green carpet in a short time, increasing in beauty as the slower, more permanent grasses become established.

Mow grass regularly, at first not shorter than 2 in., until well established; then cut not closer than 1 in. During hot, dry spells water new lawns thoroughly at least twice per week, applying in late afternoon.

LAWN GRASS SEED MIXTURES

The quality of your lawn will depend much on the seed you use. No one grass is suited to all soils, climates and altitudes; neither is any one grass seed mixture. With that in mind, we offer three mixtures, as follows:

WAYNESBORO EVERGREEN LAWN MIXTURE. A scientifically prepared grass seed mixture which produces a beautiful sod in a few weeks and is green throughout the year. A blend of Kentucky Blue Grass, Chewings Fescue, Domestic Rye, Poa Trivialis, Red Top, and White Dutch Clover. Adapted to full sunlight or partial shade, but not as much shade as Waynesboro Shady Lawn Mixture. Extensively used for small home grounds, as well as public parks, college campuses, large estates, and wherever a beautiful, permanent sod is desired. Made up of finest quality seeds obtainable and offered for even less than frequently charged for less desirable mixtures. **1 to 5 lbs., \$1.30 per lb., postpaid; 5 to 10 lbs., \$1.20 per lb., postpaid; 10 to 50 lbs., 93c per lb., f.o.b. Waynesboro, Virginia.**

WAYNESBORO SHADY LAWN MIXTURE. Similar to Waynesboro Evergreen Lawn Mixture, but containing more grasses adapted to shade under trees and around the house. When sowing this mixture under trees, increase the amount of Pep-To-Grow fifty percent. **1 to 5 lbs., \$1.35 per lb., postpaid; 5 to 10 lbs., \$1.25 per lb., postpaid; 10 to 50 lbs., 98c per lb., f.o.b. Waynesboro, Virginia.**

VIRGINIA HOME AND PARK MIXTURE. A high quality blend of quick-growing and permanent grasses, including Kentucky Blue Grass, Domestic Rye, Chewings Fescue, Timothy and Red Top, proportioned so as to furnish a velvety green lawn within a few weeks after seeding and enough slower growing grasses to make a permanent sod. Virginia Home and Park Mixture will be found most satisfactory where a quick-growing, lower priced mixture meets the requirements. **1 to 5 lbs., 85c per lb., postpaid; 5 to 10 lbs., 80c per lb., postpaid; 10 to 50 lbs., 65c per lb., f.o.b. Waynesboro, Virginia.**

NOTE: Above Postpaid Grass Seed Prices less 10% f.o.b. Waynesboro, Virginia. Ask for prices on lots of 50 lbs. or more.

NOTE: For seeding new lawns, use 1 lb. Grass Seed per 200 square feet (10x20 ft.). For reseeding, use one-half this amount or more, depending on the condition of the sod.

FOR A VELVETY GREEN LAWN—PROPER PREPARATION, SUITABLE LAWN SEED MIXTURE, PEAT MOSS AND PEP-TO-GROW

FOUR EASY STEPS TO A BEAUTIFUL, LASTING LAWN

1. Thoroughly pulverize soil to a depth of 6 in. or deeper, applying Peat Moss and top soil.

2. Apply 4 lbs. Pep - To - Grow and 1 bu. pulverized Horticultural Peat Moss per 100 sq. feet, (10x10 ft.) raking into soil.

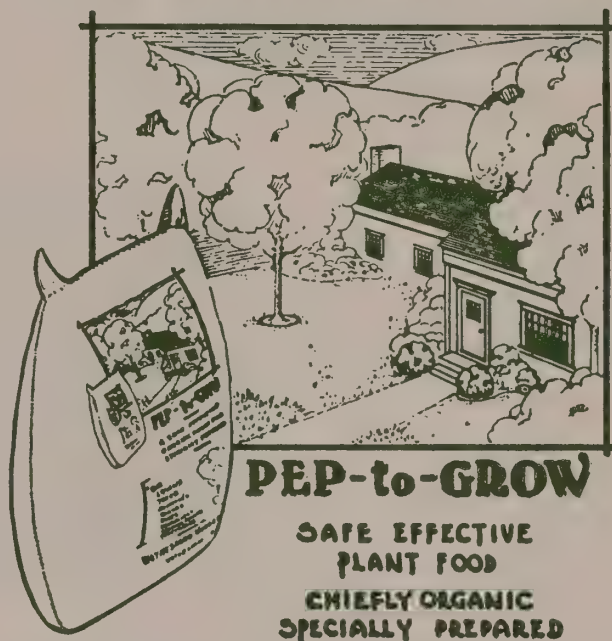

3. Sow Waynesboro Evergreen Lawn, Shady Lawn Grass or Virginia Home and Park Seed Mixture at the rate of 1 lb. to each 200 sq. ft.

4. Roll the seeded lawn and soak, using a fine spray to prevent baking. Mulch with straw, or burlap is helpful.

space. Rake in lightly.

GROW WITH PEP-to-GROW

FOR LAWNS, TREES, BOXWOOD, SHRUBS, ROSES, PERENNIALS, BEDDING PLANTS, VEGETABLES

A specially prepared, balanced lawn and garden plant food which gives pep and vigor without danger of burning if properly watered when applied. An application is recommended for each spring and fall.

Apply **Pep-To-Grow** on new lawns at the rate of 4 lbs. per 100 square feet; for feeding established lawns, 2 lbs. per 100 square feet; on shrubs, evergreens, roses, apply 1 lb. per plant 1 ft. to 3 ft. height; on smaller plants, use less in proportion to size; on larger plants, increase application 1 lb. for each 2 ft. additional height; on shade trees, 1 lb. for each caliper inch. Broadcast **Pep-To-Grow** around trees and plants, extending out as far as the branches. Then rake lightly.

Pep-To-Grow, being chiefly organic, becomes available gradually, furnishing uniform feeding throughout the season, making fewer applications necessary, costing less than quick-acting fertilizer which soon leaches out of the soil. **25-lb. bag, \$1.75; 50-lb. bag, \$3.00; 100-lb. bag, \$5.50.** Write for quotations on lots of one ton or more.

GARDEN SUPPLIES

Offered at Following Postpaid Prices

SEYMOUR SMITH PROFESSIONAL PRUNER

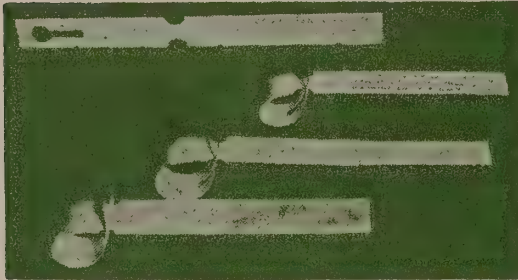

No. 124

Made of the finest drop-forged steel. Keen, honed edge blades. Adjustable ratchet nut lock and bolt support insure blade alignment at all times. Non-pinching, hollowed handles provide comfortable grip. We use this pruner almost exclusively for heavy nursery work.

Also popular with commercial fruit growers, landscape men, and gardeners who require a long-wearing, smooth-working pruner. Length, over all, 8 inches. **\$3.95, postpaid.**

"SLIP-ON" PLASTIC LABELS

Size 1/2 x 5 in. Guaranteed water-proof. New Plastic label—both durable and inexpensive. May be bent or folded. For best results, use our Rainproof Pencil; however may be written on with ordinary lead pencil or typewriter.

Available in

White, Red, Green, Orange and Yellow—not less than 100 of a color. **\$1.00 per 100; \$6.65 per 1,000, postpaid.**

GARDEN MAGIC

A Complete Book of Gardening

Made up of 490 pages—18 full color illustrations, hundreds of line drawings—practical, helpful ideas on what should be done and how to do it. Deals with many important garden subjects, including the following:

Acid-loving Plants
Soil Fertility
Lawns and Grading
Trees, Shrubs, Roses
Hedges, Vines, Bulbs
The Rock Garden
The Water Garden
Planting, Transplanting, Pruning
Coniferous Evergreens
The Vegetable Garden
Fruits and Berries

Plant Diseases
Flower Arrangements

Price: \$3.95, postpaid.

ACME GRAFTING COMPOUND

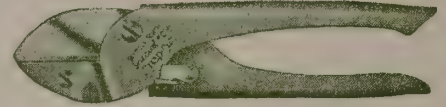

Effective, practical grafting compound, more easily applied than grafting wax and can be used more successfully as it completely covers the graft and union. May be applied with an ordinary small paint brush. We have been using this grafting compound for many years in our nurseries, as well as we supply large quantities to commercial fruit growers for use in bridge grafting, protecting tree wounds, and other tree injuries. 1-qt. can, \$1.45, postpaid. 1-gal. can, \$3.85, express collect.

MOLOGEN

Mole Killer. Kills moles. Easy, quick, safe to use. Odorless chemical powder that means sure, quick death to moles. Non-poisonous to birds and pets. 8-oz. can, 60c; 1 1/2 lbs., \$1.50, postpaid.

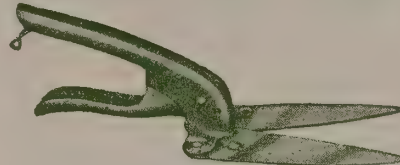

SEYMOUR SMITH SPECIAL SNAP-CUT PRUNER No. 019

A new Snap-Cut Anvil Pruner for light garden work. Orange painted handles, aluminum anvil and wire spring. 8 inches long. **\$1.95 postpaid.**

SEYMOUR SMITH GRASS SHEARS NO. A57

Serviceable, efficient, full size Grass Shear. Built for heavy use. Tempered steel blades. Size over-all 12 in. Offered at **Special Price—\$1.98, postpaid.**

ECONOMY PRICE GRASS SHEAR

Standard size, suitable for small home grounds. Only 98c each, **postpaid.**

MISCELLANEOUS GARDEN SUPPLIES

WOOD LABELS

11/16 in. x 3 1/2 in. Copper wired. For trees, shrubs, Dahlias and similar plants. **\$1.00 per 100; \$6.65 per 1000, postpaid.**

POT AND GARDEN WOOD LABELS

Painted white. Offered at following postpaid prices:

	Per 100	Per 1000
4x5/8 in. Pot Labels	\$1.00	\$ 6.65
6x5/8 in. Pot Labels	1.25	8.20
8x5/8 in. Pot Labels	1.50	12.00
10x7/8 in. Garden Labels	2.25	20.00
12x1 1/8 in. Garden Labels	3.50	33.00

ALUMINUM PERMANENT GARDEN LABELS

On 24 in. heavy wire stakes. For best results, use our Rainproof Pencil. D, E, and F as illustrated. **\$2.75 per dozen, postpaid.**

ALUMINUM PLANT LABELS

1 x 2 1/2 in. Permanent, rust-proof, fade-proof. Use ordinary lead pencil or ball point pen. May be used indoors or outdoors. **25 for 29c, postpaid.**

ALUMINUM GARDEN MARKERS

1 x 2 1/2 in. Similar to above except furnished with 6 1/2 in. aluminum stakes. Ideal for labeling pot plants, as well as used in the garden. **10 for 39c, postpaid.**

RAINFOOD PENCIL

For labeling both metal and wood labels. **20c each when sold with above labels. Sold separately 25c, postpaid.**

GARDEN SUPPLIES

AVAILABLE AT BOXWOOD GARDENS
AND OUR MAIN NURSERY PACKING HOUSE

While we welcome your order from this catalog, we maintain a complete stock of garden supplies at our Boxwood Gardens, Route 250, near Skyline Drive Entrance; also at our Main Nursery Packing House, Lyndhurst-Sherando Lake Road, Waynesboro. Our facilities for handling this type material are being improved and expanded.

ORDERING and PLANTING INFORMATION

PLANTING SEASON. The normal planting season is when plant material is dormant, extending from early November to May. However, there are exceptions, especially in balled and burlapped and container-grown plants, which may be transplanted throughout the year. The planting season of dormant stock is extended by modern nursery cold storages. November and December are big planting months; so are March, April and May. Specified shipping dates will be followed as closely as practical, but as we must be somewhat governed by the weather conditions and maturity of stock, it is not always possible to make shipment on exact dates requested.

CERTIFICATE OF INSPECTION. Issued by Virginia State Entomologist—certifying that our nursery has been inspected and plant material found to be apparently free of disease and pests, furnished with each shipment.

TRANSPORTATION. We are located on trunk lines of C&O and NGW Railroads, are served by motor freight lines and maintain our own truck delivery service within a 300-mile radius, delivering at a nominal delivery cost plant material too heavy or bulky for shipment by public carrier. See page 29 for further shipping information on BB Evergreens. Fruit Trees, berry plants and other items dug without ball are generally shipped express; balled and burlapped (BB) evergreens and large shade trees by freight or delivered by our truck. Small shipments can be frequently shipped by parcel post at a saving, permitting customer to refund to us amount of postage on package when not offered postpaid.

PRICES. Prices quoted are f.o.b. our shipping point unless otherwise specified.

TERMS. Remittance with order unless C.O.D. service is required, in which case 25% deposit will be accepted. You can save C.O.D. expense by remitting in full with order.

REMITTANCES may be made by postal money order, express money order, or your personal check.

LIBERAL REPLACEMENT TERMS. While losses from transplanting our vigorous, carefully handled plant material are at a minimum, some losses may be expected, regardless of how careful both nurseryman and planter may be. We agree to share with our customers on a fifty-fifty basis any losses from transplanting our plant material by refurnishing at half catalog list price plant material reported dead within twelve months after date of delivery, provided the original purchase was paid for as per sale terms and plant material has been given reasonable attention.

VARIETIES AND QUANTITIES. If the variety, quantity or size desired is not found listed, write or call for further information.

MAKING UP ORDERS. It is important to state varieties, sizes, and quantities desired; also shipping point if different from post office, when and how you prefer shipment.

WARRANTY. We are very careful in keeping varieties true to name and seldom have a report of plant material proving otherwise. In such instances adjustments are limited to either refurnishing without charge or refunding full purchase price.

START YOUR PLANTS RIGHT with PEP-TO-GROW and HORTICULTURAL PEAT MOSS. Pep-To-Grow is a safe, effective, chiefly organic Plant Food for Lawns, Trees, Shrubs, Bedding Plants and Vegetables. Peat Moss loosens soil, retains moisture, protects against drying out and transplanting losses. See pages 24-D and 24-E.

HOME PLANTING COLLECTIONS

Postpaid to points east of the Mississippi
(Indicate with X Collections Ordered)

4-TREE HOME APPLE COLLECTION CG-1

☐ Collection CG-1

Consisting of varieties to furnish fruit in early summer, mid-summer, fall and winter:

- 1 Yellow Transparent. Well-known golden yellow. June.
- 1 Red Summer Rambo. Favorite summer Apple. August.
- 1 Double Red Delicious. Late fall and early winter.
- 1 Virginia Winesap. Red. Good winter keeper.

Total 4 trees 2-year, 3-4 ft. size—\$6.65, postpaid.

3-TREE PEACH GROUP CG-2

☐ Offer CG-2

Consisting of three delicious yellow freestone Peaches, listed below in ripening order:

- 1 Redhaven. Prolific. Excellent quality. July 15.
- 1 Hale-Haven. Large, delicious. August 1.
- 1 Elberta. Old favorite.

Total 3 Peach trees, 4-5 ft. size—\$5.85, postpaid.

OFFER CGG-2. Two each above.

Total 6 Peach trees 4-5 ft. size—\$9.95, postpaid.

3-TREE DWARF APPLE GROUP CG-3

Enjoy fruit from your own home grounds within two years by planting Dwarf Early Fruiting Apple Trees. Full size fruit, easily harvested.

☐ Offer CG-3

- 1 Yellow Transparent. Golden yellow. June.
- 1 Summer Rambo. Favorite striped summer Apple. August.
- 1 Double Red Delicious. Late fall and early winter.

Total 3 Dwarf Apple Trees, 3-year, 3-4 ft. size—\$10.35, postpaid.

CHOICE, RARE FLOWERING SHRUB COLLECTION CG-4

☐ Collection CG-4

Flowering shrubs to bloom over a long period in spring and summer:

- 1 Forsythia Lynwood Gold. New golden yellow. Early spring.
- 1 Weigela Bristol Ruby. New; ruby-red flowers in spring, followed by scattered blossoms in summer and fall.
- 1 Nikko Blue Hydrangea. Large, blue flowers. Summer and fall.
- 1 Double Kerria Japonica. Yellow blossoms all summer.

All 4 Rare Flowering Shrubs, 2-year, 18-24 in. size—\$5.75, postpaid.

OLD FASHIONED FLOWERING SHRUB COLLECTION CG-5

☐ Collection CG-5

- 1 Old-fashioned Rose of Sharon (Althea). Red. Late summer and early fall.
- 1 Old-fashioned Snowball. Large white flowers in May.
- 1 Old-fashioned Purple Lilac. Old-time favorite.
- 1 Red Flowering Quince. Early spring.

Total 4 Old-fashioned Flowering Shrubs, 18-24 in.—\$4.35, postpaid.

SPRING FLOWERING TREE COLLECTION CG-6

☐ Collection CG-6

- 1 New Almey Red Flowering Crab.
- 1 Double Red Flowering Peach.
- 1 Ruby Tree. Pink foliage and ruby-red foliage in spring; bronze-red foliage in summer.

Total 3 Spring Flowering Trees, 4-5 ft. size—\$9.35, postpaid.

CUSHION CHRYSANTHEMUM COLLECTION CG-7

Flowering SHRUBS

This important class of plant material has many uses in modern planting—in shrub borders, as specimens and the low-growing types in foundation plantings. Improvements have extended the blooming season, as well as afforded a more beautiful combination of colors. Shrubs are inexpensive, normally are easily transplanted and grown. Make your selection from the following choice varieties.

Note.—Size immediately after name of shrub indicates matured height, and not height at planting time.

ABELIA grandiflora. One of the most beautiful and useful of all flowering shrubs. Glossy foliage which is evergreen in Virginia, excepting severe winters, making it eligible for classification as a Broadleaf Evergreen as well as a shrub. So we list it under both Shrubs and Broadleaf Evergreens. Smaller sizes transplant reasonably well dug without ball, provided pruned severely at time transplanted. (See page 32 for balled and burlapped specimens). Grows to a height of 4 to 6 feet, making it ideal for foundation planting; also used for hedges and shrub borders. Small, light pink, tubular blossoms appear in July and continue until frost. Hardy as far north as Philadelphia. Offered in following sizes, dug without ball: 15-18 in., \$1.25 each; 3 or more \$1.15 each. 18-24 in., \$1.50 each; 3 or more, \$1.35 each.

ABELIA, Edward Goucher. Dwarf type Abelia maturing at half the size of Abelia grandiflora; deeper pink flowers throughout summer and fall. Ideal dwarf flowering shrub for spaces requiring low-growing plants. Almost evergreen. Dug without ball. 15-18 in. \$2.00 each; 3 or more, \$1.85 each. 18-24 in., \$2.75 each; 3 or more, \$2.60 each.

ALMOND, Pink Flowering (*Prunus glandulosa sinensis*). 5 ft. Dwarf shrub. Double pink flowers appear in spring in masses, covering plant. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

ALTHEA—Rose of Sharon (*Hibiscus syriacus*). 10 ft. An old-time flowering shrub not only found in old gardens, but worthy of a place in modern plantings. Hollyhock-like flowers from midsummer until late fall, when few shrubs are in bloom. Offered in single and double in each of following colors: Lavender, Pink, Purple, Red and White. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

BARBERRY, Green-leaved (*Berberis thunbergii*). 4 to 5 ft. Too well known to require a detailed description. Green leaves, red berries. Used as specimens, in borders and hedges. 3-yr., 15-18 in., 65c each; 3 to 30, 60c each; 30 or more, 55c each. 4-yr., heavy, 18-24 in., 90c each; 3 to 30, 80c each; 30 or more, 70c each. 5-yr., heavy, 24-30 in., \$1.25 each; 3 to 30, \$1.10 each; 30 or more, \$1.00 each.

BEAUTYBUSH (*Kolkwitzia amabilis*). 6 to 8 ft. A shrub with great possibilities. May be used in combination with Abelia and other shrubs of similar height and habits to furnish bloom throughout the summer. Long, arching branches covered in early spring with masses of pink, tubular blossoms. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

Flowering Almond

BARBERRY, Red-leaved (*Berberis atropurpurea*). 4 to 5 ft. Resembles Barberry thunbergii, differing by having blood-red foliage when planted in full sunlight. Yellow blossoms followed by red berries which hang on well into winter. Useful in screens, hedges and group plantings. 12-15 in., 85c each; 3 to 30, 80c each; 30 or more, 75c each. 15-18 in., \$1.00 each; 3 to 30, 90c each; 30 or more, 85c each. 18-24 in., \$1.40 each; 3 to 30, \$1.25 each; 30 or more, \$1.10 each.

Red Barberry

Abelia Grandiflora

Selected FLOWERING

CRAPE MYRTLE

(*Lagerstroemia indica*)

The South's most beautiful shrub. Blooms from July until frost. While it has been known to stand temperatures of as much as 15 degrees below zero, it is not considered entirely hardy in the higher altitudes of western part of Virginia. Adapted to southern and eastern Virginia and along the Atlantic seacoast as far north as Philadelphia. Throughout the South the Crape Myrtle ranks at the top as a flowering shrub, growing much larger and being longer lived than in this area. More difficult to transplant when transplanted, and given plenty of time to start new growth. Spring planting recommended. Where winter injury is a problem, the Purple Crape Myrtle is recommended because of its unusual hardiness and strong growing habits. Early bloomer, with largest flowers of all. Crape Myrtle offered in Pink, Watermelon-red, Purple and White. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

LARGE B&B SPECIMENS QUOTED ON REQUEST

BUSH HONEYSUCKLE

(*Lonicera*)

Hardy, easily grown shrubs which have many uses, thriving in both shade and sunlight, furnishing bloom in spring followed by red berries later in the season. Available in following varieties at these prices: 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each. 4-5 ft., \$2.25 each; 3 or more, \$2.10 each.

Fragrantissima (Evergreen Bush Honeysuckle). 8 to 10 ft. Fragrant white flowers in early spring followed by scarlet fruits.

Morrowi. 6 to 8 ft. Wide-spreading branches producing a profusion of creamy white flowers followed by bright red berries relished by birds.

Standishi. 5 to 6 ft. Dwarf type. White flowers, red fruit.

Tatarica rosea. 6 to 8 ft. Rosy pink flowers in spring followed by red berries. Useful in hedges, shrub borders and backgrounds.

New Zabell Red (*Lonicera Zabelli*). 8 to 10 ft. Improved type of Bush Honeysuckle. Deep red blooms, red berries, good foliage.

Euonymus alatus in background

BUTTERFLY BUSH (Buddleia)

(Summer Lilac)

4 to 6 ft. Under this class we offer the finest varieties, which will furnish long spikes of various colors from early summer until frost. After you see them, you will agree that great improvements have been made in Buddleia in the past few years. Our collection includes following choice named varieties; offered in 2-yr. size at \$1.25 each; 3 or more, \$1.00 each.

Burgundy. New wine-red. Strong, upright grower producing an abundance of large, well-rounded flower trusses.

Ile de France. One of the best and most popular Butterfly Bushes. Profusion of rosy purple flower spikes 6 to 9 in. long. July to frost.

Pink Dawn. Recent introduction. Compact plant with long spikes of pink flowers throughout summer and autumn.

White Cloud. Neat, compact plant. White spikes filled to the ends.

CHINESE BEAUTYBERRY (*Callicarpa purpurea*). 3 to 4 ft. Graceful, dwarf shrub. White flowers July and August, followed by masses of purple berries. Important berried plant. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

CRANBERRY BUSH (*Viburnum americanum*). White flowers followed by orange-red berries. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

DEUTZIA

An old, popular garden shrub now available in an assortment of improved varieties. We offer **Crenata** and **Pride of Rochester** in 2-3 ft. at \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

Crenata. 6 to 8 ft. Double pink. Slightly fragrant flowers.

Pride of Rochester. 6 to 8 ft. Fast-growing, early flowering. Masses of pink-tinged flowers covering the shrub.

Gracilis. 2 to 3 ft. Snowy white flowers in May. Valued because of its dwarf habit, adapting it to foundation plantings, borders and other locations requiring low-growing plant material. 15-18 in., \$1.25 each; 3 or more, \$1.15 each. 18-24 in., \$1.75 each; 3 or more, \$1.60 each.

Gracilis rosea. Similar to *Gracilis*, but pink flowers. 15-18 in., \$1.25 each; 3 or more, \$1.15 each. 18-24 in., \$1.75 each; 3 or more, \$1.60 each.

Lemoine. Semi-dwarf, maturing at 4 to 5 ft. height. Large, white flowers in spring. 18-24 in., \$1.00 each; 3 or more, 90c each.

Mont Rose. 4 to 5 ft. New semi-dwarf U. S. Department of Agriculture introduction. Arching branches. Rose-tinted flowers. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

DOGWOOD, Red Stem (*Cornus stolonifera*). 6 to 8 ft. Spreading shrub with red twigs during winter. Creamy white flowers followed by white berries, making it useful year 'round shrub. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

EUONYMUS alatus (Winged Burningbush). 6 to 8 ft. Unusual shrub. Upright with horizontal, spreading branches having unique, corky, winged growth. Tiny, chocolate colored flowers followed by red berries; beautiful autumn foliage. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.15 each.

EUONYMUS alatus compacta (Compact Winged Burningbush). Dwarf, compact form of this popular shrub. Excellent autumn-colored foliage. Useful where a low-growing, compact plant is required. 15-18 in., \$1.50 each; 3 or more, \$1.35 each. 18-24 in., \$2.00 each; 3 or more, \$1.85 each. 2-3 ft., \$2.25 each; 3 or more, \$2.15 each.

FLOWERING QUINCE (*Cydonia japonica*). 6 to 8 ft. Old shrub found in almost every garden and sometimes referred to as "Japonica". Red flowers in early spring, lasting several weeks. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

FORSYTHIA (Goldenbell)

Average height 6 to 8 ft. One of the first flowering shrubs to bloom—covered with yellow, tubular flowers before the foliage appears. Attractive, useful shrub throughout rest of the year. Often used as hedges, screens, in shrub borders and especially useful on steep banks, preventing erosion, as it can be grown in almost any kind of soil and climate.

PRICES: Lynwood Gold, Spring Glory and Weeping Forsythia: 2-3 ft., \$1.00 each; 3 to 30, 90c each; 30 or more, 80c each. 3-4 ft., \$1.50 each; 3 to 30, \$1.35 each; 30 or more, \$1.20 each. 4-5 ft., \$2.00 each; 3 to 30, \$1.85 each; 30 or more, \$1.70 each.

Lynwood Gold. New golden yellow. Erect branches literally covered with flowers from top to bottom. Matured height 5 to 7 ft. A worth-while companion to the popular light yellow Spring Glory.

Spring Glory. A recent introduction. Large, creamy yellow flowers of an entirely different shade completely cover the branches. The pleasing, unusual color and abundance of bloom make Spring Glory an outstanding shrub.

Weeping (*Forsythia suspensa*). Slender, weeping branches, golden yellow flowers. Excellent as a ground cover for steep banks and for hiding unsightly objects.

DWARF FORSYTHIA. New Dwarf Forsythia growing only 2 to 3 ft. in height. Rich golden yellow flowers. Suitable for foundation plantings. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

HYDRANGEAS

New Nikko Blue (*Macrophylla*). 3 ft. Improved Blue Hydrangea. Produces masses of large blue flower heads on new wood, resulting in flowers every year, while older varieties bloom only on old wood, sometimes accounting for non-flowering when wood is cut back or freezes. For best results and violet-blue blossoms, plant in a moist, acid soil, using Rho-Za-Gro or similar organic acid soil conditioner and peat moss. If pink flowers are desired, sweeten the soil with lime. Does best in partial shade. 2-yr., \$1.75 each; 3 or more, \$1.60 each.

Hills of Snow (*Hydrangea arborescens grandiflora*). 3 to 4 ft. Large, flat, white snowball-like flowers in midsummer. Can be grown in partial shade or full sunlight. 2-yr., \$1.50 each; 3 or more, \$1.35 each.

Peegee (*Hydrangea paniculata grandiflora*). 6 to 8 ft. Enormous white, conical-shaped heads appear in August and remain intact throughout the season but turn a light pink during fall. For best results prune back each winter. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

Kerria japonica. 4 to 6 ft. Bright green stems, dark green foliage; yellow blossoms all summer. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

Belle de Nancy

Pres. Grevy

Jan Van Tol

Rubra de Marley

LILAC (Syringa)

An old shrub which has lost none of its popularity; in fact, is more in demand than ever, due to much improvement in varieties.

Named Hybrids—Selected to furnish an assortment of colors:

Belle de Nancy. Double pink.
 Charles X. Single reddish purple.
 Jan Van Tol. Single pure white.
 Ludwig Spaeth. Single deep purple.
 Pres. Grevy. Double bluish lilac.
 Rubra de Marley. Single reddish purple.

Prices on above named Lilacs: 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

DISTINCTIVE MOCKORANGES

(Philadelphus)

You may have a wealth of bloom in late spring and summer from following choice varieties:

Atlas. Giant-flowered pure white, single blossoms as large as those of Dogwoods. Good upright habit of growth, attaining height of about 6 ft. Blooms late May and June.

Double Fragrant. 5 ft. New, double, pure white. Free blooming and sweet-scented. Graceful, well branched shrub. Extra hardy.

Innocence (Alabaster-white Mockorange). 5 ft. Large, single, alabaster-white flowers borne on long, arching branches. Noted for its pure white blooms.

Virginal. 7 to 9 ft. Orange-blossom-like fragrance. Semi-double white flowers borne in abundance in spring, followed by scattered blossoms throughout summer and fall.

PRICES ON ABOVE MOCKORANGES: 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

LILACS, Old-Fashioned. Purple (*Syringa vulgaris*) and white (*Syringa vulgaris alba*). 2-3 ft., \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each.

MOCKORANGE, Old-Fashioned. (*Philadelphus coronarius*). 8 to 10 ft. Popular, well-known, hardy shrub. Single white flowers. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each. 4-5 ft., \$2.00 each; 3 or more, \$1.85 each.

PEARL BUSH (*Exochorda grandiflora*). 8 to 10 ft. Large, fast-growing shrub. Pure white flowers in May. Useful in shrub borders, backgrounds and as screens. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

POTENTILLA fruticosa pendula. 3 to 4 ft. Beautiful shrub with somewhat weeping form. Brilliant golden yellow flowers from midsummer until frost. 18-24 in., \$1.50 each; 3 or more, \$1.35 each.

PURPLE FRINGE or SMOKE TREE (*Rhus cotinus*). 10 to 12 ft. Conspicuous, spreading, shrub-like tree. Large clusters of round leaves, overhung in midsummer by mist-like clouds of tiny lavender-pink, silken fibers hanging on for months. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each.

PUSSY WILLOW, New French (*Salix discolor*). 12 to 15 ft. Improved Pussy Willow with larger silvery catkins than old type. Popular for indoor forcing in late winter and early spring, as well as effective lawn and garden shrub. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

REGEL BORDER PRIVET (*Ligustrum regelianum*). Beautiful shrub. Very hardy. Dark, shiny leaves. Graceful, drooping branches. Blue berries which hang on well into winter. Ideal for covering walls, banks, or a low foundation. 18-24 in., \$1.00 each; 3 to 30, 90c each; 30 or more, 80c each. 2-3 ft., \$1.50 each; 3 to 30, \$1.35 each; 30 or more, \$1.20 each.

SCOTCH BROOM (*Cytissus scoparius*). An old plant which is not as extensively used in America as in Europe. However, it can be successfully grown here. Dark green stems make it attractive throughout the year. Bright yellow flowers appear in May and June. Matured height 6 ft. 2-yr. clumps, dug without ball, \$1.75 each; 3 or more, \$1.60 each. 3-yr. clumps, dug without ball, \$2.50 each; 3 or more, \$2.35 each.

SNOWBALL, Japanese (*Viburnum tomentosum plicatum*). 7 to 8 ft. This semi-dwarf type is more extensively used than old-fashioned Snowball. Big, white flowers in June. Glossy green foliage in summer, turning purplish red in autumn. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each. 3-4 ft., \$2.50 each; 3 or more, \$2.35 each.

SNOWBALL, Old-Fashioned (*Viburnum opulus sterile*). 8 to 10 ft. Very satisfactory shrub with beautiful clusters of large, globular white flowers in May. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

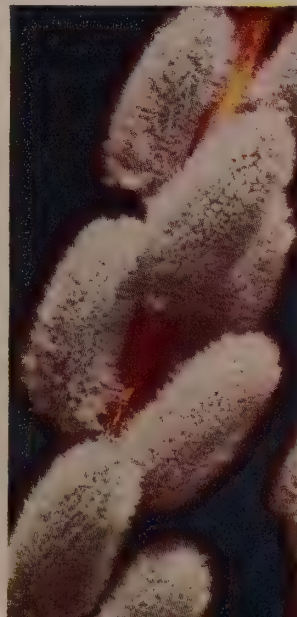

SNOWBERRY (*Symphoricarpos racemosus*). 4 to 5 ft. Handsome dark green foliage and a profusion of large white berries in the fall. 2-3 ft., \$1.00 each; 3 or more, 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

SWEET PEPPERBUSH (*Clethra alnifolia*). 4 to 5 ft. Has many uses in the garden. Spicy, fragrant white flower spikes in August and September. 18-24 in., \$1.25 each; 3 or more, \$1.15 each.

Mockorange, Double Fragrant

New French Pussy Willow

Spirea Van Houtte (See illustration Page 28)

Nikko Blue Hydrangea

SPIREAS

A desirable class of shrubs, available in many varieties. The following are especially useful for both small home plantings and larger landscape developments. Easily grown, inexpensive, adapted to a wide range of soils; hardy in almost any climate.

Anthony Waterer (*Spiraea Anthony Waterer*). 3 ft. Suitable for planting under windows and along shrub borders. Low-growing. Flat, rose-red flower clusters in great numbers in June, scattered blossoms throughout summer. Colorful autumn foliage. 15-18 in., \$1.25 each; 3 or more, \$1.15 each. 18-24 in., \$1.75 each; 3 or more, \$1.60 each. 2-3 ft., \$2.25 each; 3 or more, \$2.10 each.

Billiardi (*Spiraea billiardi*). 4 to 6 ft. Everblooming *Spiraea*. Flower spikes are at their best in July but continue until frost. Available in Pink and White. 2-3 ft., \$1.00 each; 3 or more 90c each. 3-4 ft., \$1.50 each; 3 or more, \$1.35 each.

Blue Mist (*Caryopteris incana*). Compact, low-growing shrub, covered with masses of powdery blue flowers from August to frost. Tops are perennial, like Butterfly Bush. 3-yr. plants, \$1.25 each; 3 or more, \$1.15 each.

Old-Fashioned Bridal Wreath (*Spiraea prunifolia*). 6 to 8 ft. Small, double, white flowers cover branches in early spring. Rich autumn coloring. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each.

Thunbergi (*Spiraea thunbergi*). 4 to 5 ft. Attractive green foliage which turns to beautiful color of orange and red in autumn. Dainty white flowers in early spring. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each.

Van Houtte (*Spiraea vanhouttei*). 6 to 8 ft. At home almost everywhere planted, under the most favorable and unfavorable conditions. Medium grower. Often used in foundation plantings, shrub borders, as specimens, and serving other purposes. Spreading, attractive shrub with graceful weeping branches. Good foliage and in early spring plant is covered with masses of pure white flowers. (Illustrated page 27). 18-24 in., 3 for \$1.80; more than 3, 55c each. 2-3 ft., 3 for \$2.25; more than 3, 65c each.

VIBURNUM lantana (Wayfaring Tree). Single white flowers in May followed by red fruit which changes to black. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each. 4-5 ft., \$2.50 each; 3 or more, \$2.35 each.

VIBURNUM, Sweet-scented (*Viburnum carlesii*). 4 ft. Produces delicate spice-scented, fragrant, light pink flowers in May and June. 15-18 in., \$2.00 each; 3 or more, \$1.85 each. 18-24 in., \$2.50 each; 3 or more, \$2.35 each. Note: Ask for prices on larger B&B specimens.

VIBURNUM sieboldi. 10 ft. Creamy white flowers in May and June. Pink to bluish fruit. Strong grower. 2-3 ft., \$1.50 each; 3 or more, \$1.35 each. 3-4 ft., \$2.00 each; 3 or more, \$1.85 each.

VITEX macrophylla (Chaste Tree). 4 to 5 ft. Large, showy, lavender flower spikes from July until frost. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

WEIGELA

Old garden shrub continuing in demand; used in gardens of all sizes and designs.

Bristol Ruby. 4 to 6 ft. Well formed, vigorous shrub producing immense quantities of ruby-red flowers in spring, followed by scattered blossoms throughout summer and fall. A superior Red Weigela. 18-24 in., \$1.50 each; 3 or more, \$1.35 each. 2-3 ft., \$2.00 each; 3 or more, \$1.85 each.

Eva Rathke. 4 to 6 ft. Free bloomer, beginning in May and blooming intermittently until late fall. Bright red. Dwarf grower, suitable for foundation planting. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each.

Rosea. 7 to 8 ft. Best known and most extensively planted pink Weigela. Blooms abundantly in May and June. 18-24 in., \$1.00 each; 3 or more, 90c each. 2-3 ft., \$1.25 each; 3 or more, \$1.15 each. 3-4 ft., \$1.75 each; 3 or more, \$1.60 each.

WEIGELA GROUP

- 1 Weigela Bristol Ruby. Red.
- 1 Weigela Eva Rathke. Red.
- 1 Weigela rosea. Pink.

Total 3 Weigela Plants
18-24 in., \$3.95

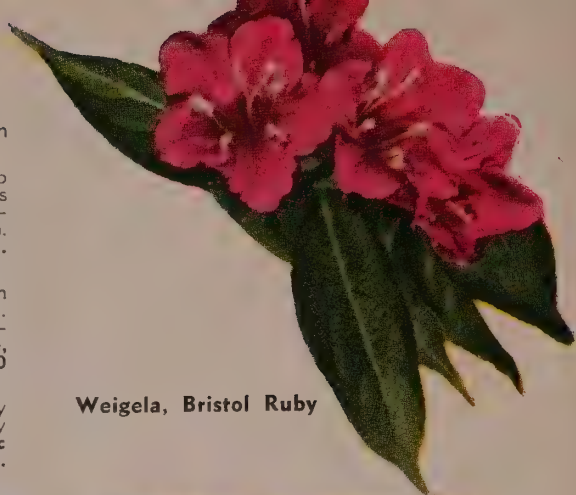

Postpaid to points east of the Mississippi.

White Fringe (*Chionanthus virginica*). 12 to 15 ft. Very showy shrub. Large, leathery, shiny leaves; masses of lace-like, drooping white flowers in May, followed by purple berries. 18-24 in., \$2.00 each; 3 or more, \$1.85 each. 2-3 ft., \$2.75 each; 3 or more, \$2.60 each.

Winterberry (*Ilex verticillata*). 6 to 8 ft. Deciduous Holly noted for its bright red winter berries. Entirely hardy. 18-24 in., \$1.25 each; 3 or more, \$1.15 each. 2-3 ft., \$1.75 each; 3 or more, \$1.60 each. 3-4 ft., \$2.25 each; 3 or more, \$2.10 each.

Winter Jasmine (*Jasmine nudiflorum*). 3 ft. Low-growing. Weeping branches, green stems and semi-evergreen foliage effective throughout winter. Profusion of yellow blossoms begin appearing in late winter, continuing throughout spring. One of the earliest spring-flowering shrubs. Useful in foundation plantings, as well as in hedges and as ground cover. 2-yr., \$1.25 each; 3 or more, \$1.15 each. 3-yr., \$1.75 each; 3 or more, \$1.60 each.

CONTAINER-GROWN FLOWERING SHRUBS—Ask for Price List.

Weigela, Bristol Ruby

Viburnum carlesii

Weigela rosea

HEDGES

A hedge is ornamental as well as it affords protection, costs less than metal, wood or stone fence, requires little attention and upkeep, lasts almost indefinitely. Evergreen Chinese Privet for home planting and landscape effect; Rosa Multiflora for field fences is recommended.

EVERGREEN HEDGES

Boxwoods, Hemlocks, Hollies and Ligustrum lucidum may also be used as hedges. See descriptions and listings on other pages.

Practical Multiflora Rose Fence

(*Rosa multiflora*)

Living Farm Fence of Great Value

Inexpensive, easy to grow, stock-tight. Recommended by U. S. Soil Conservation Service. Thousands now planted. Need no trimming. Easily destroyed by 2-4-D. Practical, ideal for wild life, beautiful. White flowers in spring, followed by bright red berries in fall and winter. Grows 6 to 8 feet tall, 5 to 7 feet wide. Plant 1 foot apart in single row. Protects soil, crops, game.

EVERGREEN LIVING FENCE

EVERGREEN CHINESE PRIVET (*Ligustrum sinensis*)

Also known as Amur River South Privet. Improved, evergreen type. Just as hardy as California Privet and has added advantage of retaining its glossy green foliage throughout the average winter. Rapid, compact grower, making a dense hedge in a short time. May be sheared to almost any desired height from 1 to 8 feet. Suitable for surrounding the entire home grounds or as a line between yards.

Planting. For a dense, compact hedge, plant 6 inches apart in a single row, pruning back within 2 or 3 inches of the ground at time of planting. For a screen plant 12 inches apart.

Chinese Evergreen Privet

WAYNESBORO NURSERIES

Waynesboro's Choice EVERGREENS

For Year 'Round Beauty
CONIFEROUS OR CONE-BEARING TYPES

A Model Low Cost EVERGREEN FOUNDATION PLANTING

Consisting of 6 Evergreens suitable for the small home.

- 2 **American Pyramidal Arborvitae**. 2-2½ ft. To be used at corners.
- 2 **Globe Arborvitae**. 15-18 in. For space between entrance and corner.
- 2 **Berckmann's Golden Arborvitae**. 15-18 in. For each side of entrance.

6 Choice Evergreens for only \$24.75

American Pyramidal Arborvitae

Evergreens are not only beautiful in winter when the earth is brown and deciduous trees are barren, but graceful and effective during the summer. Our Coniferous Evergreens are offered dug with ball of earth and can be transplanted throughout the year. However, planting during the hotter months—June, July and August—is limited.

Balled and Burlapped Evergreens cannot be conveniently packed for Parcel Post shipment. Small shipments weighing under 100 pounds may be boxed and shipped by Express; larger shipments by Motor Freight. On Evergreen orders to be boxed for Express or Motor Freight shipments, add 10% for boxing. Within a radius of 300 miles we maintain our own truck delivery service reaching most communities. On such deliveries there is no boxing charge, but a nominal trucking charge, varying as to weight of shipment and delivery distance. It is suggested that customers call at our Nursery for Balled and Burlapped Evergreens, saving boxing and delivery costs.

NOTE: Write for prices on Large Specimen Evergreens.

ARBORVITAE (Thuja)

At one time the Arborvitae was the most extensively planted Evergreen and some types are still popular; others have been displaced by more generous use of Hemlocks, Yews, and Broad-leaved Evergreens.

American Pyramidal (*Thuja occidentalis pyramidalis*). Well-known pyramidal Evergreen and an excellent companion of the Globe, Berckmann's Golden and Bonita when used in foundation plantings, being used at the corners and other spaces where pyramidal types are required. Requires no shearing unless to trim to a desired height; in that case, shearing does not detract from the appearance of the plant. 15-18 in., \$2.75; 18-24 in., \$3.85; 2-2½ ft., \$4.75.

Berckmann's Golden (*Thuja orientalis aurea nana*). Well-known plant with golden foliage. Frequently used with Pyramidal and Globe Arborvitae. 12-15 in., \$3.00; 15-18 in., \$3.85; 18-24 in., \$4.75.

Bonita (*Thuja orientalis Bonita*). Dark green, dwarf, compact form of Oriental Arborvitae. 12-15 in., \$3.00; 15-18 in., \$3.85.

Globe (*Thuja globosa*). Dwarf, compact, globe-shaped grower. Ideal for foundation plantings, for hedges, bordering flower gardens, and numerous other uses. 12-15 in., \$3.00; 15-18 in., \$3.85; 18-24 in., \$4.75.

FIRS

A group of Evergreens especially adapted to high altitude, well drained soil, and colder climates. Not recommended for the Deep South. Used as specimens or in evergreen groups.

Balsam (*Abies balsamea*). Dark green foliage. Makes an excellent live Christmas tree, which can be lighted and used from year to year.

Douglas (*Pseudotsuga douglasii*). Tall, fast-growing Fir. Light green foliage, silvery underneath.

Balsam and Douglas Fir Prices: 24-30 in., \$4.75; 30-36 in., \$6.25; 3-4 ft., \$8.00; 4-5 ft., \$10.00.

NOTE: Ask for prices on larger specimen Firs.

Save Your Shrubs and Trees from Dog Destruction

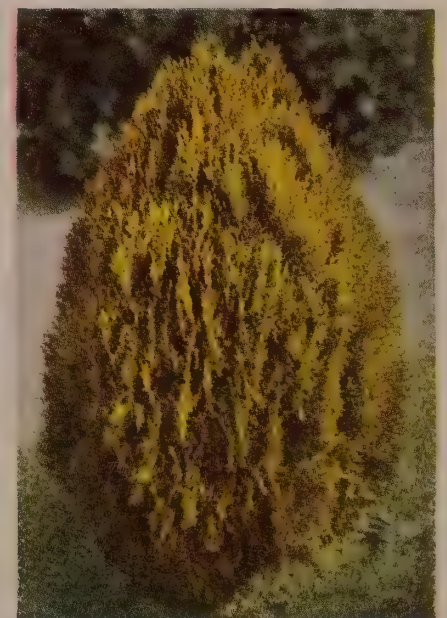

by spraying with Chaperone, a dog repellent. Not offensive to human beings, but dogs don't like it and stay away. Works like magic. Harmless, does not show. Economical to use—each application lasts up to three weeks, rain or shine.

Also effective with cats and other animals.

8 ounces, \$1.65, postpaid.

Globe Arborvitae

Berckmann's Golden Arborvitae

WAYNESBORO, VIRGINIA

Canadian Hemlock

HEMLOCK, Canadian (*Tsuga canadensis*)

A most satisfactory evergreen. Native of America, now appreciated as never before. Hardy, adapted to wide range of soil. Strong grower, beautifully shaped, graceful; good foliage. Easily transplanted and may be kept sheared to almost any desired shape and size. Effective in foundation plantings, to be used at the corners and in other spaces where a taller growing evergreen is required. Makes excellent hedge and useful as a background or screen.

	1-6 Each	6 or more Each		1-6 Each	6 or more Each

2 Hicks' Yew. For each side of entrance.
4 Pfitzer Juniper. Under windows.
2 Canadian Hemlock. To be used at corners.
All 8 Evergreens in the 18-24 in. general landscape size for \$35.00.

Pfitzer Juniper

Plant CONIFEROUS EVERGREENS

JUNIPER (*Juniperus*)

Useful family of Evergreens. May be had in numerous shapes, colors and textures of foliage, as well as in sizes to meet almost any requirement.

The Junipers, as a rule, prefer a rather dry, sunny location. An effective, complete landscape planting may be had by arranging according to height, spread, and color of foliage.

Andorra (*Juniperus communis depressa plumosa*). Compact, prostrate grower with beautiful, grayish green foliage in summer turning to attractive bronze color during winter. Hardy, strong grower. Especially suitable for covering banks, as a border, at the side of steps or end of walkway near the gate. 12-15 in., \$3.00; 15-18 in., \$3.85.

Irish (*Juniperus communis hibernica*). Tall, slender Evergreen with silvery green foliage. Often used at corners and at posts in foundation plantings where a columnar type is required. Also used in formal gardens where it can be sheared to almost any desired height. Hardy, vigorous grower; easily transplanted. Prefers full sunlight. 18-24 in., \$3.25; 2-2½ ft., \$3.75; 2½-3 ft., \$4.50; 3-4 ft., \$5.50.

Pfitzer's (*Juniperus chinensis pfitzeriana*). Possibly the best known and most extensively planted of all the Junipers, as it ranks near the top among evergreens. A low grower, almost prostrate. Light green foliage. Hardy and adapted to almost all soils, other than a very wet location which no Juniper likes. Especially useful in foundation plantings, under windows, in low evergreen borders, etc. Withstands partial shade. 15-18 in., \$3.50; 18-24 in., \$4.25; 2-2½ ft., \$5.00.

Pfitzer's Compact (*Juniperus chinensis pfitzeriana compacta*). More dwarf and compact than standard Pfitzer Juniper. 15-18 in., \$4.00; 18-24 in., \$4.75.

Silver Pfitzer's (*Juniperus glauca Hetzi*). Silvery foliage. Somewhat more upright grower than green type Pfitzer. 15-18 in., \$3.50; 18-24 in., \$4.25.

PINES (*Pinus*)

No evergreen is adapted to a wider distribution than the Pine. There are many species, having varied uses. We offer those especially suited to the area we serve—the Japanese Red, Scotch and White Pines being used for screens, windbreaks, evergreen groups, hedges and specimens; the Mugho, most dwarf of all Pines, seldom growing more than 4 feet in height, with equal spread, is used in foundation plantings, in beds, at entrances, and in other positions where a low-growing evergreen is required. Austrian, a slow, dwarf grower, is especially well suited for borders and screens. Japanese Black Pine is especially well suited to sea-coast planting.

Austrian (*Pinus nigra*). Rather slow, dwarf grower. Compact, dark green foliage, long needles. 18-24 in., \$3.75; 2-3 ft., \$4.75; 3-4 ft., \$6.50; 4-5 ft., \$8.00.

Japanese Black Pine (*Pinus thunbergi*). Short, stiff needles. Especially adapted to exposed conditions at the seashore. 18-24 in., \$3.25; 2-3 ft., \$4.25; 3-4 ft., \$6.00.

Japanese Red Pine (*Pinus densiflora*). Long blue-green needles. Fast, tall grower, maturing at around 60 feet. 2-3 ft., \$4.25; 3-4 ft., \$6.00; 4-5 ft., \$7.50.

Mugho (*Pinus montana mughus*). Dense, compact growers, especially effective in the spring when the new growth starts. 12-15 in., \$3.75; 15-18 in., \$5.00; 18-24 in., \$6.50.

Scotch (*Pinus sylvestris*). One of the fastest growers. Short, silvery green needles. 18-24 in., \$3.25; 2-3 ft., \$4.25; 3-4 ft., \$6.00; 4-5 ft., \$7.50.

White (*Pinus strobus*). A beautiful cone-bearing evergreen. Long, soft bluish green needles; large brown ornamental cones. Vigorous grower, long-lived. One of the largest Pines. 18-24 in., \$3.25; 2-3 ft., \$4.25; 3-4 ft., \$6.00; 4-5 ft., \$7.50.

White Pine

Evergreens offered are those grown in large quantities. In addition, we have other varieties and sizes in limited supply. Ask for quotations.

LARGER, SPECIMEN EVERGREENS

WAYNESBORO NURSERIES

FOR YEAR 'ROUND BEAUTY

SPRUCE (*Picea*)

Especially desirable as specimens, but may be used as live, outdoor Christmas trees, screens, and as background for smaller type plants. Some used temporarily in foundation plantings, but they are not generally recommended for permanent plantings of this type as they soon outgrow the space unless kept pruned severely.

Black Hills (*Picea glauca densata*). Similar to Norway Spruce, but more compact and better suited for foundation plantings. 15-18 in., \$3.00; 18-24 in., \$3.75; 2-2½ ft., \$4.50; 2½-3 ft., \$5.25; 3-4 ft., \$6.50; 4-5 ft., \$8.50.

Canadian Blue (*Picea canadensis glauca*). Conical, compact grower. Small, bluish green needles. Adapted to wider range of soil and climate than Colorado Blue Spruce. Also known as White Spruce. 15-18 in., \$3.00; 18-24 in., \$3.75; 2-2½ ft., \$4.50; 2½-3 ft., \$5.25; 3-4 ft., \$6.50; 4-5 ft., \$8.50.

Norway (*Picea excelsa*). Best known of all the Spruces. Easily transplanted. Fast, thrifty grower. Long-lived and adapted to many uses. Retains its dark green foliage throughout the year.

	1-6 Each	6 or more Each		1-6 Each	6 or more Each
15-18 in.	\$2.50	\$2.25	2½-3 ft.	\$4.75	\$4.50
18-24 in.	3.00	2.75	3-4 ft.	5.75	5.50
2-2½ ft.	3.75	3.50	4-5 ft.	8.00	7.50

YEWS (*Taxus*)

The tendency in evergreen plantings is towards better, dwarf, slow-growing, permanent plants rather than fast-growing less permanent ones which frequently become outgrown and ineffective within a few years. The Yew is now by far the most important family of Coniferous Evergreens.

Great interest in Yews is easily accounted for—their rich dark green color, which is maintained at all seasons, in partial shade or full sunlight; variation of form, ease of training and pruning—also their adaptability to various soils and uses. Another prized feature of Yews is their scarlet berries, which frequently are borne in great profusion. They respond to shearing and can be kept at almost any desired shape and height.

Yews may be had with following habits of growth: Pyramidal, Columnar, and Spreading. These types have a place in modern landscape plantings.

Cedar Hill (*Taxus Cedar Hill*). Slow-growing, compact, upright grower. 12-15 in., \$4.00; 15-18 in., \$5.25.

English Spreading (*Taxus baccata repandens*). Low, spreading type. 12-15 in., \$4.50; 15-18 in., \$6.00.

Hatfield (*Taxus hatfieldi*). Broad, columnar shape, flared at top. More dwarf than Hicks'. 12-15 in., \$3.75; 15-18 in., \$4.75; 18-24 in., \$6.50; 2-2½ ft., \$8.50.

Hicks' (*Taxus hicksi*). An upright, columnar grower. Compact, dark green foliage which retains its lustrous green color throughout the year. Entirely hardy and adapted to wide range of soils, but like all Yews, it responds to a deep fertile soil. Suitable for planting at entrance and corners in foundation plantings. Also may be used as specimens in formal gardens and other positions requiring a columnar type plant. 12-15 in., \$3.50; 15-18 in., \$4.50; 18-24 in., \$6.00; 2-2½ ft., \$7.75; 2½-3 ft., \$9.50.

Japanese Dwarf (*Taxus cuspidata nana*). Slow-growing, dwarf, compact. 12-15 in., \$6.00; 15-18 in., \$7.50.

Japanese Pyramidal (*Taxus cuspidata capitata*). The normal growing habit of this Yew is pyramidal—broad at base and tapering towards the top. 15-18 in., \$5.00; 18-24 in., \$6.75.

Japanese Spreading (*Taxus cuspidata*). Wide spreading habit, the width exceeding height. Dark green foliage and red berries. Adapted to both full sunlight and partial shade, making it one of the most useful of all spreading type Coniferous evergreens. Frequently used in foundation plantings with its companion, Upright Hicks'. Priced by spread. 12-15 in., \$3.75; 15-18 in., \$4.75; 18-24 in., \$6.50; 2-2½ ft., \$8.50.

NOTE: Write for quotations on large specimens in Yews.

MODEL YEW FOUNDATION PLANTING for a Small Home

Graceful, Permanent, Disease-Resistant

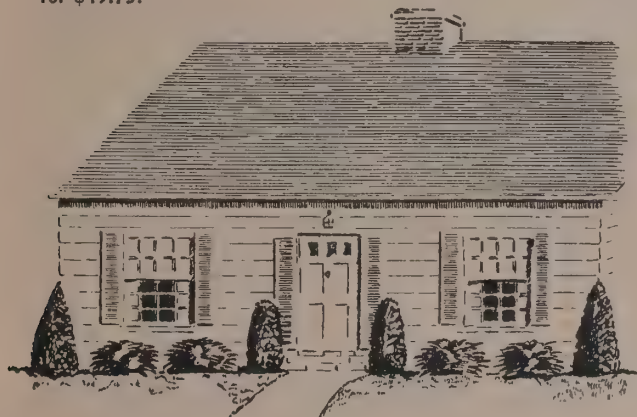

One of the best Coniferous Evergreens, costing more than faster growing types, but adapted to both full sunlight and partial shade and growing into permanent beauty.

2 Hicks' Yews. For each side of entrance.

4 Japanese Spreading Yews. Under windows.

2 Japanese Pyramidal Yews. To be used at corners.

All 8 Yews in the 12-15 in. Home Owners' Size for \$29.75. This group may be had in the 18-24 in. General Landscape Size for \$49.75.

Azaleas for Springtime Color

AZALEAS

The Pride of the Spring Garden

(See page 25 for Springtime Azalea Scene at our Boxwood Gardens.)

Starting to blossom in early March in the Deep South, continuing the season until June in the southern part of the New England States. Varieties offered have been selected not only for color and abundance of bloom, but for hardiness and general adaptability to outdoor culture in the area we serve.

In response to increased demand for Broadleaved Evergreens, production has been stepped up in better Azaleas, New Hybrid Rhododendrons and Hollies in our branch nursery, **Azalea Gardens**, Route 151, between Amherst and Afton, Virginia. These plants have been used generously in landscaping the ground surrounding **Boxwood Gardens**, where blooming size plants may be picked up at any season and carried home in your car.

Culture: Until it became generally known that Azaleas require an acid soil, an abundance of humus and a uniform moisture supply, they were considered difficult to grow. With proper culture, it is now possible to have beautiful Azaleas in almost any soil. **Rho-Za-Gro** supplies not only acidity, but necessary plant food. Uniform moisture and humus may be retained with a mulch of **Peat Moss** or even decomposed sawdust.

Azalea Classes:

Kurume. Best known class of Azaleas. Prolific bloomers. Varieties listed are generally hardy as far north as New York.

Gable. Introduced by Mr. Joseph B. Gable of Pennsylvania. Varieties we offer have been selected for hardiness as well as range of color, quality of flowers and habits of growth.

Glenn Dale. Hybrids introduced by U. S. Department of Agriculture; named for Experiment Station at Glenn Dale, Maryland. Noted for their hardiness, quantity of bloom, as well as coloring and superior quality.

Indica. In which class we list only White Indica, most hardy of all Indica Azaleas.

Vuykiana. New race of Hybrid Japanese Azaleas noted for their prolific blooming, hardiness and sturdy growth.

DWARF AND SEMI-DWARF EVERGREEN AZALEAS

Corsage (Gable). Free blooming. Large, single orchid flowers. Very hardy.

Glory (Kurume). Hose-in-hose blossoms of beautiful shade of apricot-pink.

Hexe (Kurume). Hose-in-hose flowers; large, crimson-red. Low grower. Mid-season.

Hinodegiri (Kurume). Bright carmine-red flowers produced so profusely as to completely cover the plant when in full bloom. Dense, compact bush broader than high with rounded green leaves. Most extensively planted garden Azalea.

Louise Gable (Gable). Lovely double salmon-pink. Midseason.

Macrantha (Kurume). Quick growing and hardy. Salmon-red flowers very late in the season.

Morning Glow (Kurume). Attractive deep pink.

Paradise (Glenn Dale). Deep rose-pink. Free flowering.

Pink Pearl (Kurume). Produces great quantities of beautiful deep pink flowers.

Royalty (Gable). Large, double, bright purple blossoms.

S. C. Hybrids (Hybrid). Large-flowered pink. Late.

Sherwoodi (Kurume). Produces an abundance of good size orchid-colored flowers. Very hardy.

Sibelius (Vuykiana). Noted for its masses of single red blossoms.

Snow (Kurume). Large, snow-white flowers. Compact grower, profuse bloomer. Hose-in-hose. Valuable, hardy garden Azalea.

Sunrise (Kurume). Bright flame-red suffused with copper. Early.

White Indica (Ledifolia alba). Abundance of large, white flowers showing occasional scarlet splashes. Hardy, strong grower. Popular in the Magnolia and Middleton Gardens of Charleston, South Carolina.

Winner (Glenn Dale). Pink, hose-in-hose. Midseason.

BROAD-LEAVED EVERGREENS

Many offer a double and triple attraction by flowering and fruiting, the berries remain on well into winter.

Dwarf types—such as Azaleas, Boxwood, Euonymus patens, Hollies, Ligustrums, Abelia, and Rhododendrons—are frequently used in foundation plantings, borders, hedges, and as specimens, while larger growing ones are usually planted as a background for lower growers.

Broad-leaved Evergreens are transplanted dug with ball of earth with exceptions noted on small Boxwoods indicated by *.

EVERGREEN BARBERRY

Julianae (Berberis julianae). Most popular of the upright evergreen Barberries. Beautiful, large, dark glossy green leaves which turn attractive bronze color during winter. Yellow flowers in spring. Purple berries. Very hardy. 12-15 in., \$3.00; 15-18 in., \$3.75; 18-24 in., \$4.50; 2-2½ ft., \$5.50.

Verruculosa (Berberis verruculosa). Best of the low-growing dwarf Barberries. Thick, glossy evergreen foliage, silvery underneath. Hardy. Blue berries. 12-15 in., \$3.50; 15-18 in., \$4.25.

ABELIA GRANDIFLORA

Also listed and illustrated under Shrubs, page 25, as small sizes may be transplanted, dug without ball. During severe winters it loses much of its foliage in northern part of Virginia and farther north, but is reasonably hardy and even if affected by extreme cold, it comes right back, more beautiful than ever, blooming the first season. This beautiful Broad-leaved Evergreen is planted in almost every southern garden and frequently found as far north as New York. Offered in balled and burlapped plants as follows: 2-3 ft. \$3.50; 3-4 ft., \$4.50.

EUONYMUS PATENS

A most satisfactory Euonymus. Low, dwarf grower, hardy. White flowers in spring, followed by red berries which remain on until well into winter. Excellent foundation plant. Illustrated on page 32. 15-18 in., \$2.25; 18-24 in., \$3.00; 2-2½ ft., \$3.75.

Beautiful and Colorful Throughout the Year

FAMOUS VIRGINIA BOXWOODS (Buxus)

The first group of Broad-leaved Evergreens to be extensively used as landscape material in America. The old Boxwood gardens of Virginia and other states of the South are recognized as being among the most interesting gardens in America and are visited annually by thousands of tourists.

Boxwoods are long-lived, slow to medium growers, beautiful throughout the year. They have many uses in both old and modern gardens, are especially noted for the bordering of driveways, walks, perennial beds, Azalea groups, and other low-growing types of plant material. The taller species are even used as screens. Boxwoods always carry a certain amount of dignity, yet can be effectively used in the small, modern garden. There are many varieties; we offer the most popular, practical ones.

BOXWOOD, STANDARD

(*Buxus sempervirens*). Often referred to as American or Standard Box because of its general use. No doubt more of this useful type is grown than all other varieties combined. Medium grower, maturing at a height of 15 ft. or more, with equal spread. Slender, pointed, dark green leaves, plant pyramidal in form when young, broader as it becomes older. Sometimes confused with its more dwarf companion, *Buxus suffruticosa*, which is a close rival for first place. *Buxus sempervirens* has many uses and has always been in great demand. Especially useful as specimens in hedges and borders. Requires fertile soil and good drainage.

CAMELLIAS

One of the South's well known Broad-leaved evergreens. Noted for its gorgeous blossoms in various colors. May be grown along Atlantic Seaboard as far north as Washington, D. C., and extensively grown in Norfolk area of Virginia. Use Rho-Za-Gro.

Sasanqua. Fall blooming. Pink, Red, White. 18-24 in., \$4.50; 2-2½ ft., \$6.00.

Japanica. Spring blooming. Pink, Red, White. 18-24 in., \$6.00.

COTONEASTER microphylla (Rockspray). Prostrate-growing plant. Useful on banks, in rock gardens and other places requiring low-growing evergreen plants. Small, shiny leaves, red berries. 15-18 in., \$3.25; 18-24 in., \$3.75.

ERICA gracilis. Beautiful, hardy, low-growing evergreen scarcely more than 12 inches in height, and 18-inch spread. Dark evergreen foliage. Entire plant covered with profusion of rose-colored, fragrant, tubular flowers from January until April. Even without flowering, this charming little plant would be worthy of a place in your garden. Ideal for the rock garden or border. 2-yr., \$1.75 each in lots of 1 to 10; 10 or more, \$1.60 each.

BOXWOOD, DWARF ENGLISH

(*Buxus suffruticosa*). This is the round-leaved, slow-growing, compact Boxwood frequently found on old estates here in Virginia. Specimens several hundred years old having a spread of 8 to 10 ft. are still the pride of many of the famous gardens but the enormous prices offered for these old specimens have moved many of them to new homes. Young plants increase in value each year and serve to make the garden more beautiful.

Note.—Above Dwarf English Boxwood sizes indicated by (*) dug with puddled roots; other sizes Balled and Burlapped (BB.).

LARGE SPECIMEN BOXWOODS

Offered in addition to sizes listed in this catalog. The value of these plants is determined by their size, shape and compactness. It is preferable that the planter see the plants, make selections and be furnished with prices.

ELAEAGNUS fruitlandi. Fast-growing, hardy. Medium size, pointed leaves, slightly silvery underneath. Silvery bronze berries. Excellent as a hedge or screen, also in areas where growing conditions for other plants are unfavorable, due to smoke, dust and improper drainage. Matures at approximately 8 feet. 18-24 in., \$3.50; 2-2½ ft., \$4.25.

ELAEAGNUS simoni. A new *Elaeagnus* differing from *Fruitlandi* by being more dwarf and compact, with rounded, more glossy leaves, silvery underneath. Bronze fruit. Suitable as a foundation plant or as a low-growing evergreen border or hedge. 18-24 in., \$3.75; 2-2½ ft., \$4.50.

KALMIA latifolia (Mountain Laurel). Well known native evergreen. Dark glossy, evergreen foliage. Masses of pink, Azalea-like flowers in May. Adapted to acid soil conditions, like the *Rhododendrons* and *Azaleas*, use Rho-Za-Gro. 18-24 in., \$3.75; 2-2½ ft., \$4.50.

Dwarf Boxwood Hedge

Unsheared Standard Boxwood Hedge

Elaeagnus Simoni

HOLLY (Ilex)

Well-known group of Broad-leaved Evergreens. Useful in garden as well as for Christmas decoration material. Glossy, dark green foliage and ornamental berries. The use of Rho-Za-Gro is recommended and the planting of groups of three or more for successful fruiting.

American Holly (*Ilex opaca*). Adapted to wide range of soil and climate. In many places will grow into trees 25 ft. or more in height but often kept sheared in the garden to small specimens. White flowers in early spring. Red berries on the berry-bearing plants serve as decoration throughout winter. 18-24 in., female, berry-bearing plants, \$6.00. Larger berry-bearing plants quoted on request. Ask for prices on non-fruiting male plants for pollination.

Boxleaf (*Ilex convexa*). Dwarf, compact grower. Most effective dark, glossy green, convex foliage; blue berries. One of the best dwarf evergreens for foundation plantings. 12-15 in., \$3.50; 15-18 in., \$4.25; 18-24 in., \$5.75.

Foster (*Ilex Fosteri*). New hybrid, cross between American and Cassine Hollies. Fast, upright grower. Noted for its early fruiting habits. Bright red berries. 18-24 in., \$6.00; 2-2½ ft., \$7.50.

Helleri (*Ilex helleri*). Dwarf. Small leaves, blue-black berries. Used for edging, in foundation plantings and low hedges. 10-12 in., \$4.75; 12-15 in., \$6.00.

Oriental (*Ilex crenata*). Differs from American by having small, thick, dark green foliage and blue-black berries. 18-24 in., \$4.50; 2-2½ ft., \$5.25; 2½-3 ft., \$6.25; 3-4 ft., \$7.50.

Round-Leaf Oriental (*Ilex crenata rotundifolia*). Larger, rounder leaves than *Ilex crenata*, making a broader, more compact plant. Resembles Boxwood and used in similar manner. Also useful in hedges, screens, and as specimens and in larger outdoor plantings. Hardy, low, slow grower. 12-15 in., \$3.00; 15-18 in., \$3.75; 18-24 in., \$4.75.

Small-leaf Oriental (*Ilex crenata microphylla*). Low-growing, compact form of Oriental Holly. Blue-black berries. Neat grower, requiring little shearing. Smaller leaves than Round-leaf Oriental Holly. 15-18 in., \$4.00; 18-24 in., \$5.00; 2-2½ ft., \$6.50.

Roundleaf Holly

BROAD-LEAVED EVERGREENS

LAURELS

(*Prunus* or *Laurocerasus*)

Cherry (*Prunus caroliniana*). Fast grower. Glossy green foliage. Dark purple berries. Useful in hedges, screens and as specimens. Not generally hardy north of Virginia. 18-24 in., \$3.75; 2-2½ ft., \$4.50.

English (*Prunus officinalis*). Large, dark green leaves resembling *Magnolia grandiflora*. Used in foundation plantings and evergreen borders. Not generally hardy north of Virginia. 18-24 in., \$3.75; 2-2½ ft., \$4.50; 2½-3 ft., \$5.50.

Schipkaensis (*Prunus schipkaensis*). This new dwarf, hardy, low-growing, compact Laurel is especially well adapted to foundation planting. Has year 'round beauty and is noted for retaining its dark green foliage throughout winter. 12-15 in., \$3.00; 15-18 in., \$3.75; 18-24 in., \$4.50.

Zabel (*Prunus Zabeli*). Differs from *Schipkaensis* Laurel by being more prostrate in growth and having more slender leaf. 12-15 in., \$3.00; 15-18 in., \$3.75; 18-24 in., \$4.50.

NANDINA DOMESTICA. Used throughout Virginia and near the coast farther north. Small, light green foliage in summer turning to brilliant shades of red in late fall, continuing through winter. White blossoms in summer, bright red berries in fall and winter. Useful and beautiful. 15-18 in., \$3.75; 18-24 in., \$4.50.

OSMANTHUS fortunei. Tea Olive. Large, olive-green, spiny-toothed evergreen leaves. Creamy white, fragrant flowers in spring, followed by bluish berries. Thrives in sunlight or partial shade in Virginia and states farther south. Useful in foundation plantings or as specimens. 15-18 in., \$3.00; 18-24 in., \$4.00; 2-2½ ft., \$5.50.

OSMANTHUS illicifolium. Closely resembles English Holly, but more hardy. Blue-black berries. Slower grower and more compact than *Osmanthus fortunei*. 15-18 in., \$3.50; 18-24 in., \$4.50; 2-2½ ft., \$6.00.

PHOTINIA SERRULATA. Upright grower. Leaf tips red in spring, turning green later in season. Large, lustrous, leathery leaves with serrated edges. White flowers, red berries. 15-18 in., \$3.00; 18-24 in., \$3.75; 2-2½ ft., \$4.50.

PYRACANTHA (Firethorn)

Evergreen foliage, white flowers in May, bright red or orange berries. Deserves a place in every garden—in borders, hedges or as specimens. Prune when planting. Make your selection from following choice varieties:

Gibbsi. Profusion of bright red berries which hang on until early spring.

Kazan. Dwarf Lalandi; more spreading. Orange berries.

Lalandi. Tall, irregular grower. Large, orange-colored berries hanging on well into winter. One of the most hardy *Pyracanthas*.

Rosedale. Fast, upright grower. Early bearer of bright red berries.

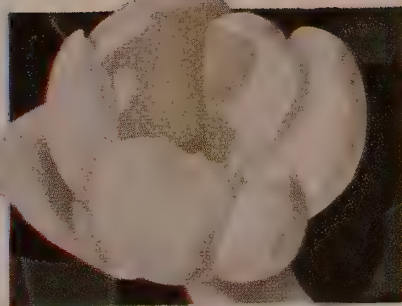

PYRACANTHA PRICES: In one-gallon containers: 15-18 in. plants, \$2.75; 18-24 in., \$3.50.

Schipkaensis Laurel

MAGNOLIA GRANDIFLORA

Famous Southern Evergreen Magnolia. Can be satisfactorily grown in most parts of Virginia, but not hardy much farther north. Tree grows to be quite large. Tulip-like, very fragrant, large, pure white flowers in summer followed by pods of bright red berries. 18-24 in., \$3.75; 2-3 ft., \$4.75; 3-4 ft., \$6.75; 4-5 ft., \$9.00.

Magnolia Grandiflora

RHODODENDRONS

Would be worthy of a place in the garden without their gorgeous bloom. However, few plants are more beautiful when blossoming under favorable conditions.

Culture: Apply 2 to 3 lbs. Rho-Za-Gro and 3 to 6 lbs. Peat Moss per plant when planting, repeating application annually. No additional plant food or soil conditioner required.

NATIVE RHODODENDRONS

Catawbiense. Low, compact. Round-tipped, glossy, evergreen foliage. Gorgeous purplish red flowers in May. Frequently used in front of Maximum in mass plantings. 18-24 in., \$4.50; 2-2½ ft., \$5.50.

Maximum. Tall, strong grower. Large leaves, light pink flowers in June and July. Useful as a background in group plantings with low-growing types. 18-24 in., \$4.00; 2-3 ft., \$5.50; 3-4 ft., \$7.00.

HYBRID RHODODENDRONS

Beautiful Broad-leaved Evergreens found in the better landscape plantings of the East. We offer following Hybrids:

Catawbiense alba. White. Late.

Dr. H. D. Dresselhuys. Bright red. Late.

Parson's Gloriosum. Rosy lilac. Late.

Roseum Elegans. Rose tinted lilac. Midseason.

Hybrid Rhododendron Prices: 15-18 in., \$6.50; 18-24 in., \$8.00.

VIBURNUM LEATHER-LEAF

(*Viburnum rhytidophyllum*)

One of the most hardy of all Broad-leaved Evergreens. Thick, leather-like, evergreen foliage; creamy white flowers in May and June followed by clusters of bright red berries in July and August, adding to the merits of this valuable plant. Grows to a height of 6 to 8 ft. May be used in foundation plantings or evergreen shrub borders. Thrives in full sunlight but gives best results in partial shade. Merits more extensive use. 2-3 ft., \$4.75; 3-4 ft., \$6.50.

LIGUSTRUM LUCIDUM

One of the South's most popular Broad-leaved Evergreens. Ideal for foundation plantings, borders and groups. Adapted to both full sunlight and partial shade. White flowers in summer, blue berries throughout winter. Not considered entirely hardy north of Philadelphia. 15-18 in., \$2.75; 18-24 in., \$3.50; 2-2½ ft., \$4.25; 2½-3 ft., \$5.00.

[34]

Ligustrum Lucidum

Red Berried Pyracantha

Orange Berried Pyracantha

Waynesboro's Popular

Flowering and Ornamental Trees

Especially useful as specimens and as border backgrounds for flowering shrubs. Used in plantings on the roadside, school and industrial plant grounds, on large estates and as shade trees on the grounds of low, ranch type homes.

NOTE: Flowering Trees quoted dug without ball unless indicated BB., meaning Balled and Burlapped.

ASH, European Mountain (*Sorbus aucuparia*). Valuable medium growing tree. Striking orange-scarlet berries. 5-6 ft., \$4.25 each; 2 for \$8.20; 5 or more, \$4.00 each. 6-8 ft., \$5.50 each; 2 for \$10.50; 5 or more, \$5.15 each.

CHINESE SCHOLAR TREE (*Sophora japonica*). Also known as Japanese Pagoda Tree. Tall-growing, flowering tree. Creamy white flower panicles. 3-4 ft., \$3.50 each; 2 for \$6.70; 5 or more, \$3.25 each. 4-5 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each.

CORNELIAN CHERRY (*Cornus mas*). Medium-growing tree. Small, yellow flowers in spring. Shining scarlet berries in fall. 18-24 in., \$1.75 each; 2 for \$3.35; 5 or more, \$1.60 each. 2-3 ft., \$2.25 each; 2 for \$4.30; 5 or more, \$2.10 each. 3-4 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each.

DOGWOODS. See page 48—back cover.

FLOWERING CRABS (*Malus*)

One of the very best small ornamental trees. Showy masses of bloom herald the coming of spring; cool summer shade is to be enjoyed; as autumn approaches, the small shapely fruits add to the beauty of the tree and are fine jelly-makers. Effective in street planting, on large and small home grounds, in parks, and for beautifying industrial plant surroundings. Easily grown, vigorous, hardy. Frequently bloom second year after transplanted. Make your selections from following choice varieties offered.

Dolgo (*Malus Dolgo*). Single white. Red, edible fruits. Green foliage.

Eley's (*Malus eleyi*). Masses of red flowers followed by scarlet fruits which are excellent for jellies and pickles. Red foliage in spring, deepening into bronzy green as summer advances. Strong grower. Desirable as specimen shade tree.

Hopa (*Malus Hopa*). Bright pink flowers in profusion. Red fruits suitable for jellies and pickles. Good grower. Excellent as a specimen or as a green-leaved companion of Eley's.

Prices on Dolgo, Eley's, Hopa Flowering Crabs

3-4 ft.,	\$2.25 each;	2 for \$4.30;	5 or more,	\$2.10 each
4-5 ft.,	2.75 each;	2 for 5.30;	5 or more,	2.55 each
5-6 ft.,	3.25 each;	2 for 6.30;	5 or more,	3.05 each

FLOWERING CRAB OFFERS

One each Almey, Dolgo, Eley's and Hopa—Total Four Flowering Crab Trees, 3 to 4 ft. Size, \$9.85.

Or one each of Eley's and Hopa in 4 to 5 ft. Size—Total 2 Flowering Crabs, 4 to 5 ft. Size, \$5.95.

Above Flowering Crab Offers Postpaid to points east of the Mississippi.

Hopa Crab

Kwanzan Cherry

FLOWERING CHERRY (*Prunus*)

So generally known and admired that detailed descriptions are unnecessary. Strong growers, frequently blooming first season after being transplanted. Blossoms literally cover the stems.

Kwanzan Double Pink. Upright grower. A large percent of the trees in the famous Potomac Basin planting in Washington, D. C. are of this type. 3-4 ft., \$3.75 each; 2 for \$7.20; 5 or more, \$3.50 each. 4-5 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each.

Weeping. Differs from the Standard Flowering Cherry by being weeping in form. 5-6 ft. Stem, Blooming Size Specimens, \$12.00 each; 2 for \$23.00. Write for quotations on larger BB. Specimens.

ALMEY FLOWERING CRAB

(*Malus Almey*)

Huge blossoms of rich, glistening crimson. From a distance the tree has appearance of a mass of flame. Produces in profusion small scarlet fruits which cling long after the leaves have dropped. 3-4 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 4-5 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each. See illustration.

Almey Crab

Ornamental TREES

FRANKLINIA (*Franklinia altamaha*). The "Lost Tree" of the Altamaha. Rare, slender tree with graceful branches. Large, fragrant, frilled and pleated white flowers, with masses of orange-gold stamens, from August until frost. Begins blooming when quite young. 2-3 ft., \$3.75 each; 2 for \$7.20.

GINKGO biloba (*Maidenhair Tree*). Pyramidal tree with maidenhair-like leaves. 2-3 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 3-4 ft., \$3.50 each; 2 for \$6.70; 5 or more, \$3.25 each.

GOLDEN CHAIN (*Laburnum vossii*). Shrub-like tree with long, hanging clusters of yellow flowers in May. 4-5 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 5-6 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.

GOLDEN-RAIN TREE (*Koelreuteria paniculata*). Clusters of lemon-yellow flowers in midsummer. Medium grower, maturing 20 to 30 feet. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.

HAWTHORN (*Crataegus*)

Paul's Scarlet Hawthorn (*Crataegus oxyantha pauli*). Grows 12 to 15 ft. Compact, uniform, shrub-like tree. Brilliant, rosy red, double flowers in June. Red berries. 5-6 ft., BB, \$9.00 each; 2 for \$17.00. 6-8 ft., BB, \$12.00 each; 2 for \$23.00.

Washington Hawthorn (*Crataegus cordata*). White blossoms, scarlet autumn foliage. 3-4 ft., without ball, \$3.75 each; 2 for \$7.20; 5 or more, \$3.50 each. 4-5 ft., without ball, \$4.75 each; 2 for \$9.10; 5 or more, \$4.45 each. 5-6 ft., BB, \$9.00 each; 2 for \$17.00.

LINDEN, AMERICAN (*Tilia americana*). Large, green leaves. Fragrant, creamy white flowers. Good grower; uniform, shapely tree. Useful for specimens, on home grounds, street and park plantings. 5-6 ft., \$3.50 each; 2 for \$6.70; 5 or more, \$3.25 each. 6-8 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 8-10 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.

LINDEN, European Little-leaf (*Tilia cordata*). Smaller leaves than the American; more dwarf, compact grower. Excellent shade tree for small grounds or planting on narrow streets. 4-5 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.75 each. Ask for quotations on BB specimens.

MAGNOLIA, Oriental. Deciduous tree growing only 12 to 15 ft. high, branched from the ground. Tulip-like flowers in early spring just ahead of foliage. Available in Purple and White. 2-3 ft., BB, \$6.00 each; 2 for \$11.50. 3-4 ft., BB, \$8.00 each; 2 for \$15.20.

SERVICE BERRY (*Amelanchier canadensis*). Small, bushy shrub-like tree. Pure white flowers appear in early spring, in advance of foliage. Red, juicy, delicious berries. Used extensively in Colonial Williamsburg gardens. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each; 8-10 ft., \$12.00 each; 2 for \$23.00.

YELLOW-WOOD (*Cladrastis lutea*). Deciduous tree growing to 40 ft. Smooth, gray bark, shiny leaves. Striking long panicles of fragrant white flowers in May. Rare, beautiful Flowering Tree worthy of more extensive use. 5-6 ft., \$9.00 each; 2 for \$17.00. 6-8 ft., \$12.00 each; 2 for \$23.00.

RUBY TREE (*Prunus Thundercloud*). Also known as Red-leaved Flowering Plum. Valuable small tree for the lawn. Ruby-red foliage in spring, retaining its color well throughout summer. Early pink flowers; ornamental bright red fruits. 3-4 ft., \$2.25 each; 2 for \$4.30; 5 or more, \$2.10 each. 4-5 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 5-6 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each.

Ruby Tree

Flowering Peach Blossoms

FLOWERING PEACH (*Prunus persica*). Double Pink, Red and White. Striking, colorful tree for the spring garden, bursting into blossom two weeks ahead of Dogwoods. Double, long-lasting flowers cover the twigs, remaining on for ten days or more. For best results, prune severely immediately after blooming, before new growth starts. 3-4 ft., \$2.25 each; 2 for \$4.30; 5 or more, \$2.10 each. 4-5 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 5-6 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each.

WEeping RED FLOWERING PEACH Same sizes as above, 50c more per tree.

MIMOSA (*Albizia julibrissin*). Dwarf-like, irregular, spreading grower. Lacy foliage. Pink, silky flowers in July and August. Purely a southern tree, not often used north of Virginia. Fast grower, early bloomer, and most effective as a specimen or in groups on large grounds. 4-5 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 5-6 ft., \$3.50 each; 2 for \$6.70; 5 or more, \$3.25 each. 6-8 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 8-10 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.

REDBUD (*Cercis canadensis*). Beautiful small tree now being recognized as one of our most valuable native flowering trees. Small pink flowers cover stem in early spring, before foliage appears. Effective in plantings with Dogwoods, around edges of forests, bordering lawn, in group plantings, and as specimens. 3-4 ft., \$1.75 each; 2 for \$3.35; 5 or more, \$1.60 each. 4-5 ft., \$2.25 each; 2 for \$4.30; 5 or more, \$2.10 each. 5-6 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 6-8 ft., \$3.75 each; 2 for \$7.20; 5 or more, \$3.50 each.

TULIP TREE (*Liriodendron tulipifera*). Also known as Tulip Poplar. Large, stately, pyramidal, fast-growing, native tree. Fragrant, cup-shaped, Tulip-like, creamy flowers blotched orange. Spring planting recommended. 4 to 5 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 5-6 ft., \$3.50 each; 2 for \$6.70; 5 or more, \$3.25 each. 6-8 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. Ask for quotations on larger BB specimens.

Tulip Tree

Shade Trees

Good shade trees afford both comfort and beauty; in some instances, bloom, fruit and autumn coloring.

Our favorable location in the fertile Shenandoah Valley—with large acreage, access to a plentiful supply of experienced agricultural labor, as well as other growing and marketing facilities—makes possible our offering following properly grown, carefully handled Shade Trees at reasonable prices.

NOTE: Shade Trees are quoted dug without ball, NB., unless indicated BB., meaning Balled and Burlapped.

ASH, American White (*Fraxinus americana*). Strong grower, spreading and giving excellent shade, yet not so dense as to destroy grass beneath branches. Suitable for street and campus planting, as well as on lawns where space permits. 5-6 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each. 6-8 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.75 each. 8-10 ft., \$5.50 each; 2 for \$10.50; 5 or more, \$5.15 each. 10-12 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each.

BEECH, American (*Fagus americana*). This famous tree is denied more extensive use because of its being difficult to transplant. Write for quotations on large BB. specimens.

BIRCH, Cut-Leaved Weeping (*Betula alba pendula laciniata*). Slender tree with white bark, gracefully weeping branches, fern-like cut leaves, all of which combine to make it a most beautiful tree. May be used as a specimen or in tree groups. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 8-10 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each.

BIRCH, European White (*Betula alba*). Larger leaves and stiffer branches than the weeping type. Good shade tree as well as effective in group plantings. Young trees have grey bark, which gradually changes to white. 5-6 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.75 each. 6-8 ft., \$5.00 each; 2 for \$9.60; 5 or more, \$4.70 each.

BIRCH, Clump European White (*Betula alba*). Same as European White other than having three or more stems from ground, forming compact clump. 4-5 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 5-6 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.

CATALPA bungei (Umbrella Catalpa). Small, umbrella-like tree, suitable where space is limited. Seldom grows higher than 10-12 feet, with equal spread. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.

CATALPA speciosa (Western Catalpa). Fast-growing, spreading tree. White summer flowers. Useful where quick effect is required. 6-8 ft., \$3.50 each; 2 for \$6.70; 5 or more, \$3.25 each.

European White Birch

ELMS (*Ulmus*)

The Elm comprises one of the best known and most extensively planted groups of shade trees, being adapted to almost all kinds of soil and climate. Easily transplanted, fast grower.

American (*Ulmus americana*). This famous shade tree is adapted to numerous uses and localities. In many of our older cities trees with branches meeting across the street form a shaded archway. At its best when planted in parks and broad streets. 5-6 ft., \$2.75 each; 2 for \$5.30; 5 or more, \$2.55 each. 6-8 ft., \$3.50 each; 2 for \$6.70; 5 or more, \$3.25 each. 8-10 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 10-12 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.

Chinese (*Ulmus pumila*). Resembles American Elm, but is more compact, has finer branches, less spread, and does not grow to be as large. Suitable for streets, on home grounds, and other places where a fast-growing, medium size tree is desired. Sends its roots deep into the soil, interfering very little with grass. One of the fastest growers of all shade trees; also one of the first to come out in leaf in the spring and last to lose its foliage in the fall.

Chinese Elm

PRICES: 5-6 ft., \$2.00 each; 2 for \$3.80; 5 to 30, \$1.85 each. 6-8 ft., \$2.75 each; 2 for \$5.30; 5 to 30, \$2.55 each. 8-10 ft., \$3.50 each; 2 for \$7.20; 5 to 30, \$3.50 each. 10-12 ft., \$4.75 each; 2 for \$9.10; 5 to 30, \$4.45 each.

NOTE: Ask for prices on Chinese Elm in larger quantities.

European White Birch Clump

SHADE

Waynesboro's Family of Famous Maple Trees

MAPLE (Acer)

This group is well known and extensively planted, as Maples can be satisfactorily grown in a large part of this country. Of numerous varieties, we offer the most choice ones as follows:

NORWAY MAPLE (Acer platanoides)

Especially suited for street planting and on grounds of small homes. As it makes only a medium size tree, can be used where space does not permit larger trees such as Sugar Maple and American Elm. Large, dark green foliage. Dense, spreading. Rather slow grower.

5-6 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.75 each. 6-8 ft., \$5.00 each; 2 for \$9.60; 5 or more, \$4.70 each. 8-10 ft., \$6.50 each; 2 for \$12.40; 5 or more, \$6.05 each. 10-12 ft., \$8.50 each; 2 for \$16.00; 5 or more, \$7.85 each.

- GUM, Sour** (Nysa sylvatica). Write for quotations on BB. specimens.
- GUM, Sweet** (Liquidambar styraciflua). Medium size, reasonably fast grower. Odd, cork-like bark. Large green leaves during summer, turning to beautiful golden and scarlet in fall, making it a very satisfactory shade tree, but is difficult to transplant. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 8-10 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each.
- HACKBERRY** (Celtis occidentalis). Small, compact, slow grower. Blue-black berries. 5-6 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.75 each. 6-8 ft., \$5.00 each; 2 for \$9.60; 5 or more, \$4.70 each. 8-10 ft., \$6.50 each; 2 for \$12.40; 5 or more, \$6.05 each.
- HONEY LOCUST, Thornless** (Gleditsia triacanthos inermis). Odd shaped, spreading tree with broad head, somewhat weeping branches, finely cut foliage. Tree filled with sprays of greenish white, fragrant flowers in early summer. Thornless. 5-6 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each. 6-8 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.75 each. 8-10 ft., \$5.50 each; 2 for \$10.50; 5 or more, \$5.15 each.
- KENTUCKY COFFEE TREE** (Gymnocladus dioica). Somewhat resembles the Walnut. Blue-green foliage. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each.
- LARCH, European** (Larix europea). Ask for quotations.

MAPLE, SUGAR (Acer saccharum)

Native of the East, found growing in forests. In some localities the trees are tapped for sugar water which is boiled into syrup and maple sugar. Beautiful autumn colored foliage in shades of gold and scarlet. Tall, pyramidal shape, requiring more space than Norway. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 8-10 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each. 10-12 ft., \$9.50 each; 2 for \$18.00; 5 or more, \$8.75 each.

MAPLE, CARDINAL

(Acer platanoides nigra)

Recent introduction from Holland. Sometimes listed as Faassen's Redleaf Maple. Sport of well-known Norway Maple. New, tender foliage is crimson, turning bronze as leaves mature. Habits of growth similar to Norway. For color accent all summer, plant Cardinal. 5-6 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 6-8 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each.

Maple, Crimson King. Patent No. 735. Foliage color and habit of growth similar to Cardinal Maple illustrated this page. 5-6 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 6-8 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each.

Japanese Blood-leaved (Acer palmatum atropurpureum). Attractive, ornamental, shrub-like tree. Bright red foliage early spring, copperish red during summer, turning bright red during late fall. As more transplanting risk is involved than in other Maples, we offer Balled and Burlapped. 15-18 in., BB., \$7.50 each; 2 for \$14.30. 18-24 in., BB., \$9.00 each; 2 for \$17.00. Ask for quotations on larger BB. specimens.

Scarlet (Acer rubrum). Medium grower. Light green foliage generally turning scarlet in fall. Not quite as dense as Norway. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 8-10 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each. 10-12 ft., \$9.50 each; 2 for \$18.00; 5 or more, \$8.75 each.

Schwedler's Red-leaved (Acer platanoides schwedleri). Symmetrical tree of Norway family. Leaves bright reddish purple in spring, turning deep bronzy green in summer. 5-6 ft., \$4.50 each; 2 for \$8.60; 5 or more, \$4.20 each. 6-8 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 8-10 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each. 10-12 ft., \$9.50 each; 2 for \$18.00; 5 or more, \$8.75 each.

Silver (Acer dasycarpum). Especially popular because of being a fast grower. Light green foliage slightly silver underneath. Trees grow to be larger and more spreading than Norway and should be given more space. Suitable for broad streets and large home grounds, as well as useful in public parks. 5-6 ft., \$2.50 each; 2 for \$4.80; 5 or more, \$2.30 each. 6-8 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each. 8-10 ft., \$4.25 each; 2 for \$8.20; 5 or more, \$4.00 each. 10-12 ft., \$5.75 each; 2 for \$11.00; 5 or more, \$5.35 each. NOTE: Ask for prices on larger BB. specimen Maples.

LOCUST, MORaine (Patent No. 836). Fast-growing, hardy, long-lived, seedless. Especially adapted to new homes requiring quick shade, yet Moraine Locust is a good tree—hardy, long-lived, drought-resistant, and will grow in a wide range of soil and climate. Due to good shape of tree and fine foliage, enough light filters through to permit excellent lawn. The Moraine Locust is sterile, so there are no unsightly seed pods to clean up in the fall. 5-6 ft., \$6.00 each; 2 for \$11.50; 5 or more, \$5.60 each. 6-8 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each.

Silver Maple

TREES

- For a LIFETIME of Beauty and Benefits

Oak (Quercus)

For permanent shade, few trees excel the Oaks, which are long-lived, sturdy and stately. More difficult to transplant than some shade trees and slower in becoming established. Reasonably fast growers, becoming more valuable with age.

Laurel (*Quercus laurifolia*). Grows naturally from Virginia to Florida. Shining dark green leaves, semi-evergreen.

Pin (*Quercus palustris*). The most extensively planted Oak because it lends itself to planting on narrow streets and small home grounds. Also useful in parks, bordering driveways and almost anywhere a medium size shade tree is required. Very uniform, pyramidal grower. Large, glossy green foliage turning red in fall—making tree ornamental as well as affording desirable shade.

Red (*Quercus rubra*). Makes a beautiful shade tree from the time it is established on lawn or street. Grows to be very old and a giant in the forest. When planting a tree as a lasting memorial, the Red Oak is recommended as one of the best. Large, glossy green foliage which turns scarlet in the fall.

Scarlet (*Quercus coccinea*). Similar to Red Oak in general appearance and habit of growth; foliage somewhat more serrated and turns to more uniform scarlet in fall. Beautiful, satisfactory tree.

White (*Quercus alba*). Well-known, native American White Oak. Rather difficult to transplant, but makes a beautiful tree, especially when planted in groups in parks or on large estates. Colorful autumn foliage.

PRICES ON ABOVE OAKS: 5-6 ft., \$5.00 each; 2 for \$9.60; 5 or more, \$4.70 each. 6 to 8 ft., \$6.50 each; 2 for \$12.40; 5 or more, \$6.05 each. 8-10 ft., \$9.00 each; 2 for \$17.00; 5 or more, \$8.30 each. 10-12 ft., \$11.00 each; 2 for \$20.00; 5 or more, \$9.75 each.

PLANE, Oriental (*Platanus orientalis*). Rapid-growing tree especially well suited to street planting where some trees are not successful because of smoke. Also suitable for lawn and park planting. 5-6 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each. 6-8 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.75 each. 8-10 ft., \$5.50 each; 2 for \$10.50; 5 or more, \$5.15 each. 10-12 ft., \$7.50 each; 2 for \$14.30; 5 or more, \$7.05 each.

Lombardy Poplar

POPLAR, Bolleana (*Populus bolleana*). Glossy green leaves, silvery underneath. Slender growing, but wider than Lombardy and much longer lived. 5-6 ft., \$1.65 each; 2 for \$3.10; 5 or more, \$1.45 each. 6-8 ft., \$2.50 each; 2 for \$4.80; 5 or more, \$2.30 each. 8-10 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each. 10-12 ft., \$4.75 each; 2 for \$9.10; 5 or more, \$4.45 each.

POPLAR, Lombardy (*Populus nigra italica*). Suitable as a background, along driveways, screening off outbuildings and other unsightly objects. 5-6 ft., \$1.35 each; 2 for \$2.50; 5 or more, \$1.15 each. 6-8 ft., \$1.65 each; 2 for \$3.10; 5 or more, \$1.45 each. 8-10 ft., \$2.50 each; 2 for \$4.80; 5 or more, \$2.30 each.

Write for quotations on Lombardy Poplar in larger quantities.

WALNUT, Black (*Juglans nigra*). See page 23 for sizes and prices.

WEeping WILLOW (*Salix*)

Babylon Weeping (*Salix babylonica*). Beautiful weeping tree. Especially well suited to planting near streams, but can be grown on well drained soil.

Golden Weeping (*Salix niobe*). Graceful, weeping tree. Light green leaves, golden yellow bark.

ThurloW Weeping (*Salix elegantissima*). Vigorous, more upright grower than Babylon Weeping. Desirable for street plantings, as well as on lawns.

PRICES ON ABOVE WEeping WILLOWS: 5-6 ft., \$2.50 each; 2 for \$4.80; 5 or more, \$2.30 each. 6-8 ft., \$3.25 each; 2 for \$6.30; 5 or more, \$3.05 each. 8-10 ft., \$4.25 each; 2 for \$8.20; 5 or more, \$4.00 each.

Queen Elizabeth Grandiflora

NOTE: Write for prices on large, specimen BB. Shade Trees.

NOTE: Ask for quotations on following Oaks in size and quantity desired: Austrian Turkey, Bur, Chestnut, Willow. Also ask for quotations on BB. specimens in following Oaks: Austrian Turkey, Bur, Chestnut, Laurel, Pin, Red, Scarlet, English White, American White, Willow.

LIVE OAK

(*Quercus virginiana*)

The evergreen Oak of the Deep South, associated with hanging moss, song and story. Semi-evergreen in Virginia. Not hardy north of Virginia. Narrow, shining green leaves. 4-5 ft., BB., \$8.00 each; 5-6 ft., BB., \$9.50 each.

Weeping Willow

NORW
(Acer p

Especially suited for **CHRYSLER IMPERIAL** (Patent No. 1167). Long, tapered buds. Satiny pure white blooms borne on long stems. Vigorous plant of upright habit. The only white Hybrid Tea Rose to win an All-America Rose Selections Award. \$3.00 each; 3 or more, \$2.65 each.

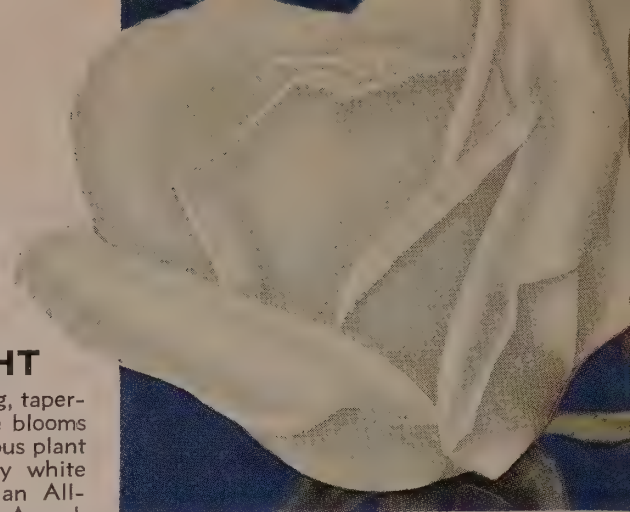

5-6 ft., \$4.00 each; 2 for \$7.70; 5 or more, \$3.00 each; 2 for \$9.60; 5 or more, \$4.70 each. 8-10 ft., \$12.40; 5 or more, \$6.05 each. 10-12 ft., \$8.50 each; 5 or more, \$7.85 each.

PINK PEACE

(Patent No. 1759). Large, very double buds and blooms of deep pink borne singly on long stems. Vigorous, upright, well branched plant. Excellent foliage. \$3.00 each; 3 or more, \$2.65 each.

WHITE KNIGHT

(Patent No. 1359). Long, tapered buds. Satiny pure white blooms borne on long stems. Vigorous plant of upright habit. The only white Hybrid Tea Rose to win an All-America Rose Selections Award. \$3.00 each; 3 or more, \$2.65 each.

FLORIBUNDAS

For Masses of Bloom All Summer

Fashion. (Patent No. 789). Buds of Oriental red open slowly into miniature Hybrid-Tea-like blooms of luminous coral-pink, overlaid with gold. Constant masses of flowers throughout the season. **\$2.00 each; 3 or more, \$1.75 each.**

Fashion

Floradora

Floradora. Exquisitely formed buds of glowing orange-scarlet open to brilliant cinnabar-red, fully double flowers resembling a perfect little Camellia. Long-stemmed cut flowers retain their true color well. **\$1.50 each; 3 or more, \$1.35 each.**

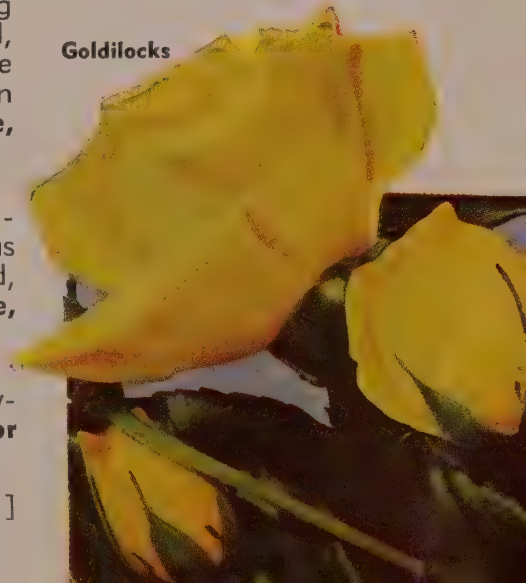

Goldilocks. (Patent No. 672). True golden yellow. Low, compact bush furnishes continuous masses of golden buds and many-petaled, long-lasting flowers. **\$1.75 each; 3 or more, \$1.55 each.**

Goldilocks

Summer Snow. Profuse blooming. Double, snow-white. Medium size plant. **\$1.50 each; 3 or more, \$1.35 each.**

Summer Snow

Outstanding Climbing Roses

Practical Varieties That Give a Wealth of Color in the Summer Season

PEACE CLIMBER. (Patent No. 932). Climbing sport of this popular Rose. Big, lovely flowers of yellow, cream, white and pink. **\$2.25 each; 3 or more, \$2.00 each.**

HIGH NOON. (Patent No. 704). Yellow. Regional All-America Award Winner for mild climates. Believed to be as hardy as the average Hybrid Tea Rose. Constant masses of yellow, pointed buds and flowers throughout summer on long stems. Excellent for cutting and especially effective for trellises. **\$2.50 each; 3 or more, \$2.20 each.**

PAUL'S SCARLET CLIMBER. Vivid scarlet, semi-double blooms. Profuse bloomer. Most popular and widely planted Red Climber. **\$1.35 each; 3 or more, \$1.20 each.**

NEW DAWN. (Patent No. 1). First Rose ever to be honored with U.S. Plant Patent and still an outstanding hardy, everblooming climber. Sport of the well-known Dr. Van Fleet. Flesh-pink. Blooms intermittently from May until frost. **\$1.50 each; 3 or more, \$1.35 each.**

New Dawn Climber

BLAZE. (Patent No. 10). Scarlet-crimson. Profusion of blossoms in June, also scattered throughout the fall. Hardy. **\$1.50 each; 3 or more, \$1.35 each.**

Blaze Climber

HARDY CLIMBING VINES

BITTERSWEET (*Celastrus scandens*). Frequently planted to cover fences and for screening unsightly buildings. Especially noted for its orange-colored berries which hang on well into winter. **2-yr., \$1.00 each; 2 for \$1.90.**

BOSTON IVY (*Ampelopsis veitchii*). Most popular deciduous climber. Clings to smooth surface walls. Often planted as a support to Evergreen English Ivy, the two climbing to great heights. **2-yr., \$1.00 each; 2 for \$1.90; 6 for \$5.50; 12 for \$10.00.**

ENGLISH IVY (*Hedera helix*). Broad, glossy evergreen foliage. Used as a ground cover in low, shady places as well as a border to walks and garden paths. Can be planted for covering walls, but should be used in connection with Boston Ivy for climbing smooth walls. **4-in. pots, \$1.00 each; 2 for \$1.90; 6 for \$5.50; 12 for \$10.00. 2 1/4-in. pots, 2 for \$1.00; 6 for \$2.70; 12 for \$5.00; \$35.00 per 100.**

CLEMATIS, Large Flowering

No other climbing vine equals in attractiveness the beautiful Large Flowering Clematis. Profusion of bloom in May, followed with some blossoms throughout summer. Excellent for porch and trellis planting.

Henryi. Large, single white.
Jackmani. Most popular large purple.
Mme. Andre. Large, violet-red.

PRICES: 2-yr., \$1.60 each; 2 for \$3.00; 5 or more, \$1.40 each.

LARGE FLOWERING CLEMATIS OFFER: One each Henryi, Jackmani, and Mme. Andre—Total 3 Clematis, 2-yr., for \$4.80, postpaid to points east of the Mississippi.

For Decoration, Shade and Screens

CLEMATIS paniculata. The finest Small Flowering Clematis. In midsummer entire vine is clothed in a mass of white bloom. **2-yr., \$1.00 each; 2 for \$1.90; 5 or more, 90c each.**

KUDZU VINE (*Pueraria*). One of the fastest growers of all vines. Useful for covering steep banks, unsightly buildings or for making quick screen or shade. **3 for \$1.80; 6 for \$3.50; 12 for \$6.00; \$35.00 per 100.**

TRUMPET VINE (*Bignonia radicans*). Large orange-scarlet trumpet-shaped flowers. Leaves light green. Suitable for covering trunks of trees, old buildings, etc. **2-yr., 2 for \$1.50.**

WISTERIA

Possibly most spectacular of all flowering vines. Vigorous grower, requiring considerable space and support. We offer the following:

Sinensis. Old favorite Chinese Wisteria. Long clusters of purple bloom hang from the vine in May. Useful, attractive vine for porches, fences and for covering buildings. **2-yr., \$1.35 each; 2 for \$2.50; 5 or more, \$1.20 each.**

Sinensis alba. Fragrant white. May. 10-yr., BB. Blooming Size Specimens, **\$15.00 each.**

Multijuga rosea. Long, clustered, clear pink. 10-yr. Blooming Size Specimens, **\$15.00 each.**

 Above groups postpaid to points east of the Mississippi.

NOTE: Above Roses sold separately at \$1.35 each, f.o.b. Waynesboro, Virginia.

GROUND COVER PLANTS

To cover and hold banks too steep for mowing and for covering barren spots too shady for lawn grass.

BIGLEAF WINTERCREEPER (*Euonymus radicans vegetus*) Evergreen. Bushy. Round, dull green leaves. Scarlet berries. Excellent among evergreens or in borders. **2-year,** 2 for \$1.40; 6 for \$3.90; 12 for \$7.20. **4-year,** 2 for \$2.90; 6 for \$8.40; 12 for \$15.60.

EUONYMUS RADICANS MINIMUS (Baby Wintercreeper). Very small, dark green, dense foliage. Clings to almost any surface. Valuable in the rock garden or shady places in the garden where an evergreen ground cover of delicate appearance is needed. **3-in. pots,** 2 for \$1.10; 6 for \$3.20; 12 for \$6.00.

GERMANDER (*Teucrium chamaedrys*). Low, shrub-like plant sometimes listed as a perennial. Used as a ground and bank cover plant in the rock garden. Rose-purple flowers; bluish tinged evergreen foliage. **2-yr.,** 2 for \$1.10; 6 for \$3.20; 12 for \$6.00.

HONEYSUCKLE, HALL'S (*Lonicera japonica halliana*). White and yellow fragrant flowers produced in abundance in early spring and occasionally throughout summer. Used chiefly for holding steep banks, as a ground cover in shady locations, and may also be used as a climber. **Bedding size,** 12 for \$2.50; 100 for \$15.00. **3-yr.,** 2 for \$1.00; 12 for \$5.00; 100 for \$35.00.

PACHYSANDRA TERMINALIS (Spurge). One of the best ground cover plants, particularly valuable in shade. Averages 6 to 8 in. in height and branches freely, forming dense mat. Its thick foliage is practically evergreen. **2-yr.,** 12 for \$3.50; 100 for \$25.00.

VINCA MINOR (Periwinkle). Old favorite trailing plant. Blue flowers, dark green leaves. Used as a ground cover under trees where grass fails, on steep banks, and borders for garden paths. **Bedding size,** 12 for \$2.50; 100 for \$15.00. **2 1/4-in. pots,** 12 for \$3.50; 100 for \$25.00.

OTHER HARDY PERENNIALS

For best effect, plant three or more of a variety. You may not have room for shade trees, evergreens, shrubs, or even Roses, but can use perennials effectively arranged in spaces too limited for other ornamental plant material. (*) indicates suitable for rock gardens.

***ALYSSUM saxatile compactum** (Basket of Gold). Bright yellow. Early spring. 1 ft. 3 for \$1.20; 12 for \$4.50.

***BLEEDING HEART** (*Dicentra spectabilis*). Old-fashioned flower with long racemes of heart-shaped pink flowers in May and June. 2 ft. 75c each; 3 for \$2.00.

***CANDYTUFT, Hardy** (*Iberis sempervirens*). Dwarf plant 8 to 10 in. across covered with waxy white flowers in spring. 3 for \$1.20; 12 for \$4.50.

CARNATIONS, Hardy. Valuable for cut flowers and in borders. Delightful fragrance. Mixed colors. 3 for \$1.20; 12 for \$4.50.

***COLUMBINE** (Mrs. Scott Elliott's Hybrids). (*Aquilegia*). Choice old English strain of one of the best loved perennials. Pastel shades of rose, blue and yellow in many delightful combinations. Mixed. May and June. 2 ft. 3 for \$1.20; 12 for \$4.50.

DELPHINIUM, Giant Pacific Hybrids (Perennial Larkspur). A most beautiful perennial in the garden and one of the best cut flowers. Tall-growing. The huge florets are beautifully spaced on well branched, strong spikes as much as 3 ft. Various shades of blue blending into delicate pink. At its best in early June; some flowers throughout summer. 3 for \$1.60; 12 for \$6.00.

DIANTHUS plumarius (Clove Pink). Spice-scented pink Carnation-type flowers in May. 15 in. 3 for \$1.20; 12 for \$4.50.

***EUPHORBIA myrsinites.** A prostrate plant with attractive blue-green foliage which survives throughout winter. Yellow flowers in early spring. Especially desirable in rock gardens because of its evergreen foliage and prostrate habit. 3 for \$1.20; 12 for \$4.50.

***FORGET-ME-NOT** (*Myosotis palustris semperflorens*). Bright blue flowers all summer. Dwarf grower, ideal for moist, shady places, for the rock garden or border. 3 for \$1.20; 12 for \$4.50.

GAILLARDIA grandiflora. Numerous shades of orange, red and yellow. 3 for \$1.20; 12 for \$4.50.

GYPHOPHILA paniculata (Baby's Breath). Minute, starry, white flowers borne in profusion on massive, spreading plant with small, thread-like stems. Used in cut flower arrangements. Blooms for long period during summer. 3 for \$1.20; 12 for \$4.50.

***LILY-OF-THE-VALLEY** (*Convallaria majalis*). Old favorite garden plant. Dainty, white, bell-shaped flowers in May. Very fragrant. Can be grown in considerable shade. 6 to 10 in. 3 for \$1.20; 12 for \$4.50.

***SAPONARIA ocymoides splendens** (Soapwort). Dense masses of pink flowers in late spring, adding color to the rock garden or border planting. 3 for \$1.20; 12 for \$4.50.

SHASTA DAISY (*Chrysanthemum maximum*). Large white blossoms in June, July, and August. 2 ft. 3 for \$1.20; 12 for \$4.50.

SWEET WILLIAM (*Dianthus barbatus*). Old-fashioned garden favorite. Mixed colors. 3 for \$1.20; 12 for \$4.50.

NOTE: Ask for prices on Perennials in larger quantities.

BEAUTIFUL PHLOX Offered in two distinct classes

Hardy Upright (Phlox decussata) and **Hardy Creeping** (Phlox subulata)

OUTSTANDING UPRIGHT PHLOX

Available in following selected varieties, varying in height from 12 to 36 in. Bloom over extended period through midsummer.

Blue Boy. Free-flowering blue. Fairly tall grower.

Charles Curtis. Beautiful sunset-red. Strong, tall grower.

Flash. Tall, bright purple-red.

Lillian. Choice salmon-pink. Medium height.

Purple King. Lively, medium purple. Early flowering. Medium height.

World Peace. Large, pure white. Vigorous, tall grower.

PRICES ON ABOVE OUTSTANDING UPRIGHT PHLOX: 3 of one variety for \$1.50; 12 for \$5.50; not less than 2 of a variety.

CREeping PHLOX (Phlox subulata)

Early spring-flowering type with pretty, moss-like, evergreen foliage which, during the flowering season in April and May, is hidden under masses of bloom. Excellent for rockery and border; invaluable for carpeting the ground.

Creeping Phlox

Alba. Pure white. Neat, compact plant.

Atropurpurea. Rich, wine-red. Quite showy.

Blue Hill. Uniform, compact plant. Showy blue flowers.

Crimson Beauty. Pretty cyclamen-red with small, carmine center.

Emerald Pink. Compact grower. Masses of pink flowers.

Lilacina. Free-flowering, lilac-colored.

PHLOX SUBULATA PRICES: 3 of one variety for \$1.20; 12 for \$4.50, not less than 3 of a variety. Mixed Colors, 12 for \$3.85.

CREeping PHLOX ROCK GARDEN COLLECTION

4 each of six varieties listed—total 24 plants—\$8.65. Post-paid to points east of the Mississippi.

Charles Curtis Phlox

Top Prize Winning Iris

Easily grown. Will furnish glamorous flowers, in wide range of colors, year after year.

Blue Rhythm. Very large cornflower-blue.

Blue Shimmer. Large, handsome blooms; white with all-over blue peppered effect.

Casa Morena. Extra large, glistening henna-brown.

Elmohr. Giant, ruffled blooms of rich, reddish mulberry.

Grand Canyon. Deep colored blend of plum, copper and gold.

Minnie Colquitt. Massive ruffled white with broad wine-purple border.

Mulberry Rose. Radiant, lovely mulberry-rose. Big-flowering.

New Snow. Large, pure white with bright yellow beard.

Ola Kala. Flaring, lightly ruffled flowers of deep yellow. Striking.

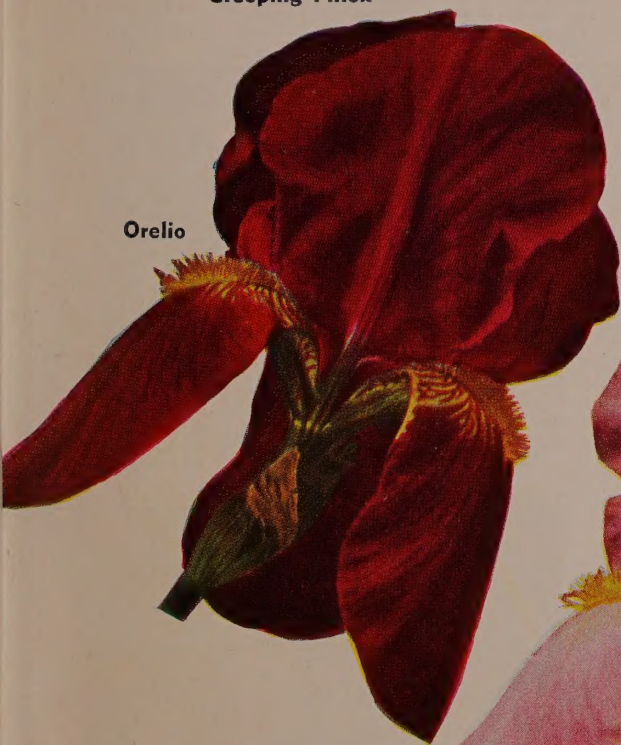

Orelia. Large, rich brown-red. See illustration.

Pink Satin. Fine, large pink. See illustration.

Ranger. Distinctive, late-blooming, very dark red.

Price of above named Iris: 2 of one variety for \$1.30. 12 Iris—2 each of six varieties of your choice—for \$7.15.

TULIPS

To Insure a Colorful Spring

We offer the following varieties and classes of Jumbo Size Tulip Bulbs, which produce much larger, stronger flowers than smaller, cheaper bulbs often advertised at so-called bargain prices.

FAVORITE STANDARD TULIPS

Bleu Aimable (Darwin). Rich bluish lilac.
Demeter (Darwin). Outstanding lavender-purple.
Dillenberg (Breeder). Popular glowing salmon-orange.
Gloria Swanson (Darwin). Deep raspberry-red, flushed garnet.
Golden Harvest (Cottage). Beautiful yellow.

King George V (Darwin). Brilliant carmine-red.
Princess Elizabeth (Darwin). Vivid rose-pink.
Princess Margaret Rose (Cottage). Yellow with red edge.
The Bishop (Darwin). Large violet-blue.
Zwanenburg (Darwin). Favorite pure white.

PRICES—Standard Tulips Listed Above—Jumbo Size Bulbs:
 Postpaid to points east of the Mississippi.

Per 15—Not less than 3 of a variety\$1.75
Per 25—Not less than 5 of a variety2.70
Per 50—Not less than 5 of a variety4.85
Per 100—Not less than 10 of a variety8.25

NOTE: Name in parenthesis indicates Tulip class. **Breeder**—usually dark shades, blooming with Darwin. **Cottage**—blooms later than Darwin. **Darwin**—best known and most extensively planted Tulips.

RED EMPEROR TULIP

The King of Tulips

The World's Largest, Earliest Botanical Tulip. Spectacular, intense scarlet blooms on strong stems. Handsome foliage. Blooms with King Alfred Daffodil and the two make a lovely early springtime picture.

Hardy LILIES

Madonna Lily (Candidum). One of the most beautiful pure white Lilies. June. Offered for fall delivery only. 3 for \$1.60; 12 for \$6.00. Postpaid to points east of the Mississippi.

Magic Lily (Lycoris squamigera). Hardy Amaryllis. Green foliage, which disappears in July, followed a month later, as if by magic, by flower stalks springing from the ground to a height of 2 to 3 ft., developing large, Lily-shaped, delicate lilac-pink flowers, 4 in. across, appearing in clusters of 8 to 12. 3 for \$1.60; 12 for \$6.00. Postpaid to points east of the Mississippi.

Regal Lily (Regale). White flowers with pink and yellow throat. Very fragrant. Most popular hardy garden Lily; also beautiful and lasting as a cut flower. June. 3 for \$1.35; 12 for \$4.50. Postpaid to points east of the Mississippi.

4- 5 ft., BB. . . .	7.50	14.30	7.05

Cherokee Chief Red Dogwood

DOGWOODS (Cornus)

No native tree is more admired and extensively used than the Dogwood, which is a shapely, dwarf, rapid grower, blooming when quite young. Beautiful as specimens and especially effective at edge of woodland under taller growing trees or as a border to an evergreen background, affording a most pleasing effect in spring when in full blossom.

The Dogwood may be had in pure white, deep pink and red. The three colors combined in group plantings produce a striking springtime picture. Brilliant autumn foliage and red berries which carry well into winter. Somewhat more difficult to transplant than the average tree, therefore offered dug without ball (NB) in only the 18-24 in. and 2-3 ft. sizes. We also offer 2-3 ft. and larger sizes balled and burlapped (BB), minimizing risk in transplanting.

WHITE FLOWERING DOGWOOD

(*Cornus florida*)

Virginia's State Flower. Native White Dogwood admired by all who have seen it growing wild. Offered in nursery-grown, acclimated trees.

	Each	2 for	5 or more
	Each	Each	Each
2-3 ft., NB. . . .	\$2.00	\$ 3.80	\$1.85
3-4 ft., BB. . . .	4.50	8.60	4.20

5-6 ft., BB. . . .	7.00	13.40	6.55

White Flowering Dogwood

New - - - Outstanding CHEROKEE CHIEF, RED FLOWERING DOGWOOD

(*Cornus florida rubra*)

At last a Red Flowering Dogwood—beautiful, deep, ruby-red which holds up throughout blooming season.

Growth habits of the tree similar to White and Pink Flowering Dogwoods, differing only by having deep, ruby-red flowers and red coloring in the new growth. Recently honored with U. S. Plant Patent No. 1710.

	Each	2 for	5 or more
	Each	Each	Each
18-24 in., NB. . . .	\$3.00	\$ 5.80	\$2.80
